The Catalog sales objective also includes additional creative optimizations via Performance+ creative.\n\nFeatures\n\nPerformance+ combines Pinterest\u2019s top performing automation and AI features into a simplified campaign setup with 50% fewer inputs and optimized features:\n\n* Simple activation: Activate Performance+ campaigns with a toggle at the beginning of campaign creation for Consideration, Conversions or Catalog sales campaigns.\n* Ad groups: A new ad group is automatically created when you begin a new Performance+ campaign.\u00a0\n* Budget: Performance+ uses Lifetime and Average Daily budgets only. There\u2019s no budget limit per campaign.\n* Performance+ creative for the Catalog sales objective: You have the option to use AI to generate image backgrounds, and/or implement creative optimizations which automatically create Collections and Shopping ads from your catalog.\n* Targeting: Simplified targeting options to maximize performance. Performance+ campaigns allow country picker, simplified age targeting, and support Customer lists (include / exclude).\u00a0\n* Optimization & Delivery:\n\n * Performance+ campaigns use Performance+ bidding to ensure the most outcomes for the lowest cost.\n * Conversion and Catalog Sales campaigns can use conversions and add to cart as conversion events.\u00a0\n\n* Catalog Sales Product Groups: Performance+ uses the All Products product group and does not include a Product Group picker.\n\nAd groups\n\nPerformance+ automatically creates ad groups for your campaigns based on different actions taken during the create flow process.\u00a0\n\n* All Performance+ campaigns automatically receive one auto generated ad group\u00a0\n* If you include a customer list in your campaign, we\u2019ll create a second remarketing ad group from your customer list(s).\u00a0\n* If you run a Performance+ Catalog sales campaign we\u2019ll create a prospecting ad group (using the All Products product group) and another Dynamic Retargeting ad group to remarket to users. \u00a0You can not opt out of the Dynamic Retargeting ad group during the create flow experience, nor can you control the percentage of spend that goes to each ad group.\u00a0\n* If you add a customer list to your Performance+ Catalog sales campaign we\u2019ll also make a third ad group targeting those users.\n\nPerformance+ creative\n\nPerformance+ creative provides automated assistance to help you create ads across multiple Pinterest formats, optimize your ads according to your campaign objectives and use AI to generate backgrounds for both Performance+ and non-Performance+ Catalog sales campaigns.\n\n* Creative optimizations: Automatically turn your product Pins into multiple types of ads (collections and shopping) and deliver the best performing ads to users at scale.\n* Generate backgrounds: Uses generative AI to apply backgrounds for your product images that help

drive user inspiration and engagement.\n\nPerformance+ creative is available for both Performance+ and non-Performance+ Catalog sales campaigns.\n\nNote: Generate backgrounds and Creative optimizations can be used independently or together.\n\nPerformance+ setup\n\nLearning mode\n\nAfter launching a Performance+ campaign advertisers will see an icon on the Ads Reporting dashboard for Learning that indicates that your campaign is new and still finding the right audience.\n\nOnce you create a campaign, we show the ads to different types of people to learn who is most likely to convert. During this phase, your campaign may experience some performance fluctuations.\n\nOnce Learning mode is complete and we have enough data, we show your ads to the people most likely to convert. At this point, your campaign\u2019s performance should stabilize and you can make changes. If you make changes to your campaign while it\u2019s in Learning mode, it might reset and take longer.\n\nDon\u2019t turn off your campaign during Learning Mode, and wait for the Learning indicator to disappear so that we can deliver the best results.\n\nLearning mode varies by each unique advertiser with no set time horizon for when it will turn off. Learning mode is removed when the system finds that conversion events have stabilized. labeled \u201cPixel01\u201d in your Facebook Business Manager. However, let me guide
you on verifying its setup and implementing it on your website:\n\n### 1. **Confirm
Pixel Creation**:\n - In Facebook Business Manager, go to **Data Sources** >
Pixels to check if "Pixel01" is active. If the Pixel is active, you
should see some basic information or setup instructions.\n\n### 2. **Install the Pixel
on Your Website**:\n - Once confirmed, click on the **Pixel01** name or select
Details.\n - Follow the instructions to add the Pixel to your website.
You\u2019ll usually have the option to:\n   - Use **Partner Integrations** (such as
Shopify, WordPress) for a straightforward setup.\n   - Or, manually add the Pixel
code to your website by copying the snippet provided and pasting it into the
`<head>` section of your website's HTML.\n\n### 3. **Verify Pixel
Functionality**:\n - After setting up the Pixel, install the **Facebook Pixel
Helper** Chrome extension to ensure it\u2019s firing correctly.\n - Visit your
website, and the Pixel Helper will show if your Pixel is working and tracking events
like page views.\n\nIf "Pixel01" isn't fully configured, the Pixel
setup wizard should guide you through these steps. Let me know if you need help with

The new structure can feel a bit confusing, so let me guide you through how to ensure your Pixel is properly set up and tracking under this updated layout.\n\n### Step-by-Step Guide to Setting Up and Checking Your Pixel in Datasets\n\n1. **Go to Datasets**:\n - As you saw in the screenshot, navigate to **Data Sources** > **Datasets** in your Facebook Business Manager.\n - Here, you should see your Pixel listed (in your case, \u201cPixel01\u201d).\n\n2. **Check Pixel Status**:\n - Click on **Pixel01** or select **Details** next to it.\n - This should open a detailed view where you can see the Pixel\u2019s status (such as whether it\u2019s active, inactive, or uninstalled) and get the Pixel ID.\n\n3. **Install Pixel Code on Your Website** (if you haven't already):\n - In the Pixel details, look for the **Set Up Pixel** or **Add Events** button.\n - Facebook will provide a Pixel code snippet. Copy this code and paste it into the `<head>` section of your website's HTML, or use a partner integration (such as with Shopify or WordPress) to install it.\n\n4. **Set Up Events and Conversions** (Optional but Recommended):\n - If you want to track specific actions (e.g., add-to-cart, purchase), click on **Add Events**.\n - You can either use **Event Setup Tool** (no coding required) or manually add event codes if you\u2019re comfortable with HTML.\n\n5. **Test and Verify with Facebook Pixel Helper**:\n - After you\u2019ve added the Pixel to your website, download the **Facebook Pixel Helper** extension for Chrome.\n - Visit your website, and the Pixel Helper will show you if the Pixel is firing correctly and whether specific events are tracked properly.\n\n6. **Custom Conversions and Audiences** (optional but valuable for targeting):\n - Under **Data Sources**, you can also set up **Custom Conversions** based on the events tracked by your Pixel.\n - This will allow you to create custom audiences (for remarketing) and optimize for specific actions like purchases or leads.\n\n### Note:\nFacebook is continuously updating its interface, so some labels or locations of these options may vary. If you don\u2019t see a certain option, it\u2019s worth checking Facebook\u2019s help center for the latest documentation.\n\nLet me know if you need further help with this new setup!"]}, "status": "finished_successfully","end_turn": true

Here\u2019s what you should do next to make sure it\u2019s working for your campaigns:\n\n### 1. **Connect the Pixel to Your Ad Account**:\n - In the **Business Assets** section, look for the option to **Connect assets** (this could be either to connect this dataset to an ad account or to a website).\n - Select your ad account so that this Pixel can be used to track events and optimize campaigns.\n\n### 2. **Assign People or Partners (if applicable)**:\n - If other team members or partners need access to this Pixel, use the **Assign people** or **Assign partner** buttons. This will ensure they have the permissions needed to manage Pixel settings, view data, or set up events.\n\n### 3. **Verify Pixel Code Implementation**:\n - If you haven\u2019t already, implement the Pixel code on your website by adding it to the `<head>` section of your site. The Pixel code is available under **Datasets** > **Pixel01** > **Details**.\n - Alternatively, use a partner integration if your website platform supports direct integration with Facebook (e.g., Shopify, WordPress, or Google Tag Manager).\n\n### 4. **Configure and Track Events**:\n - In the Pixel settings under Datasets, you can define which events you want to track (e.g., page views, add-to-cart, purchase). Facebook provides an **Event Setup Tool** for easier setup without coding.\n\n### 5. **Verify with Facebook Pixel Helper**:\n - After setup, test your Pixel using the **Facebook Pixel Helper** Chrome extension. Visit key pages on your site, and the extension will show if the Pixel is tracking events correctly.\n\n### 6. **Use in Ad Campaigns**:\n - Once confirmed, you can select this Pixel (Pixel01) in your ad campaigns under **Ad Set > Optimization & Delivery** to optimize based on the events it tracks.\n\nThis setup will enable you to track user behavior and conversions, allowing you to retarget visitors, create lookalike audiences, and improve your ad performance over time. `<head>` or `<body>` section of the cart page\u2019s HTML, ideally in the
`<head>` section if possible. on Cart Page**\n - After setting it up, go to your cart page and open the **Facebook Pixel Helper** Chrome extension to verify if the Pixel is firing correctly on that page.\n - You should see a PageView event firing in the Pixel Helper on your cart page.\n\nBy setting up the Pixel specifically on the cart page, you can track customer interactions and gain insights into behaviors on that crucial page. If you\u2019re on this plan, here\u2019s how to add your Pixel code:\n\n### Steps to Add Facebook Pixel Code in Carrd.co\n\n1. **Upgrade to Pro Plus** (if you haven\u2019t already):\n - Go to **Settings** in Carrd, and check if you have the Pro Plus plan. Only this plan allows for custom code injections.\n\n2. **Edit Your Carrd Site**:\n - Go to your Carrd dashboard, open the site where you want to add the Pixel (typically, your cart page if you have a dedicated one in Carrd).\n\n3. **Open the Site Settings**:\n - Click the **Settings** icon (\u2699\ufe0f) in the top bar of the Carrd editor.\n\n4. **Navigate to the Code Section**:\n - Scroll down to the **Add to Site** section and look for **Code**. This is where you can insert custom code that will be applied to the entire site.\n\n5. **Insert the Pixel Code**:\n - Copy your Facebook Pixel code and paste it into the **Header** section under the Code section.\n - If you only want it on a specific part of your site (like a cart page), and Carrd does not allow page-specific code, your best option might be to add the Pixel to the entire site and then adjust events later in the Facebook Events Manager (e.g., setting custom conversions for specific URL visits).\n\n6. **Publish Your Changes**:\n - Save and publish your site to apply the changes.\n\n7. **Verify the Pixel is Working**:\n - Visit your Carrd site in a new browser window and open the **Facebook Pixel Helper** Chrome extension.\n - Check if the Pixel fires correctly by looking for the PageView event.\n\n### Limitations to Note\nCarrd\u2019s structure might not allow you to restrict the Pixel specifically to a "cart page" if your site uses one-page navigation, which Carrd sites often do. In this case, the Pixel will likely fire on

all views of the site. You can address this by setting up specific events within Facebook\u2019s Event Manager for tracking actions that visitors take after they view the \u201ccart\u201d section of your Carrd site.\n\nLet me know if you need any further help with Carrd or with refining events within Facebook!"]}, "status": "finished_successfully","end_turn": true

However, here are some alternative options you could consider:\n\n### 1. **Upgrade to Pro Plus Temporarily**\n - If your goal is to set up the Pixel for a specific campaign or timeframe, consider upgrading to **Pro Plus** temporarily (even for a month) to add the Pixel. Once your Pixel is installed, you can track users for the duration of your campaign.\n - This approach can be a cost-effective way to gain insights during high-impact campaigns without committing to a long-term subscription.\n\n### 2. **Use a Landing Page Builder that Allows Free Custom Code**\n- Consider using a different free tool that supports custom code for creating a Pixel-enabled landing page. Some options include:\n   - **Google Sites**: Although limited in design, Google Sites lets you embed HTML, including Pixel code.\n   - **WordPress.com**: The free version of WordPress doesn\u2019t allow plugins, but WordPress.org (self-hosted) does if you\u2019re comfortable setting up hosting.\n- **Mailchimp Landing Pages**: While limited in design, Mailchimp offers free landing pages with some tracking capabilities.\n   - **ConvertKit**: ConvertKit has a free plan that allows for some custom tracking on landing pages.\n - You can then link this landing page to your Carrd site as a workaround.\n\n### 3. **Use Carrd as the Main Page, Link to a Tracked Page for Conversions**\n - If you want to use Carrd as a home page, create a \u201cCall to Action\u201d button on Carrd that links to a secondary page (built with one of the tools above) that does allow Pixel tracking.\n- For example, your Carrd page could contain general information, and users clicking \u201cGet Started\u201d or \u201cProceed to Cart\u201d would be directed to the Pixel-enabled landing page where you can track conversions.\n\n### 4. **Track Conversions

via URL Parameters and Manual Analysis**\n - Without Pixel support, you can still track some visitor behavior by using **UTM parameters** in your links.\n - For instance, you could create a link like `https://yourcarrdpage.com?utm_source=facebook&utm_campaign=yourcampaign` for your Facebook ads.\n - While it won\u2019t provide real-time data in Facebook, you can still monitor these links in Google Analytics or another analytics platform if you're able to integrate it into your flow.\n\n### 5. **Consider Upgrading to Pro Lite if Budget is a Concern**\n - Carrd\u2019s **Pro Lite** plan is more affordable and allows you to use a custom domain, which can help you establish brand credibility. Although it doesn\u2019t support custom code, it could be a middle ground for other benefits.\n\nIn summary, while the free version of Carrd restricts adding a Facebook Pixel, you have some alternative options. The most straightforward would be a temporary upgrade or using a secondary tool for the tracked portion of your funnel. The Pixel allows you to create **Custom Audiences** from visitors, which often leads to better conversion rates because these users have already shown interest.\n\n### 2. **Limited Tracking of Conversions**\n - Facebook\u2019s algorithm heavily relies on data from the Pixel to understand who is converting (completing your quiz, for example) so it can optimize ads to show them to people more likely to take similar actions.\n - Without the Pixel, Facebook\u2019s

ad optimization will be less effective, and you might see lower returns on ad spend as Facebook won't know who is actually taking meaningful actions on your site.\n\n### 3. **Lack of Insight into User Behavior**\n - The Pixel provides detailed insights into how users interact with your page, including information on who views, clicks, or completes actions. This can help you fine-tune your campaigns and page content.\n - Without these insights, you won\u2019t know which parts of your page or funnel might need improvement to increase conversions.\n\n### 4. **Conversion Tracking Limitations**\n - If your goal is to track the number of quiz completions (or any other specific goal), the Pixel would provide you with direct metrics in Facebook Ads Manager. Without it, you\u2019ll have to rely on other analytics platforms (if available on Carrd) or manually calculate conversions based on quiz completions.\n\n### Alternatives Without Pixel Integration\n\nIf you decide to proceed without a Pixel, here are a few strategies to still get useful insights and optimize your campaign:\n\n1. **Use UTM Parameters on Facebook Ads**:\n - Use **UTM parameters** to tag your links in Facebook Ads. For example: `https://lunarquiz.carrd.co/?utm_source=facebook&utm_campaign=lunar_insight_campaign`.\n - This way, if you\u2019re using a separate analytics tool (like Google Analytics), you can still track traffic sources and campaigns, giving you some insight into performance.\n\n2. **Encourage Immediate Action**:\n - Since retargeting won\u2019t be available, make sure your landing page and quiz have a strong call-to-action (CTA) and a compelling reason to complete the quiz immediately.\n - A sense of urgency or offering something unique at the end of the quiz could improve conversion rates, helping compensate for the lack of retargeting.\n\n3. **Use Facebook's In-App Lead Forms as an Alternative**:\n - If your goal is to capture leads (like email addresses or quiz responses), consider using **Facebook Lead Ads**. This allows users to interact with the quiz or sign-up form directly within Facebook, reducing the need for a Pixel on your website.\n - Facebook Lead Ads are pre-filled with user information, often increasing the completion rate.\n\n4. **Consider a Custom Domain with Pro Lite for UTM Tracking**:\n - If your budget allows, upgrading to Carrd\u2019s **Pro Lite** plan and connecting a custom domain can improve brand perception and make UTM tracking more seamless.\n - A custom domain can also improve user trust, potentially boosting your conversion rate.\n\n5. **Analyze Quiz Completions Directly**:\n - If your quiz tool on Carrd allows you to see the number of quiz completions, track this metric manually alongside your Facebook ad clicks. While this won\u2019t be as automated as using a Pixel, it gives you a rough estimate of your conversion rate from Facebook ads to quiz completions.\n\n6. **Retarget Based on Engagement with Facebook Ads**:\n - Without a Pixel, you can still create retargeting audiences based on **Facebook Page engagement** or **Ad engagement**. For example, you can retarget users who interacted with your ad but didn\u2019t click through.\n - Set up a custom audience of people who engaged with the ad (likes, shares, or clicks) and show them follow-up ads encouraging them to return to the quiz.\n\n### In Summary\n\nWhile continuing without a Pixel will limit advanced tracking, retargeting, and optimization capabilities, you can still run a successful campaign with adjustments to your approach. Using UTMs, encouraging immediate action, and leveraging Facebook Lead Ads or engagement-based retargeting can help you make the most of the campaign without full Pixel integration.\n\nLet me know if you\u2019d like specific help with any of these strategies!"]}, "status": "finished_successfully","end_turn": true

your Facebook ad data (click-through rates, impressions).\n - This will allow you to estimate your quiz completion rate and measure the effectiveness of your ads, even without Pixel tracking.\n\n#### 7. **Encourage Social Sharing at the End of the Quiz**\n - If your quiz results are fun or insightful, prompt users to share their results on social media. This can increase organic reach and bring additional visitors to your quiz page.\n - Add a simple message at the end, like \u201cShare your Lunar Insight with friends!\u201d with a link or button that makes it easy to share.\n\nBy implementing these strategies, you can still run a successful campaign and measure effectiveness, even without Facebook Pixel integration on your Carrd page. Elevated scores point to a stronger link with these questionable online destinations. It's worth noting that website owners might not always be aware of their site's proximity to these dubious platforms or servers. However, a "Proximity to Suspicious Websites" score surpassing 80 strongly indicates a high-risk website, while a score below 30 signifies a less-threatening site.\n\n### Risk Factors: Threat, Phishing, Malware, and Spam\n\nThese indicators reveal the vulnerabilities and elements embedded within the HTML code of futurenest.com. They become especially pertinent if the website has received reports from internet users who've encountered unsolicited emails, ads, or messages related to the site. In the context of futurenest.com, our investigation continues working to pinpoint the specific category, but we welcome your insights in the comments below. A high Malware score generally implies the presence of suspicious code that might be unknowingly disseminated. Conversely, a high Spam score hints at a possibly spam-ridden email address associated with the business. Scores under 30 in both categories are reassuring, but any score surpassing this threshold should raise concerns. futurenest.com is likely a safe website, given all the risk factors and data numbers analyzed in this in-depth review. Share your experience in the comments.\n\n### Domain Blacklisting Status\n\nThis term indicates whether futurenest.com has landed on any online directories' blacklists and earned a suspicious tag.\n\n### Assessing HTTPS Connectivity\n\nThis section provides insight into whether futurenest.com boasts an 's' at the end of the 'HTTP' protocol listed in your browser's address bar. Elevated scores point to a stronger link with these questionable online destinations. It's worth noting that website owners might not always be aware of their site's proximity to these dubious platforms or servers. However, a "Proximity to Suspicious Websites" score surpassing 80 strongly indicates a high-risk website, while a score below 30 signifies a less-threatening site.\n\n### Risk Factors: Threat, Phishing, Malware, and Spam\n\nThese indicators reveal the vulnerabilities and elements embedded within the HTML code of futurenest.com. They become especially pertinent if the website has received reports from internet users who've encountered unsolicited emails, ads, or messages related to the site. In

the context of futurenest.com, our investigation continues working to pinpoint the specific category, but we welcome your insights in the comments below. A high Malware score generally implies the presence of suspicious code that might be unknowingly disseminated. Conversely, a high Spam score hints at a possibly spam-ridden email address associated with the business. Scores under 30 in both categories are reassuring, but any score surpassing this threshold should raise concerns. futurenest.com is likely a safe website, given all the risk factors and data numbers analyzed in this in-depth review. We advise you to think twice about using this website's services because the personal information you enter on it, and consequently, your device, could be hacked.\n\n### Webshop Review\n\nThe Tranco ranking of this website is low. This can be considered low in relation to other websites from the website's country. If you think this website should be very popular, please invest additional time in researching the company as this is suspicious. For a smaller or starting website a low ranking can be considered normal.\n\nMost companies claim the name of their website (aka domain name) for only one year in advance. they can automatically renew the registration each year. We consider it a positive sign if a domain name is registered for more than one year in the future. It means that the company intends to do business for a long time. We increased the Trust Score of futurenest.com as a result.\n\nThe domain name of this website has been registered several years ago. Stories\n\n\u301033\u2020 How to Recognize a Scam Website \u3011 \n\nAs the influence of the internet rises, so does the prevalence of online scams. There are fraudsters making all kinds of claims to trap victims online - from fake investment opportunities to online stores - and the internet allows them to operate from any part of the world with anonymity. The ability to spot online scams is an important skill to have as the virtual world is increasingly becoming a part of every facet of our lives. The below tips will help you identify the signs which can indicate that a website could be a scam. Common Sense: Too Good To Be True When looking for goods online, a great deal can be very enticing. A Gucci bag or a new iPhone for half the price? Who wouldn\u2019t want to grab such a deal? Scammers know this too and try to take advantage of the fact. If an online deal looks too good to be true, think twice and double-check things. The easiest way to do this is to simply check out the same product at competing websites (that you trust). If the difference in prices is huge, it might be better to double-check the rest of the website. Check Out the Social Media Links Social media is a core part of ecommerce businesses these days and consumers often expect online shops to have a social media presence. Scammers know this and often insert logos of social media sites on their websites. Well first of all, don\u2019t despair!! If you think you have been scammed, the first port of call when having an issue is to simply ask for a refund. This is the first and easiest step to determine whether you are dealing with a genuine company or scammers. Sadly, getting your money back from a scammer is not as simple as just asking.\u00a0 If you are indeed dealing with scammers, the procedure (and chance) of getting your money back varies depending on the payment method you used. PayPal Debit card/Credit card Bank transfer Wire transfer Google Pay Bitcoin PayPal If you used PayPal, you have a strong chance of getting your money back if you were scammed. On their website, you can file a dispute within 180 calendar days of your purchase. Conditions to file a dispute: The simplest situation is that you ordered from an online store and it has not arrived. In this case this is what PayPal states: "If your order never shows up and the seller can't provide proof of shipment or delivery, you'll get a full refund. It's that simple." An attacker might use one compromised website on the same server as a portal to all other websites on the same server if you employ a shared server for such data-sensitive services. We advise you to think twice about using this website's services because the personal information you enter on it, and consequently, your device, could be hacked.\n\n### Webshop Review\n\nThe Tranco ranking of this website is low. This can be considered low in relation to other websites from the website's country. If you think this website should be very popular, please invest additional time in researching the company as this is suspicious. For a smaller or starting website a low ranking can be considered normal.\n\nMost companies claim the name of their website (aka domain name) for only one year in advance. they can automatically renew the registration each year. We consider it a positive sign if a domain name is registered for more than one year in the future. It means that the company intends to do business for a long time. We increased the Trust Score of futurenest.com as a result.\n\nThe domain name of this website has been registered several years ago. In general, the older the website the more trustworthy it becomes. However, scammers sometimes buy

existing websites and start doing their evil thing, so please make sure you check for other scammy attributes as well.\u00a0\n\n### \n\nTechnical Review\n\nWe identified an SSL certificate meaning that the data shared between your browser and the website is encrypted and cannot be read by others. There are fraudsters making all kinds of claims to trap victims online - from fake investment opportunities to online stores - and the internet allows them to operate from any part of the world with anonymity. The ability to spot online scams is an important skill to have as the virtual world is increasingly becoming a part of every facet of our lives. The below tips will help you identify the signs which can indicate that a website could be a scam. Common Sense: Too Good To Be True When looking for goods online, a great deal can be very enticing. A Gucci bag or a new iPhone for half the price? Who wouldn\u2019t want to grab such a deal? Scammers know this too and try to take advantage of the fact. If an online deal looks too good to be true, think twice and double-check things. The easiest way to do this is to simply check out the same product at competing websites (that you trust). If the difference in prices is huge, it might be better to double-check the rest of the website. Check Out the Social Media Links Social media is a core part of ecommerce businesses these days and consumers often expect online shops to have a social media presence. Scammers know this and often insert logos of social media sites on their websites. Scratching beneath the surface often reveals this fu \n\n\u301033\u2020 Read more \u3011 \n\n\u301034\u2020 How Do I Get Money Back From a Scammer? \u3011 \n\nSo the worst has come to pass - you realise you parted with your money too fast, and the site you used was a scam - what now? Well first of all, don\u2019t despair!! If you think you have been scammed, the first port of call when having an issue is to simply ask for a refund. This is the first and easiest step to determine whether you are dealing with a genuine company or scammers. Sadly, getting your money back from a scammer is not as simple as just asking.\u00a0 If you are indeed dealing with scammers, the procedure (and chance) of

getting your money back varies depending on the payment method you used. PayPal Debit card/Credit card Bank transfer Wire transfer Google Pay Bitcoin PayPal If you used PayPal, you have a strong chance of getting your money back if you were scammed. For a smaller or starting website a low ranking can be considered normal.\n\nMost companies claim the name of their website (aka domain name) for only one year in advance. they can automatically renew the registration each year. There are fraudsters making all kinds of claims to trap victims online - from fake investment opportunities to online stores - and the internet allows them to operate from any part of the world with anonymity. The ability to spot online scams is an important skill to have as the virtual world is increasingly becoming a part of every facet of our lives. The below tips will help you identify the signs which can indicate that a website could be a scam. Common Sense: Too Good To Be True When looking for goods online, a great deal can be very enticing. A Gucci bag or a new iPhone for half the price? Who wouldn\u2019t want to grab such a deal? Scammers know this too and try to take advantage of the fact. If an online deal looks too good to be true, think twice and double-check things. The easiest way to do this is to simply check out the same product at competing websites (that you trust). If the difference in prices is huge, it might be better to double-check the rest of the website. Check Out the Social Media Links Social media is a core part of ecommerce businesses these days and consumers often expect online shops to have a social media presence. Scammers know this and often insert logos of social media sites on their websites. Well first of all, don\u2019t despair!! If you think you have been scammed, the first port of call when having an issue is to simply ask for a refund. This is the first and easiest step to determine whether you are dealing with a genuine company or scammers. Sadly, getting your money back from a scammer is not as simple as just asking.\u00a0 If you are indeed dealing with scammers, the procedure (and chance) of getting your money back varies depending on the payment method you used. PayPal Debit card/Credit card Bank transfer Wire transfer Google Pay Bitcoin PayPal If you used PayPal, you have a strong chance of getting your money back if you were scammed. On their website, you can file a dispute within 180 calendar days of your purchase. Conditions to file a dispute: The simplest situation is that you ordered from an online store and it has not arrived. In this case this is what PayPal states: "If your order never shows up and the seller can't provide proof of shipment or delivery, you'll get a full refund. It's that simple." The scammer has sent you a completely different item. For example, you ordered a PlayStation 4, but

instead received only a Playstation controller.\u00a0 The condition of the item was misrepresented on the product page. Spam\n\nThese indicators reveal the vulnerabilities and elements embedded within the HTML code of futurenest.com. They become especially pertinent if the website has received reports from internet users who've encountered unsolicited emails, ads, or messages related to the site. In the context of futurenest.com, our investigation continues working to pinpoint the specific category, but we welcome your insights in the comments below. Review\n\nInvesting in oil, gold, foreign currencies and such has always been a high-risk endeavor. This website seems to offer content and possible also services in this area. Please make sure you are not investing in a scam. Check our article on \u301031\u2020How to check if a forex or investment site is legit or a scam?\u3011.\n\nThis website, which appears to provide banking, money lending, stock trading, and other financial services, is hosted on a shared server. An attacker might use one compromised website on the same server as a portal to all other websites on the same server if you employ a shared server for such data-sensitive services. We advise you to think twice about using this website's services because the personal information you enter on it, and consequently, your device, could be hacked.\n\n### Webshop Review\n\nThe Tranco ranking of this website is low. This can be considered low in relation to other websites from the website's country. If you think this website should be very popular, please invest additional time in researching the company as this is suspicious. For a smaller or starting website a low ranking can be considered normal.\n\nMost companies claim the name of their website (aka domain name) for only one year in advance. they can automatically renew the registration each year. We consider it a positive sign if a domain name is registered for more than one year in the future. It means that the company intends to do business for a long time. We increased the Trust Score of futurenest.com as a result.\n\nThe domain name of this website has been registered several years ago. In general, the older the website the more trustworthy it becomes. However, scammers sometimes buy existing websites and start doing their evil thing, so please make sure you check for other scammy attributes as well.\u00a0\n\n### \n\nTechnical Review\n\nWe identified an SSL certificate meaning that the data shared between your browser and the website is encrypted and cannot be read by others. SSL certificates are always used by legit and safe websites. There are fraudsters making all kinds of claims to trap victims online - from fake investment opportunities to online stores - and the internet allows them to operate from any part of the world

with anonymity. The ability to spot online scams is an important skill to have as the virtual world is increasingly becoming a part of every facet of our lives. The below tips will help you identify the signs which can indicate that a website could be a scam. Common Sense: Too Good To Be True When looking for goods online, a great deal can be very enticing. A Gucci bag or a new iPhone for half the price? Who wouldn\u2019t want to grab such a deal? Scammers know this too and try to take advantage of the fact. If an online deal looks too good to be true, think twice and double-check things. The easiest way to do this is to simply check out the same product at competing websites (that you trust). If the difference in prices is huge, it might be better to double-check the rest of the website. Check Out the Social Media Links Social media is a core part of ecommerce businesses these days and consumers often expect online shops to have a social media presence. Scammers know this and often insert logos of social media sites on their websites. Scratching beneath the surface often reveals this fu \n\n\u301033\u2020 Read more \u3011 \n\n\u301034\u2020 How Do I Get Money Back From a Scammer? \u3011 \n\nSo the worst has come to pass - you realise you parted with your money too fast, and the site you used was a scam - what now? Well first of all, don\u2019t despair!! If you think you have been scammed, the first port of call when having an issue is to simply ask for a refund. This is the first and easiest step to determine whether you are dealing with a genuine company or scammers. Sadly, getting your money back from a scammer is not as simple as just asking.\u00a0 If you are indeed dealing with scammers, the procedure (and chance) of getting your money back varies depending on the payment method you used. PayPal Debit card/Credit card Bank transfer Wire transfer Google Pay Bitcoin PayPal If you used PayPal, you have a strong chance of getting your money back if you were scammed. On their website, you can file a dispute within 180 calendar days of your purchase. Conditions to file a dispute: The simplest situation is that you ordered from an online store and it has not arrived. In this case this is what PayPal states: "If your order never shows up and the seller can't provide proof of shipment or delivery, you'll get a full refund. It's that simple." The scammer has sent you a completely different item. For example, you ordered a PlayStation 4, but instead received only a Playstation controller.\u00a0 The condition of the item was misrepresented on the product page. This involves compensating individuals or entities for referring candidates to employers or recruiting agencies. There are a few approaches to doing this:\n\n### 1. **Referral Programs for Recruiting**\n Many companies use referral programs to encourage employees or external partners to recommend potential candidates for job openings. These referrals are incentivized by providing rewards, either as cash bonuses, gift cards, or other benefits, once the referred candidate gets hired and completes a probation period. This structure is quite similar to affiliate marketing, as referrers earn commissions for successful "conversions."\n\n### 2. **Affiliate Recruiting Networks**\n Some platforms work like affiliate marketing networks but specifically focus on recruiting. These platforms allow people to become "affiliates" by promoting job listings or career opportunities for specific companies. If a candidate applies and gets hired via the affiliate\u2019s referral link, the affiliate earns a commission. Examples of such platforms include:\n - **Indeed** and **Glassdoor** sometimes allow partner integrations, where traffic or candidates referred from certain partners generate commissions.\n - **JobTarget** offers a service to distribute job postings across multiple job boards and uses a commission model to encourage partnerships.\n \n### 3. **Social Recruiting with

Affiliate Strategies**\n Similar to influencer marketing, recruiters or employers can partner with social media influencers who promote job openings to their audience. These influencers may earn a commission or flat fee for each successful candidate they refer. This is especially effective in niche industries where certain influencers have a relevant audience (e.g., tech, creative fields).\n\n### 4. **Platform-Based Recruiting Referral Programs**\n Platforms like **Workable** and **SmartRecruiters** offer built-in tools for referral recruiting. Companies can share job postings with employees, who in turn can share them with their networks, and receive rewards if those contacts are hired. This turns every employee into an affiliate-like recruiter.\n\n### 5. **Recruitment Marketing Agencies**\n Agencies that specialize in recruitment marketing can also operate on a performance-based model, similar to affiliate marketing. They help drive candidate applications to employers, and they are paid based on metrics such as the number of successful hires.\n\n### 6. **Freelance Recruiter Platforms**\n Platforms like **Hiretual** and **Recruitifi** allow freelance recruiters to submit candidates to companies\u2019 open positions. Freelance recruiters are paid when their candidates are successfully hired, which is similar to an affiliate commission model.\n\n### 7. **Utilizing Affiliate Networks for Job Listings**\n Some affiliate marketing networks, like **CJ Affiliate** or **ShareASale**, may include programs related to education or career services. Affiliates in this scenario could earn commissions by promoting educational courses or certifications that lead to employment opportunities, thus indirectly participating in the recruitment process.\n\nIf you're interested in starting something like this, consider partnering with companies that have open affiliate programs in the recruitment space or creating your own referral network targeting specific niches or industries."]}, "status": "finished_successfully","end_turn": true

Here are some observations on how the logo and the resume align with your intended brand:\n\n### **Logo Analysis**\n- **Creative, Visionary Elements**: The stars, book, and the whimsical typography continue to evoke a sense of creativity, which is great for conveying the "idea" and "dream" phase of your services.\n- **Added Icon**: The added symbol with the tagline "Ideas to Reality" adds a sense of practicality and purpose, bridging the gap between creativity and execution. The symbol also suggests a more structured, professional side to the business, which aligns with the consulting and project management aspects.\n- **Overall Feel**: The updated logo is still visually appealing and inviting, with the added elements helping to balance the artistic and professional sides of your brand.\n\n### **Resume Alignment**\n- Your resume demonstrates your broad and versatile skill set, covering areas such as operations management, customer success, software development, and project management, which are directly in line with the services you plan to offer.\n- **Experience in Multiple Domains**: Your experience as a Customer Success Manager, Service Delivery Manager, and roles in operations and logistics highlights your capability to support businesses across various stages\u2014much like your brand promises ("From Dream to Page to Product").\n- **Project Management and Consulting**: The skills you've demonstrated in planning, improving processes, managing large-scale projects, and

developing relationships are perfectly aligned with the consulting, operations/logistics, and full-scale project management services you intend to provide.\n- **Hands-On Execution and Leadership**: The achievements listed, such as increasing productivity, managing large portfolios, and enhancing team performance, show that you\u2019re not only about high-level strategy but also about hands-on, effective execution\u2014this matches well with your firm\u2019s value proposition of being a partner in realizing and executing ideas.\n\n### **Suggestions for Alignment**\n1. **Balance the Vision and Execution**: If you want to further align your branding (logo) with the broad spectrum of services, consider adding subtle elements that symbolize process and organization. This could be represented by gears, graphs, or arrows that hint at growth and strategy.\n2. **Tagline Consideration**: You could add a secondary tagline or descriptor on your website or business card to emphasize the operational side, such as \u201cFrom Vision to Strategy & Execution\u201d or "Creative Concepts with Operational Precision."\n3. **Resume Highlights**: Your resume is already quite strong, but if you plan to use it for pitching your business services, you might want to add a brief "Objective" or "Statement of Purpose" that connects your professional history to the new venture\u2014highlighting how your diverse experience translates into client success.\n\nThe combination of your updated logo and well-rounded resume presents Lexology Enterprises as both creative and practical\u2014a blend of inspiration with real-world business execution. This symbol captures the essence of the business while being easy to recognize even at smaller sizes.\n - Make the background simpler so that the focus remains on the book and brand name.\n\n3. **Typography-First Approach**:\n - Use just the words \u201cLexology Enterprises\u201d with a more minimal background, maybe just the watercolor cloud behind the text.\n - Add some of the stars or sparkles to maintain the magical, imaginative feel, but keep them

subtle.\n\n### **Considerations for Profile Picture**:\n- **Legibility**: Ensure that any text on the image is large enough to read clearly, even when viewed at a small scale.\n- **Visual Focus**: Profile images are best when they have a simple, bold symbol or centerpiece. The book and the phrase "Ideas to Reality" could serve as that focus.\n- **Color Palette**: Stick with the current color scheme (lavender, purple, soft tones) to ensure a cohesive brand look.\n\n### Example Workflow:\n- Take the central part of your current banner (the open book and the name "Lexology Enterprises").\n- Remove some of the smaller details to avoid making it appear cluttered.\n- Emphasize the "Ideas to Reality" icon in the profile image for easy recognition.\n\nIf you need specific help creating this simplified image, I can guide you on what software or tools to use or help refine the concept further!"]}, "status": "finished_successfully","end_turn": true , "weight": 1.0, "metadata": {"finish_details": {"type": "stop", "stop_tokens": [200002]}, "is_complete": true, "citations": [], "content_references": [], "gizmo_id": null, "message_type": null, "model_slug": "gpt-4o-canmore", "default_model_slug": "gpt-4o-canmore", "parent_id": "aaa2f800-64ff-4d9e-ad8a-a3e172e478fa", "request_id": "8dbd5f813ebd0f76-MXP", "timestamp_": "absolute"}, "recipient": "all", "channel": null}, "parent": "aaa2f800-64ff-4d9e-ad8a-a3e172e478fa", "children": ["aaa2c459-895a-4d97-9156-06587a38fbc9"]}, "aaa2c459-895a-4d97-9156-06587a38fbc9": {"id": "aaa2c459-895a-4d97-9156-06587a38fbc9", "message": {"id": "aaa2c459-895a-4d97-9156-06587a38fbc9", "author": {"role": "user", "name": null, "metadata": {}}, "create_time": 1730479754.025864, "update_time": null, "content": {"content_type": "text", "parts": ["I thought maybe you could do it for me"]}, "status": "finished_successfully", "end_turn": null, "weight": 1.0, "metadata": {"serialization_metadata": {"custom_symbol_offsets": []}, "request_id": "8dbd607cf8cb0d6d-MXP", "message_source": null, "timestamp_": "absolute", "message_type": null}, "recipient": "all", "channel": null}, "parent": "d1ae0d0d-f72f-4e26-9117-2af5acf070d8", "children": ["6664a7ae-b8fb-48bc-acf0-d2e3b5e2c4a8"]}, "6664a7ae-b8fb-48bc-acf0-d2e3b5e2c4a8": {"id": "6664a7ae-b8fb-48bc-acf0-d2e3b5e2c4a8", "message": {"id": "6664a7ae-b8fb-48bc-acf0-d2e3b5e2c4a8", "author": {"role": "assistant", "name": null, "metadata": {}}, "create_time": 1730479764.742447, "update_time": null, "content": {"content_type": "text", "parts": ["I currently can't directly create graphic images like a logo or profile picture myself, but I can guide you on how to make one using tools like **Canva**, **Figma**, or **Adobe Express**, which are all beginner-friendly platforms.\n\nHere\u2019s a simple step-by-step guide using **Canva** (which is free and user-friendly):\n\n### Steps to Create a Profile Image Inspired by Your Logo:\n1. **Open Canva**:\n - Go to [Canva](https://www.canva.com/) and create an account if you don't have one.\n\n2. **Create a New Design**:\n - Click on "Create a Design" and choose a **custom size**: 500 x 500 pixels is ideal for profile pictures.\n\n3. **Upload Your Current Banner Elements**:\n - Upload the elements from your banner, like the open book, the stars, and the text ("Lexology Enterprises").\n - You can do this by clicking on "Uploads" in the left sidebar and selecting the file.\n\n4. **Arrange the Elements**:\n - Use the open book as the base.\n - Add the brand name "Lexology Enterprises" in a readable size above the book.\n - Keep the "Ideas to Reality" icon or simplify it for clarity.\n - Add subtle stars or sparkles for a consistent aesthetic without overwhelming the smaller space.\n\n5. **Choose a Background**:\n - Use a simple, light lavender or pastel color to match your current branding but avoid distracting from the central logo elements.\n\n6. **Adjust the Composition**:\n - Ensure that the text is large and

easy to read. Since profile images are small, the text should be bold and clear.\n - Make sure there is enough contrast between the text and the background for easy visibility.\n\n7. **Download**:\n - Once you're happy with the design, click on "Download" in the top right corner, and choose PNG format for better quality.\n\nIf you still feel unsure, I can help guide you through each step in more detail! If you have the logo elements in a file, you could upload them, and I could help you design it conceptually."]}, "status": "finished_successfully","end_turn": true

The pastel purple background with stars, sparkles, and an open book gives it a dreamy and magical vibe, which is likely to attract the target audience interested in manifestation and self-improvement.\n\nHere are a few points to consider for Pinterest ads:\n\n1. **Font Readability**: The cursive font looks elegant, but on small mobile screens, it might be a bit difficult to read. You might consider slightly bolder text or adding a subtle drop shadow to enhance readability.\n\n2. **Emotional Appeal**: The phrase "5 Weeks of Change" is catchy, but you could make it even more compelling by adding a benefit-focused phrase, e.g., "Transform Your Life in Just 5 Weeks." This could make it more actionable and motivational.\n\n3. **Color Scheme**: The colors are soft and calming, which fits well with the manifestation theme. They evoke feelings of peace and positivity\u2014great for Pinterest, which thrives on visually inspiring content.\n\n4. **Layout for Pinterest**: Since Pinterest users are drawn to vertical images, this layout seems well-suited. If you haven\u2019t already, you could test this design as part of a mock-up where it appears in a lifestyle setting\u2014like on a desk or bedside table\u2014to give more context.\n\nOverall, this cover seems like a good fit for your audience. The celestial elements like stars and sparkles add a touch of magic, aligning well with the theme of transformation.\n\n2. **Typography**: The "35-Day Manifestation Journal" title is prominent and legible, which is great for Pinterest. However, I suggest making "5 Weeks of Change" slightly bolder or darker for better readability against the light background, as it is currently a bit faint. This will also help it stand out more.\n\n3. **Visual Focus**: The image of the open book adds a nice focal point, suggesting growth and learning. It also gives the cover a visual depth. You might consider adding a small subtle glow or aura around the book to make it appear more magical and further draw attention.\n\n4. **Ad Appeal**: For Pinterest ads, this cover has a lot of potential to catch viewers' eyes due to the color contrast and celestial design. I think it would benefit even more from adding a small tagline or hook like "Unlock Your Inner Potential" near the top or bottom, to give users an immediate idea of the benefit they\u2019d get from the journal.\n\nOverall, this is a lovely design and feels on-brand for a manifestation product. Here are my thoughts:\n\n1. **Tagline Impact**: The new tagline, "Transform Your Life in Just 5 Weeks," is very powerful and adds a motivational element. It also makes the purpose of the journal clear to potential buyers. Great job on this addition! You might consider adjusting the spacing or alignment to make it even more visually balanced; for example, centering "Transform Your Life" above "in Just 5 Weeks" a little more precisely.\n\n2. **Font Adjustments**: The new text is readable, but perhaps increasing the contrast by making it a shade darker would make it pop more against the light background. This small tweak can help make the tagline stand out, especially when viewed on smaller screens like phones.\n\n3. **Visual Flow**: The placement of the tagline below the "Manifestation Journal" title works well in terms of flow. The open book at the bottom feels like the source of the magic and transformation, and the tagline adds to that sense of upward progression.\n\n4. **Pinning Potential**: For Pinterest, the cover now has a clearer call to action and an emotional hook, both of which are very important. It\u2019s likely to draw attention and clicks, especially from those looking for quick, impactful transformation tools.\n\nOverall, this is a strong design! You've made a great adjustment to the tagline, and the overall layout feels more balanced now. Here are my thoughts:\n\n1. **Tagline Spacing and Placement**: The tagline "Transform Your Life in Just 5 Weeks" is now more evenly spaced, and placing "5 Weeks" on a separate line adds emphasis, which works well to make the duration of transformation more memorable. The stacked format also helps create a visual hierarchy that draws the eye downward in a natural flow.\n\n2. **Font Readability**: The tagline stands out much better now, especially with the spacing adjustments. This makes it clearer and more readable, which is crucial for catching attention quickly in a Pinterest ad.\n\n3. **Visual Balance**: The balance between the top and bottom elements looks much more cohesive. The tagline fills the space nicely without feeling crowded, and the elements have enough breathing room. This improved layout will be more effective in attracting viewers, especially in a visually competitive space like Pinterest.\n\n4. **Emphasis on Transformation**: The phrase "Transform Your Life" is prominently highlighted, which directly speaks to the audience\u2019s desire for personal growth. This emotional appeal is very powerful for engagement.\n\nThis version is polished and seems ready for use as an ad, especially for visually inspiring platforms like Pinterest. Here\u2019s a structured, step-by-step approach to help you maximize your $100 budget on an astrology-related affiliate offer. We'll focus on precise targeting, compelling copy, and budget-conscious ad optimization for fast conversions. Here\u2019s how to get started:\n\n### Step 1: Choose Your Ad Platform and Audience Targeting\nSince you\u2019re looking for fast results, consider using **Facebook Ads** due to its extensive targeting options, especially for interest-based targeting. Here\u2019s how to set up your initial audience:\n\n1. **Interest Targeting**:\n - **Primary Interests**: Astrology, Horoscopes, Zodiac Signs, Spirituality.\n - **Secondary Interests**: Meditation, Self-improvement, Tarot, Numerology (this expands reach slightly but keeps it relevant).\n\n2. **Demographic Targeting**:\n - **Age**: 18-34 years typically engages well with astrology and spiritual content.\n - **Gender**: Astrology appeals widely across genders, but you can start with a mixed audience to see who engages more.\n\n3. **Geographic Targeting**:\n - Focus on top-tier countries like **United States**, **Canada**, **UK**, **Australia**, where users generally have higher conversion rates.\n\n4. **Budget Allocation**:\n - **Initial Budget Split**: Set up 2-3 ad sets at $10-15 per day each to keep testing manageable. You\u2019ll use the performance data within the first 24 hours to narrow down the highest-performing ad set(s).\n\n### Step 2: Craft Compelling Ad Copy and Creative\nFor astrology, your copy should spark curiosity and resonate emotionally. Here\u2019s a breakdown:\n\n1. **Ad Copywriting Tips**:\n - **Hook**: Lead with a question or a statement that taps into common astrological curiosity, e.g., \u201cCurious about what the stars have in store for you?\u201d or \u201cUnlock your destiny \u2013 get your personalized reading today!\u201d\n - **Body Copy**: Highlight the benefits in a concise format.\n   - Example: \u201cDiscover how your zodiac sign influences your life, love, and future. Tap into cosmic guidance with a

free reading that reveals your potential.\u201d\n   - **CTA (Call to Action)**: Use urgency, such as \u201cGet Your Free Reading Today!\u201d or \u201cSee Your Stars Now \u2013 Limited Spots!\u201d\n\n2. **Creative Tips**:\n   - **Image**: Use high-contrast images or videos with celestial themes \u2013 stars, zodiac symbols, or constellations. Aim for visuals that feel mystical and enticing.\n   - **Video (optional)**: If possible, a 5-10 second video with animated constellations or flowing star patterns can engage viewers quickly.\n   - **Text Overlay**: Simple, bold overlay like \u201cReveal Your Future\u201d or \u201cUnlock the Secrets of the Stars\u201d can grab attention.\n\n### Step 3: Setting Up and Testing Ads for Quick Insights\nTo get fast feedback, structure your ads for rapid testing:\n\n1. **Ad Sets**: Start with 2-3 ad sets based on different interest groups or demographics. This lets you quickly identify the audience segment that\u2019s responding best.\n2. **Ad Variants**: Within each ad set, create 2-3 ad variations with slight differences in:\n   - **Hook** (e.g., different questions like \u201cWhat does your star sign say?\u201d vs. \u201cAre you destined for love?\u201d)\n   - **CTA wording** (e.g., \u201cStart your reading\u201d vs. \u201cReveal my stars\u201d)\n\n### Step 4: Monitoring and Optimizing Within the First 24-48 Hours\nWith a limited budget, monitoring closely from the start is essential. Here\u2019s how to assess and optimize:\n\n1. **KPIs to Watch**:\n   - **CTR (Click-Through Rate)**: Aim for 2-3% CTR or higher. This shows your ad resonates well.\n   - **CPC (Cost Per Click)**: You want clicks as affordably as possible. Aim for $0.50 or less if possible.\n   - **Conversion Rate**: A 5%+ conversion rate from the landing page is ideal.\n\n2. **Quick Optimization Steps**:\n   - **Pause Low-Performing Ads**: If any ad set or ad within the first 24 hours has a high CPC, low CTR, or no conversions, pause it to save your budget.\n   - **Reallocate Budget**: Move the saved budget from paused ads to high-performers.\n   - **Refine Audience**: If certain interests perform better, narrow down your audience to those interests only.\n\n### Step 5: Scaling the Campaign After Initial Tests\nAfter identifying the best-performing ad, reinvest into that specific ad set or variation:\n\n1. **Increase Budget on the Winning Ad Set**: Scale it by 20-30% to avoid overspending but boost exposure to the successful audience segment.\n2. **Duplicate for a Fresh Test**: To avoid ad fatigue, duplicate the winning ad set and test a slight variation in the ad copy or image, maintaining the same high-converting audience.\n\nThis structured approach should help you quickly identify top-performing ads, control spending, and reinvest wisely to get faster, optimized returns. With this plan, you should have valuable insights by the end of day one, giving you the momentum to double down on the most promising ads."]}, "status": "finished_successfully","end_turn": true

"Auction" is generally better for cost-effectiveness and maximizing your budget. "Reservation" wouldn\u2019t be appropriate here since it typically requires a higher budget commitment and is more suited for larger campaigns.\n\n### 2. **Campaign Objective: Traffic**\n- **Traffic Objective**: Since your main goal is to drive users to your Carrd landing page, choosing "Traffic" as your objective is ideal. This will optimize the ad to get as many users as possible to click through to your page, helping you test for conversions efficiently.\n\n### 3. **Next Steps for Your Ad Strategy**\n \n **a. Set Up Targeting**:\n - Focus on **interest-based targeting** around astrology, spirituality, New Age beliefs, horoscopes, zodiac signs, and similar areas that align with Moon Reading\u2019s audience.\n \n **b. Crafting the Ad Copy**:\n - **Hook**: Something like, \u201cUnlock the mysteries of your moon sign \u2013 a unique personalized astrology reading awaits!\u201d or \u201cDiscover what the stars have to say about your destiny.\u201d\n - **CTA**: Use a CTA that drives curiosity without directly referencing the Moon Reading brand. Example: \u201cTake the Lunar Quiz\u201d or \u201cBegin Your Cosmic Journey Today!\u201d\n\n **c. Testing with Small Ad Sets**:\n - Start with 2-3 ad sets, as mentioned earlier, with a small budget per set to quickly determine which audience is responding the best. Use different variations in the hook and CTA to gauge which resonates most.\n\n **d. Optimize Early**:\n - Within the first 24 hours, evaluate metrics like CTR, CPC, and conversion rate to pause underperforming ad sets, allowing you to reallocate budget towards the highest-performing ads.\n\nThis approach will help you stay within the guidelines set by Moon Reading while still testing effectively to identify top-performing ads and audiences. With a $100 budget, setting a daily cap at $10 will allow you to run tests for several days if needed, without exhausting funds too quickly. It also gives you room to monitor and adjust based on performance data.\n \n2. **Campaign Bid Strategy**: \n - **Highest Volume** is a good choice if your primary goal is to drive as much traffic to your landing page as possible. This setting will prioritize getting a larger number of clicks, which can be useful for testing and initial data collection.\n \n You can ignore the warning about the daily budget being \u201chigher than usual\u201d if you\u2019re comfortable with a $10 daily spend for faster results.\n\n### Second Screen: A/B Test Settings\n1. **A/B Test Option**:\n - **Enable A/B Testing** since you\u2019re looking to find the highest-performing creative quickly. While driving traffic is a common initial strategy, there are several other approaches that can help optimize for conversions or quality over quantity. Here are some alternative strategies that may yield higher-quality leads or more engaged traffic, especially useful for a niche offer like Moon Reading:\n\n### 1. **Conversion-Optimized Campaigns**\n - Instead of focusing on pure traffic, you could create a **conversion-focused campaign** (if available) that optimizes for users more likely to take the next action on your landing page, like clicking through to the Moon Reading offer.\n - **Pros**: While cost per click may be higher, the quality of the traffic is generally better. This strategy would allow the platform\u2019s algorithm to target users more likely to convert based on their past behavior.\n - **Cons**: May require a bit more data to optimize effectively, so if you\u2019re running a short campaign, this might take more time to see results.\n\n### 2. **Retargeting Warm Audiences**\n - Retargeting involves showing ads to people who have previously interacted with your landing page but didn\u2019t convert. To implement this:\n   - Install a **tracking pixel** (like the Facebook Pixel) on your landing page to capture visitors.\n   - Set up a **retargeting campaign** that reminds these visitors to complete their astrology reading.\n - **Pros**: Retargeting campaigns often have higher conversion rates because they\u2019re targeting people already familiar with your offer.\n - **Cons**: Requires initial traffic to build a retargeting audience, so it\u2019s best as a second step after generating some initial page visits.\n\n### 3. **Lead Generation Campaign (Pre-Qualify with Quiz)**\n - Instead of direct traffic to your landing page, create a **lead generation quiz funnel**. You could add a quiz to your Carrd page that asks questions about the user\u2019s interests in astrology and delivers a \u201cpersonalized\u201d result, then invites them to the Moon Reading offer.\n - **Pros**: Adds an extra step that pre-qualifies visitors. Engaged users are more likely to follow through with the paid Moon Reading service.\n - **Cons**: May require some effort to set up the quiz, but tools like Typeform or Google Forms could make this quick and easy.\n\n### 4. **Engagement Campaigns to Build Interest and Awareness**\n - If you\u2019re targeting a cold audience, consider running an **engagement campaign** first. This campaign could feature content like astrology-related facts, daily horoscopes, or zodiac sign insights to spark interest and then retarget these engaged users with a link to your landing page.\n - **Pros**: Warms up an audience that may be more receptive when they eventually see your Moon Reading offer.\n - **Cons**: Indirect approach, meaning it may take longer to see immediate conversions, but could improve conversion rates over time.\n\n### 5. **In-Market Targeting and Lookalike Audiences**\n - If the platform you\u2019re using allows, **target in-market audiences** (people actively interested in astrology or spiritual topics). You can also build **lookalike audiences** based on people who engage well

with your landing page.\n - **Pros**: Allows for more refined targeting and can attract users with higher conversion potential.\n - **Cons**: Some targeting options may require a larger initial audience, so this might be better suited for scaling after initial testing.\n\n### 6. **Split Testing for Engagement vs. Traffic**\n - You could split test two campaigns\u2014one optimized for traffic and one for engagement or conversions\u2014to see which approach yields a better cost per result. Then, scale the approach that provides the best return.\n - **Pros**: Gives you a comparison to understand which strategy works better for your audience with this specific offer.\n - **Cons**: Requires careful tracking and may stretch your $100 budget, so run this only if you\u2019re willing to quickly pivot based on results.\n\nEach of these approaches has potential, but the best choice depends on your immediate goals (quick conversions vs. quality leads) and the flexibility of your budget. For a small initial budget, **retargeting, conversion optimization, or pre-qualifying with a quiz funnel** might provide more focused, engaged traffic and help improve your chances of converting at a lower overall cost."]}, "status": "finished_successfully","end_turn": true

Starting with your current Facebook ad campaign and landing page setup is a smart way to gather essential data and gauge initial interest in your Moon Reading offer. Here\u2019s why this approach makes sense:\n\n1. **Data Collection**: Running this initial campaign will provide valuable insights into how your audience responds to the offer, including click-through rates, conversion rates on the landing page, and cost per result. This data is crucial for identifying which strategies to double down on or tweak in the next phase.\n\n2. **Audience Insights**: You\u2019ll learn more about which audience segments engage most with your ads, helping you refine your targeting. If you see strong engagement from specific interest groups (like astrology, spirituality, or new age beliefs), you can narrow your targeting and optimize future campaigns.\n\n3. **Retargeting Potential**: By driving traffic to your landing page, you\u2019ll start building a pool of visitors to retarget later. Retargeting is often

more effective and cost-efficient because it reaches people who\u2019ve already shown interest.\n\n4. **Initial Testing Without High Commitment**: With your $100 budget, you\u2019re able to run a lean campaign, see which creative and copy variants perform best, and make decisions for scaling. Testing on a smaller budget minimizes risk while still giving you enough information to identify top-performing ad elements.\n\n### Next Steps After Initial Results\nOnce you gather results from this first round, you\u2019ll be in a better position to:\n\n- **Refine Your Ad Targeting and Creative**: Focus budget on high-performing ad sets, audiences, and creative formats.\n- **Experiment with Conversion Optimizations**: If you have high click-through rates but low conversions, consider optimizing your landing page or testing a pre-qualification quiz.\n- **Retarget Warm Audiences**: Start a retargeting campaign for users who visited your landing page but didn\u2019t convert, reminding them of the offer.\n\nIn summary, this first round will provide the foundation for making more data-driven decisions, helping you maximize your budget and scale effectively. Here\u2019s what you can do:\n\n### 1. **Install Facebook Pixel**\n - **Why**: The Facebook Pixel tracks user behavior on your landing page, enabling you to see which visitors came from your ads and what actions they took. With it, you can create custom audiences for retargeting, optimize for conversions, and track key events (like page views or clicks on your call-to-action).\n - **How**: In Carrd, go to your site\u2019s settings, and under \u201cAnalytics,\u201d add your Facebook Pixel ID. Follow Facebook\u2019s instructions to set up and test the Pixel.\n - **Additional Benefit**: The Pixel allows you to build a \u201cLookalike Audience\u201d on Facebook based on users who visit your page, which can improve targeting as you scale.\n\n### 2. **Add Google Analytics (GA4)**\n - **Why**: Google Analytics offers

a comprehensive view of user behavior on your page, including session duration, bounce rate, and traffic sources. GA4 provides insights into how visitors interact with different elements on the page, which can help you optimize the landing experience.\n - **How**: Carrd supports Google Analytics integration. Add your Google Analytics Tracking ID in the Analytics section of your Carrd settings.\n - **Key Metrics to Watch**: Focus on bounce rate (to see if people leave quickly), session duration (indicating interest level), and specific link clicks (to see if visitors are clicking through to the Moon Reading offer).\n\n### 3. **Set Up UTM Parameters for Facebook Ads**\n - **Why**: UTM (Urchin Tracking Module) parameters add a tracking code to your URL, allowing you to see detailed source information in Google Analytics. You can track which specific ad or ad set brought visitors to your page, which will be helpful if you\u2019re running multiple ad variants.\n - **How**: Use Facebook\u2019s URL Builder or any UTM generator tool to add parameters like `utm_source=facebook`, `utm_medium=cpc`, `utm_campaign=lunar_insight_campaign`, etc., and apply this URL to your Facebook ad.\n\n### 4. **Create a Conversion Event in Facebook (Optional)**\n - If you want Facebook to track specific actions as conversions, you can create a custom event on the Pixel (e.g., a click on your CTA button to the Moon Reading offer). This would allow Facebook to optimize your campaign further for those conversions, but this step is optional if you\u2019re just focusing on traffic initially.\n\n### Summary: Start with Basic Tracking\nFor a simple campaign, start with the **Facebook Pixel** and **Google Analytics** setup. These tools will give you essential insights and allow you to retarget or refine your audience based on behavior data. Once these are in place, you\u2019ll be set up to get meaningful data as soon as you go live with the Facebook ads.\n\nLet me know if you need guidance on any specific setup step, and good luck with the launch!"]}, "status": "finished_successfully","end_turn": true , "weight": 1.0, "metadata": {"finish_details": {"type": "stop", "stop_tokens": [200002]}, "is_complete": true, "citations": [], "content_references": [], "gizmo_id": "g-aB11CrrhD", "message_type": null, "model_slug": "gpt-4o", "default_model_slug": "gpt-4o-canmore", "parent_id": "aaa2c1d8-c995-4fcf-be5c-1fc8e44163d2", "request_id": "8dade5280fd20e71-MXP", "timestamp_": "absolute"}, "recipient": "all", "channel": null}, "parent": "aaa2c1d8-c995-4fcf-be5c-1fc8e44163d2", "children": ["aaa22e1a-b1e0-4bf4-b41c-4e4bfae6027b"]}, "aaa22e1a-b1e0-4bf4-b41c-4e4bfae6027b": {"id": "aaa22e1a-b1e0-4bf4-b41c-4e4bfae6027b", "message": {"id": "aaa22e1a-b1e0-4bf4-b41c-4e4bfae6027b", "author": {"role": "user", "name": null, "metadata": {}}, "create_time": 1730317604.286501, "update_time": null, "content": {"content_type": "text", "parts": ["okay, that was a lot of info. Let\u2019s break down the steps in a simplified, actionable sequence based on where you\u2019re at. Here\u2019s a step-by-step plan to set up tracking, prepare your ads,

and launch your Facebook campaign:\n\n---\n\n### **Step 1: Set Up Tracking on Your Carrd Landing Page**\n\n1. **Install Facebook Pixel**:\n   - **Go to** [Facebook Events Manager](https://www.facebook.com/events_manager2).\n   - **Create a Pixel** (if you haven\u2019t already) and get your Pixel ID.\n   - **In Carrd**, go to your site\u2019s settings, find the \u201cAnalytics\u201d section, and paste your Facebook Pixel ID.\n   - **Verify the Pixel**: Use Facebook\u2019s **Pixel Helper** Chrome extension to check that it\u2019s firing correctly once you\u2019re done.\n\n2. **Set Up Google Analytics**:\n   - **Sign in** to [Google Analytics](https://analytics.google.com/), create a new property, and get your Tracking ID (GA4 format).\n   - **In Carrd**, paste the Tracking ID in the \u201cAnalytics\u201d section under Google Analytics.\n   - **Verify**: After publishing, visit your Carrd page and check real-time analytics in Google Analytics to confirm it\u2019s tracking.\n\n3. **Add UTM Parameters for Facebook Ads**:\n   - Use a UTM builder (like [Google's Campaign URL Builder](https://ga-dev-tools.web.app/campaign-url-builder/)) to create a unique URL with parameters.\n   - For example: `https://lunarquiz.carrd.co/?utm_source=facebook&utm_medium=cpc&utm_campaign=lunar_insight_campaign`\n   - **Save this URL** \u2013 you\u201ll use it in your Facebook ad.\n\n---\n\n### **Step 2: Prepare Your Ad Creatives and Copy**\n\n1. **Design Ad Creatives**:\n   - Use a tool like **Canva** to design 2-3 variations of your ad images.\n   - Include mystical elements like stars, moon symbols, or astrology icons that resonate with your target audience.\n   - Ensure each creative has a clear CTA (e.g., \u201cTake the Lunar Quiz\u201d or \u201cReveal Your Cosmic Path\u201d).\n\n2. **Write Ad Copy**:\n   - Draft 2-3 versions of your ad copy to test which resonates best.\n   - Example Hooks: \u201cCurious about your cosmic destiny? Start your astrology journey today!\u201d or \u201cDiscover what the stars have in store for you with a free reading!\u201d\n   - Keep it **curiosity-driven** and **short** \u2013 aim to intrigue rather than fully explain.\n\n3. **Set Up A/B Test Options**:\n   - Decide which creatives and copy you want to test in combination. For example:\n   - **Ad Variant 1**: Image A + Copy A\n   - **Ad Variant 2**: Image A + Copy B\n   - **Ad Variant 3**: Image B + Copy A\n\n---\n\n### **Step 3: Set Up Facebook Campaign and Ad Sets**\n\n1. **Create a New Campaign**:\n   - Go to **Facebook Ads Manager** and select **Create New Campaign**.\n   - **Campaign Objective**: Choose **Traffic** to drive visitors to your landing page.\n\n2. **Set Campaign Name and Budget**:\n   - Name your campaign (e.g., \u201cLunar Insight Traffic Test\u201d).\n   - Set a **Daily Budget** (e.g., $10), which gives you room to test over multiple days.\n\n3. **Enable Advantage Campaign Budget (Optional)**:\n   - If you\u2019re using multiple ad sets, enable **Advantage Campaign Budget** (previously called CBO) to let Facebook allocate your budget based on performance.\n   - Select **Highest Volume** as the campaign bid strategy to get the most clicks.\n\n4. **Create Ad Sets and Targeting**:\n   - **Audience**: Set up 2-3 ad sets targeting different astrology-related interests (e.g., \u201cAstrology,\u201d \u201cHoroscopes,\u201d \u201cSpirituality\u201d).\n   - **Geographic Location**: Choose top-tier countries (e.g., United States, Canada).\n   - **Placement**: Choose **Automatic Placements** initially to allow Facebook\u2019s algorithm to test and find the best placements.\n\n---\n\n### **Step 4: Launch Your A/B Test and Go Live**\n\n1. **Enable A/B Testing**:\n   - In the campaign setup, toggle **A/B Test** on to compare your ad creatives or copies.\n   - Choose \u201cCreative\u201d as the test focus and set the **Test Duration to 1 Day** for quick insights.\n   - Set \u201cCost per

Result\u201d as the metric to find the winning variant.\n\n2. **Add Your UTM-Tagged Landing Page Link**:\n   - Use the UTM-tagged link you created earlier in each ad. This will allow you to see detailed traffic sources in Google Analytics.\n\n3. **Publish Your Campaign**:\n   - Double-check your settings, preview each ad to ensure it looks right, and click **Publish**.\n\n---\n\n### **Step 5: Monitor Results and Optimize Daily**\n\n1. **Check Facebook Ads Manager**:\n   - Monitor key metrics like **CTR (Click-Through Rate)**, **CPC (Cost per Click)**, and **Landing Page Views**.\n   - Aim to identify which ad variant has the best engagement and cost-effectiveness.\n\n2. **Evaluate Google Analytics**:\n   - Check **Bounce Rate**, **Session Duration**, and UTM data to understand how users interact with your landing page.\n   - Use this data to refine or improve the landing page if needed.\n\n3. **Pause Low-Performing Ads**:\n   - After the first day, pause ads with high CPC or low CTR to conserve budget.\n   - Reallocate budget to the best-performing ads to maximize conversions.\n\n---\n\nThis approach will give you a strong foundation to start tracking, testing, and optimizing from day one. Each step builds on the last, ensuring you\u2019re gathering the data needed to make informed adjustments and maximize your results with the initial budget. Here\u2019s a breakdown to help you decide:\n\n### Option 1: **Free Downloadable Gift on Your Landing Page**\n - **Purpose**: Use the journal as a lead magnet to encourage visitors to engage more deeply with your page and offer.\n - **Advantages**: \n   - Helps build trust and adds value, making your landing page offer more appealing.\n   - Could improve your conversion rates if framed as a "Free Gift" for signing up or taking a quiz.\n   - Encourages people to enter your funnel with a valuable resource, warming them up to the Moon Reading offer.\n - **Implementation**: Add a simple CTA on your landing page, such as \u201cDownload Your Free Manifestation Journal,\u201d which could capture emails or provide the download link right after the quiz.\n\n### Option 2: **Sell via Amazon

KDP**\n - **Purpose**: Monetize the journal as a standalone product on Amazon.\n - **Advantages**: \n   - Creates a passive income stream and can attract a separate audience of people interested in manifestation and journaling.\n   - If the journal performs well, it can gain visibility within Amazon\u2019s search engine, attracting organic traffic.\n - **Implementation**: Set up a high-quality, printable version on Amazon KDP, choosing a competitive price for its category. Promote the journal separately or mention it on your landing page as an optional purchase.\n\n### Option 3: **Combo Approach: Free Download with Upsell Option**\n - **Purpose**: Offer a basic version of the journal as a free download to attract leads and a more detailed, premium version for sale on Amazon.\n - **Advantages**:\n   - The free version draws people in, and some may be willing to purchase a premium or expanded version on Amazon if they find it useful.\n   - Allows you to appeal to different audience segments: those who want a quick freebie and those interested in a more substantial resource.\n - **Implementation**: Include a free sample of the journal on your landing page and mention that a \u201cfull version is available on Amazon\u201d with a link for interested users.\n\n### Recommended Path\nGiven your primary goal of testing the Moon Reading offer, **starting with Option 1 (Free Download)** makes the most sense. It allows you to add value to your landing page without adding a new sales step, keeps visitors focused on the Moon Reading offer, and helps gauge interest in this type of content. Later, if you see strong engagement, you could still publish the full journal on Amazon KDP for additional passive income.\n\nWould you like more guidance on implementing it as a free download on your Carrd page?"]}, "status": "finished_successfully","end_turn": true

manageable as a 30-day challenge. Aim for clean, repeatable pages that guide users through the same structure each day.\n3. **Add a Cover Page**: Design a simple cover that says something like, "30-Day Manifest & Attract Journal \u2013 Start Your Manifestation Journey Today!" This adds polish and excitement for users.\n4. **Convert to PDF**: Once it\u2019s ready, save the file as a PDF, which makes it easy for users to download and print.\n\n---\n\n### Step 2: Set Up the Free Gift on Your Carrd Landing Page\n1. **Create a Section for the Gift**:\n - Add a new section at the top or just above the CTA on your landing page.\n - Use a heading like \u201cFree Gift: 30-Day Manifest & Attract Journal\u201d and a brief description, such as \u201cKickstart your manifestation journey with this free 30-day journal, filled with prompts to help you attract abundance, clarity, and positivity!\u201d\n\n2. **Add a Download Button**:\n - Include a button with text like \u201cGet Your Free Journal.\u201d\n - **Option 1**: If you\u2019re capturing emails, link the button to an email form that collects email addresses before delivering the download link.\n - **Option 2**: If you prefer a simpler setup, link the button directly to the PDF file (you can upload the file to Google Drive or Dropbox, then create a shareable link).\n\n3. **Optional Email Capture**:\n - To build a list, consider adding an email capture form. Tools like **ConvertKit** (which integrates with Carrd) or **Mailchimp** can store emails in exchange for delivering the journal.\n - Customize the form\u2019s confirmation message or email to include the download link for the journal.\n\n---\n\n### Step 3: Update Your Facebook Ad Copy to Highlight the Free Gift\n1. **Mention the Free Journal**: In your ad copy, add a line like, \u201cReceive a free 30-day Manifest & Attract Journal to help guide your journey!\u201d This can make the ad more enticing and improve click-through rates.\n2. **Test with New Creative**: Add a graphic that features the free journal as an additional draw. For instance, create an image of the journal cover alongside your main ad graphic to show users what they\u2019ll get.\n\n---\n\n### Step 4: Track Engagement and Optimize\n1. **Monitor Downloads and Engagement**:\n - Use Google Analytics to track clicks on the download button or form submissions if you\u2019re capturing emails. This will help you gauge interest in the free gift.\n2. **Follow Up with Email Content (if capturing emails)**:\n - Send a welcome email that delivers the journal, and consider adding an email with extra manifestation tips or reminders about the Moon Reading offer after a few days.\n\n---\n\n### Summary\nBy offering the **30-Day Manifest & Attract Journal** as a free download, you\u2019re enhancing the value of your landing page and increasing the likelihood that visitors will engage with your content. This approach builds goodwill, improves conversions, and, if you capture emails, sets up a warm audience for follow-up promotions. \n\nLet me know if you need any more guidance on implementing this, or if you'd like help creating the scaled-down version of the journal!"]}, "status": "finished_successfully","end_turn": true

Capturing emails by offering the journal as a free gift is an excellent way to build a targeted list of people interested in manifestation, astrology, and personal growth. Here\u2019s how to set this up effectively and start nurturing your list:\n\n---\n\n### Step 1: Set Up an Email Collection Form on Your Carrd Landing Page\n1. **Add an Email Signup Form**:\n - Carrd integrates well with email marketing tools like **ConvertKit** or **Mailchimp**. Set up an account with one of these tools if you haven\u2019t already.\n - In Carrd, create an email signup form where users can enter their name and email address. Link this form to your email marketing tool so contacts are automatically added to your list.\n\n2. **Customize the Signup Form Message**:\n - Use a compelling message that highlights the value of the free gift. For example: \u201cSign up below to receive your free 30-Day Manifest & Attract Journal \u2013 start your journey to abundance today!\u201d\n - Set the form\u2019s **thank you message** to say something like, \u201cThank you for signing up! Check your email for the download link to your free journal.\u201d\n\n---\n\n### Step 2: Set Up Automated Email Delivery\n1. **Welcome Email with Download Link**:\n - In your email marketing tool, create a welcome email that immediately delivers the download link to the journal.\n - Keep the welcome email simple and friendly, expressing excitement about their interest in manifestation and personal growth.\n - **Include the download link** to the journal in this email. If you\u2019re using Google Drive or Dropbox, ensure that link-sharing permissions allow for easy access.\n\n2. **Optional Follow-Up Sequence**:\n - Consider adding a few more emails over the following days to share additional tips, insights, or motivational quotes related to manifestation. This keeps your audience engaged and builds trust.\n - After they\u2019ve received the journal, you can gently introduce related offers, like your Moon Reading affiliate link, if it aligns with the content of the follow-up emails.\n\n---\n\n### Step 3: Optimize for Conversion and Tracking\n1. **Test and Track Engagement**:\n - Use Google Analytics and your email platform\u2019s analytics to track form conversions, email open rates, and link clicks on the

download.\n - Adjust your signup form wording or placement if you see a low conversion rate on your page.\n\n2. **Leverage Your List for Future Campaigns**:\n - Now that you\u2019re building a list, you\u2019ll have a warm audience for future affiliate offers or even your own products, like an expanded version of the journal.\n - Periodically provide value through engaging emails to maintain a high open rate and engagement.\n\n---\n\n### Summary\nBy capturing emails, you\u2019re not only offering a valuable resource but also laying the groundwork for ongoing engagement. Here\u2019s a plan focused on stretching your budget to generate initial conversions, then reinvesting any earnings for scaling:\n\n### Step 1: Product Selection Recap\nGiven the budget, the **Financial Education Program** still stands out, especially if it offers a high commission (ideally $50+ per sale). This high-ticket potential will allow you to quickly reinvest profits. Look for a program with:\n- **A strong pre-sell page or video sales letter** to increase conversion rates.\n- **Clear target audiences** (e.g., beginners interested in investing, working professionals seeking financial independence).\n\n### Step 2: Creating a Basic, High-Converting Funnel\nSince your budget is tight, start with a **one-page bridge page** (a single, pre-sale landing page) to qualify traffic and filter out unqualified clicks. Here\u2019s how to set it up on a budget:\n\n1. **Choose a Low-Cost Funnel Builder or Free Option:**\n - **Google Sites** or **Carrd**: Free options to create a simple but effective landing page.\n - **WordPress with Elementor**: Great for a low-cost, professional page.\n \n2. **Craft the Bridge Page Content:**\n - **Headline**: Grab attention with a clear value proposition, e.g., \u201cDiscover How to Build Wealth with Just $100 \u2013 A Beginner\u2019s Guide to Stock Investing.\u201d\n - **Subheadline**: Briefly explain the benefits of the program.\n - **Bullet Points**: Highlight program perks like \u201cBeginner-friendly strategies,\u201d \u201cReal examples,\u201d and \u201cMinimal investment needed.\u201d\n - **Call-to-Action (CTA)**: A clear, clickable button with a link to the affiliate offer (e.g., \u201cLearn More About This Strategy Now\u201d).\n\n### Step 3: Advertising Strategy \u2013 Targeting High-Conversion Audiences on Facebook\nSince Facebook offers detailed audience targeting and is cost-effective, here\u2019s how to allocate your $100 to test audience responses.\n\n####

Initial Ad Spend Breakdown:\n- **Ad Spend Allocation**: $10\u2013$15 per ad set, each with a different audience segment.\n- **Testing**: Aim for 3 ad sets (each at $15 for a total of $45). Run them for 1-2 days to gauge which performs best.\n\n#### Targeting Options:\n1. **Interest-Based Targeting**:\n   - Focus on \u201cPersonal Finance,\u201d \u201cInvesting,\u201d \u201cWealth Building,\u201d and similar interests.\n   - Target age groups that resonate with financial growth: 25-45 is a common range.\n2. **Behavioral Targeting**:\n   - Narrow down to online spending behaviors, e.g., \u201cEngaged Shoppers\u201d or users who frequently click on ads.\n\n#### Facebook Ad Creative Ideas:\n- **Image Ad**: Show a visual that embodies financial freedom or success (e.g., an open laptop with investment charts, someone reading about stocks).\n- **Ad Copy**: Keep it short and benefit-driven:\n   - **Headline**: \u201cStart Building Wealth with Just $100!\u201d\n   - **Text**: \u201cDiscover a simple strategy to begin investing with just a small amount. Beginner-friendly course shows how to start your journey to financial freedom!\u201d\n - **CTA**: \u201cLearn More\u201d\n\n### Step 4: Monitoring and Optimizing\nAfter 1-2 days, analyze each ad set:\n- **Clicks and CTR**: Prioritize ads with the highest click-through rates (CTR).\n- **Conversions**: If possible, track conversions through your affiliate network. Alternatively, use link-tracking tools (like Bitly) to monitor click activity.\n\nPause the lowest-performing ad sets and reallocate remaining funds to the highest performer.\n\n### Step 5: Stretching Your Budget with Retargeting\nIf you achieve some conversions or have a decent amount of traffic:\n- Use **Facebook retargeting** to reach visitors who clicked but didn\u2019t convert, focusing on a smaller, highly interested audience.\n- Set aside $10\u2013$20 for retargeting as a final push, showing ads with direct CTAs like \u201cReady to Start Building Wealth?\u201d\n\n### Key Metrics to Track\n1. **CTR**: A higher CTR means your ad resonates with your audience.\n2. **Cost Per Click (CPC)**: Aim for CPCs around $0.50 or less to make the most of your budget.\n3. **Conversions**: Even a single sale with a $50+ commission can give you the funds to reinvest.\n\nWith this approach, each ad dollar is optimized for maximum impact, giving you a high chance of generating conversions and scaling up your campaign. Vincent, having applied these revelations to his own life, experienced unprecedented prosperity in every facet. \n\nRather than hoarding this priceless knowledge, he chose to make it accessible to all, enabling everyone to thrive, find happiness, and lead a stress-free existence. \n\nAll these invaluable insights from the Akashic records are meticulously curated in the Midas Manifestation handbook. To complement this, you'll also receive accompanying audio tracks and a handy quick start guide. \n\n [Image 2: Midas Manifestation Author] \n\n## Midas Manifestation Author\n\nThe very first thing when people select any program, they want to know who is the creator of it. \n\nThe man behind this wonderful manifestation program is Vincent Smith. He is a cultural researcher and wants people to know the power of manifestation for their success. \n\nSmith also teaches people how to contact universe authorities to achieve wealth, abundance, and health in life. \n\nHe further defines that there are many secrets and treasures in this universe, and people must know how to achieve them, and it doesn\u2019t matter how old you are. People must put full attention and devotion to this program to become successful in their life. \n\n### How Does Midas Manifestation Work?\n\n#### Midas Manifestation was created by ancient decoding drawings, texts, and manuscripts. According to Vincent\u2019s research, he discovered 12 Chakras as opposed to 7, as is commonly known. \n\nThe other five Chakras he found are very powerful and help people tap into a new dimension in the universe. The chakras connect with the universe and help people achieve more extraordinary things in life. \n\nThe five chakras include: \n\n1) Transcendence & Connection to Spirit \n\n2) Sea of the Soul \n\n3) Earth Connection \n\n4) Mind over\n\n5) Matter \n\n6) Universal Unity\n\nThe five hidden chakras are responsible for making individuals more aware of their thoughts and using the power of the mind to manifest successfully.\n\nVincent first started by testing the chakras using audio sounds, and after a while, he could find the correct frequencies. In Midas Manifestation, you will find soundtracks that use frequencies to activate all 12 chakras. The audio tracks balance the 12 chakras in the body and ensure each one performs its purpose.\n\n[Image 3: midas manifestation-prayer] \n\n[Image 4: midas-manifestation-buy] \n\n\u30100\u2020Buy From Official Website\u20208958ffsh1y-ef-nhr7gdtyxtma.hop.clickbank.net\u3011\n\n### How does Midas Manifestation Help Users?\n\n[Image 5: Midas Manifestation] \n\nThe author aims to teach people the hidden concepts of the world through the novel. He is a cultural researcher and wants people to know the power of manifestation for their success. \n\nSmith also teaches people how to contact universe authorities to achieve wealth, abundance, and health in life. \n\nHe further defines that there are many secrets and treasures in this universe, and people must know how to achieve them, and it doesn\u2019t matter how old you are. People must put full attention and devotion to this program to become successful in their life. \n\n### How Does Midas Manifestation Work?\n\n#### Midas Manifestation was created by ancient decoding drawings, texts, and manuscripts. According to Vincent\u2019s research, he discovered 12 Chakras as opposed to 7, as is commonly known. \n\nThe other five Chakras he found are very powerful and help people tap into a new dimension in the universe. The chakras connect with the universe and help people achieve more extraordinary things in life. \n\nThe five chakras include: \n\n1) Transcendence & Connection to Spirit \n\n2) Sea of the Soul \n\n3) Earth Connection \n\n4) Mind over\n\n5) Matter \n\n6) Universal

Unity\n\nThe five hidden chakras are responsible for making individuals more aware of their thoughts and using the power of the mind to manifest successfully.\n\nVincent first started by testing the chakras using audio sounds, and after a while, he could find the correct frequencies. In Midas Manifestation, you will find soundtracks that use frequencies to activate all 12 chakras. The audio tracks balance the 12 chakras in the body and ensure each one performs its purpose.\n\n[Image 3: midas manifestation-prayer] \n\n[Image 4: midas-manifestation-buy] \n\n\u30100\u2020Buy From Official Website\u20208958ffsh1y-ef-nhr7gdtyxtma.hop.clickbank.net\u3011\n\n### How does Midas Manifestation Help Users?\n\n[Image 5: Midas Manifestation] \n\nThe author aims to teach people the hidden concepts of the world through the novel. Users can learn how chakras function in the body.\n 2. Consumers can relate to world consciousness.\n 3. It allows users to understand the universe\u2019s hidden values.\n 4. Vincent, having applied these revelations to his own life, experienced unprecedented prosperity in every facet. \n\nRather than hoarding this priceless knowledge, he chose to make it accessible to all, enabling everyone to thrive, find happiness, and lead a stress-free existence. \n\nAll these invaluable insights from the Akashic records are meticulously curated in the Midas Manifestation handbook. To complement this, you'll also receive accompanying audio tracks and a handy quick start guide. \n\n [Image 2: Midas Manifestation Author] \n\n## Midas Manifestation Author\n\nThe very first thing when people select any program, they want to know who is the creator of it. \n\nThe man behind this wonderful manifestation program is Vincent Smith. He is a cultural researcher and wants people to know the power of manifestation for their success. \n\nSmith also teaches people how to contact universe authorities to achieve wealth, abundance, and health in life. \n\nHe further defines that there are many secrets and treasures in this universe, and people must know how to achieve them, and it doesn\u2019t matter how old you are. People must put full attention and devotion to this program to become successful in their life. \n\n### How Does Midas Manifestation Work?\n\n#### Midas Manifestation was created by ancient decoding drawings, texts, and manuscripts. According to Vincent\u2019s research, he discovered 12 Chakras as opposed to 7, as is commonly known. \n\nThe other five Chakras he found are very powerful and help people tap into a new dimension in the universe. The chakras connect with the universe and help people achieve more extraordinary things in life. \n\nThe five chakras include: \n\n1) Transcendence & Connection to Spirit \n\n2) Sea of the Soul \n\n3) Earth Connection \n\n4) Mind over\n\n5) Matter \n\n6) Universal Unity\n\nThe five hidden chakras are responsible for making individuals more aware of their thoughts and using the power of the mind to manifest successfully.\n\nVincent first started by testing the chakras using audio sounds, and after a while, he could find the correct frequencies. In Midas Manifestation, you will find soundtracks that use frequencies to activate all 12 chakras. The audio tracks balance the 12 chakras in the body and ensure each one performs its purpose.\n\n[Image 3: midas manifestation-prayer] \n\n[Image 4: midas-manifestation-buy] \n\n\u30100\u2020Buy From Official Website\u20208958ffsh1y-ef-nhr7gdtyxtma.hop.clickbank.net\u3011\n\n### How does Midas Manifestation Help Users?\n\n[Image 5: Midas Manifestation] \n\nThe author aims to teach people the hidden concepts of the world through the novel. The eBook and the audio tracks allow users to concentrate fully on multiple chakras. It will enable users to attract fitness, money, passion, and satisfaction. \n\n 1. Users can learn how chakras function in the body.\n 2. Consumers can relate to world consciousness.\n 3. It allows users to understand the universe\u2019s hidden values.\n 4. Consumers can avoid and eliminate from life both negativity and negative thinking.\n 5. The eBook lets people maintain peace and emotional power.\n 6. It would support financial liberty for consumers.\n 7. Users will manifest everything that users desire in life.\n 8. Users should not work hard to meet the targets of their lives.\n 9. Users won\u2019t have to worry about life insecurity.\n 10. Consumers only have to listen to audio tracks and obey the Midas Manifestation directions. \n\n### What\u2019s Included in Midas Manifestation\n\n#### \n\nThe Midas Manifestation Effect uses five

audio tracks to increase the chances of abundance. The tracks include:\n\n * Midas Unleashed: This focuses on the root chakra to improve the generation of wealth and success of the user.\n * Manipura Consciousness: This focuses on the solar plexus chakra to improve consciousness and support all chakras. \n * Manifest Destiny: This focuses on the third eye chakra to connect with an underlying consciousness. \n * Divine Willingness: This focuses on the crown chakra to introduce more abundance from the universe around them. \n * Anahata Bliss: This focuses on the heart chakra to reduce the negative thoughts that could inhibit gifts of wealth from the universe.\n\n#### \n\nUsers will receive an e-Book called Midas Manifestation Handbook, which explains everything Vincent learned through his interpretation of the ancient manuscript over 118 pages. In another e-book, users get 128 pages of further information that he\u2019s learned with a known hypnotist.\n\n[Image 6: midas manifestation-book] \n\n## Midas Manifestation System is the first online program that has introduced the spiritual concept into the manifestation to help people manifest more money, financial freedom, a prosperous career, a loving relationship, and happy life. \n\n* * *\n\n### Total Value: ~~$133/~~\n\nOnly for: $37/ Limited Time \nHURRY UP! \n\n\u30100\u2020Buy From Official Website\u20208958ffsh1y-ef-nhr7gdtyxtma.hop.clickbank.net\u3011\n\n[Image 7: the Devotion System Limited Stock Warning]\n\nLIMITED TIME OFFER: Click To Check If You\u2019re Eligible For Our Midas Manifestation Exclusive Discount. audio tracks and a handy quick start guide. \n\n [Image 2: Midas Manifestation Author] \n\n## Midas Manifestation Author\n\nThe very first thing when people select any program, they want to know who is the creator of it. \n\nThe man behind this wonderful manifestation program is Vincent Smith. He is a cultural researcher and wants people to know the power of manifestation for their success. \n\nSmith also teaches people how to contact universe authorities to achieve wealth, abundance, and health in life. \n\nHe further defines that there are many secrets and treasures in this universe, and people must know how to achieve them, and it doesn\u2019t matter how old you are. People must put full attention and devotion to this program to become successful in their life. \n\n### How Does Midas Manifestation Work?\n\n#### Midas Manifestation was created by ancient decoding drawings, texts, and manuscripts. According to Vincent\u2019s research, he discovered 12 Chakras as opposed to 7, as is commonly known. \n\nThe other five Chakras he found are very powerful and help people tap into a new dimension in the universe. The chakras connect with the universe and help people achieve more extraordinary things in life. \n\nThe five chakras include: \n\n1) Transcendence & Connection to Spirit \n\n2) Sea of the Soul \n\n3) Earth Connection \n\n4) Mind over\n\n5) Matter \n\n6) Universal Unity\n\nThe five hidden chakras are responsible for making individuals more aware of their thoughts and using the power of the mind to manifest successfully.\n\nVincent first started by testing the chakras using audio sounds, and after a while, he could find the correct frequencies. In Midas Manifestation, you will find soundtracks that use frequencies to activate all 12 chakras. The audio tracks balance the 12 chakras in the body and ensure each one performs its purpose.\n\n[Image 3: midas manifestation-prayer] \n\n[Image 4: midas-manifestation-buy] \n\n\u30100\u2020Buy From Official Website\u20208958ffsh1y-ef-nhr7gdtyxtma.hop.clickbank.net\u3011\n\n### How does Midas Manifestation Help Users?\n\n[Image 5: Midas Manifestation] \n\nThe author aims to teach people the hidden concepts of the world through the novel. The eBook and the audio tracks allow users to concentrate fully on multiple chakras. It will enable users to attract fitness, money, passion, and satisfaction. \n\n 1. Users can learn how chakras function in the body.\n 2. Consumers can relate to world consciousness.\n 3. It allows users to understand the universe\u2019s hidden values.\n 4. Consumers can avoid and eliminate from life both negativity and negative thinking.\n 5. The eBook lets people maintain peace and emotional power.\n 6. It would support financial liberty for consumers.\n 7. Users will manifest everything that users desire in life.\n 8. Users should not work hard to meet the targets of their lives.\n 9. Users won\u2019t have to worry about life insecurity.\n 10. Consumers only have to listen to audio tracks and obey the Midas Manifestation directions. \n\n### What\u2019s Included in Midas Manifestation\n\n#### \n\nThe Midas Manifestation Effect uses five audio tracks to increase the chances of abundance. The tracks include:\n\n * Midas Unleashed: This focuses on the root chakra to improve the generation of wealth and success of the user.\n * Manipura Consciousness: This focuses on the solar plexus chakra to improve consciousness and support all chakras. \n * Manifest Destiny: This focuses on the third eye chakra to connect with an underlying consciousness. \n * Divine Willingness: This focuses on the crown chakra to introduce more abundance from the universe around them. \n * Anahata Bliss: This focuses on the heart chakra to reduce the negative thoughts that could inhibit gifts of wealth from the universe.\n\n#### \n\nUsers will receive an e-Book called Midas Manifestation Handbook, which explains everything Vincent learned through his interpretation of the ancient manuscript over 118 pages. In another e-book, users get 128 pages of further

information that he\u2019s learned with a known hypnotist.\n\n[Image 6: midas manifestation-book] \n\n## Midas Manifestation System is the first online program that has introduced the spiritual concept into the manifestation to help people manifest more money, financial freedom, a prosperous career, a loving relationship, and happy life. \n\n* * *\n\n### Total Value: ~~$133/~~\n\nOnly for: $37/ Limited Time \nHURRY UP! \n\n\u30100\u2020Buy From Official Website\u20208958ffsh1y-ef-nhr7gdtyxtma.hop.clickbank.net\u3011\n\n[Image 7: the Devotion System Limited Stock Warning]\n\nLIMITED TIME OFFER: Click To Check If You\u2019re Eligible For Our Midas Manifestation Exclusive Discount. The Best ClickBank Affiliate Offers Hide in the Dietary Supplements Category\n\nIt is no surprise that the best ClickBank offers are in the dietary supplements category.\u00a0\n\nLooking \u30109\u2020at their numbers\u2020www.clickbank.com\u3011, you\u2019ll see all the usual suspects, some of which have been top-performing for months and years:\n\n * \u301010\u2020Exipure\u2020exipure.com\u3011 (EPC (average earnings per click): $0.93; average ClickBank payout (APV): $152.62)\n * \u301011\u2020Protetox\u2020protetox.com\u3011 (EPC: $2.06; APV: $141.15)\n\n[Image 3][Image 4]\n\n### The Best Way to Promote Dietary Supplements as a ClickBank Affiliate\n\nWhile ClickBank shows the products\u2019 EPC and APV, you will need to do your own legwork to sell the products. When it comes to dietary supplements, we\u2019ve found that Facebook Ads and Google Display Ads work best.\n\nHowever, some affiliates swear by YouTube ads \u2013 especially for products with comprehensive affiliate programs like Protetox. The brand frequently launches special promotions, allowing you to earn even more.\n\nNo matter the advertising channel you choose, make sure you \u301012\u2020set up your ClickBank tracking via RedTrack\u2020docs.redtrack.io\u3011, so you fine-tune your marketing strategy.\n\n## 2. Help Your Audience Stay Fit with Fitness ClickBank Offers for Affiliates while Tracking Upsells\n\nIf your audience loves improving their physical health, they will

love some of the products on ClickBank\u2019s marketplace. In particular, ClickBank affiliates love the following two health & fitness offers:\n\n * \u301013\u2020Yogaburn\u2020yogaburnchallenge.com\u3011 (Avg commission: $14/sale)\n * \u301014\u2020Venus Factor System\u2020venusfactor.org\u3011 (Avg commission: up to 75%/sale)\n\n[Image 5][Image 6]\n\n### How to Promote Weight Loss & Fitness Products as a ClickBank Affiliate\n\nFitness products have a vast upsell potential (especially comprehensive programs like Yogaburn).\u00a0\n\nAll you have to do is ensure your audience stays engaged even after the first purchase. Create a retention (or perhaps even referral) program, set up email sequences, and produce helpful content.\n\nSince you\u2019ll want to know about every single conversion and upsell, it\u2019s a ClickBank affiliate best practice to enable conversion tracking.\u00a0Data slips through the cracks with typical (ad) tracking. We recommend \u301015\u2020using S2S (server-side) conversion tracking\u3011 so you get accurate payouts and know which channels work best for your ClickBank offers.\n\n[Image 7: reporting for ad agencies][Image 8: reporting for ad agencies]\n\nKnow exactly which channel is over- and under-performing. Others may waste your time because you\u2019ll have to spend your resources to promote them.\n\nIn contrast, products like Midas Manifestation show clear signs of a professional affiliate offer:\n\n * You get an email swipe file with well-performing email templates.\n * They offer a Facebook Ad kit and plenty of banners.\n * Need help? They have a support team that you can contact.\n\nSince products like Midas Manifestation support different channels, ensure your \u301017\u2020multi-platform ad tracking\u3011 is solid.\n\n[Image 11][Image 12]\n\nDon\u2019t waste your budget on ineffective channels and campaigns; identify the best approach with an affiliate-friendly marketing attribution tool like \u301018\u2020RedTrack\u3011.\n\n## 4. The DIY and woodworking niches are constantly growing, but don\u2019t let existing customers slip away.\u00a0\n\nMeasure your success. For example, evaluate how well your existing affiliate customers respond to specific channels. Do they prefer organic content? Google Ads retargeting?

Here\u2019s a step-by-step guide to get you set up today.\n\n---\n\n### Step 1: Sign Up for ClickBank and Get Your Affiliate Link\n1. **Register on ClickBank** if you haven\u2019t already. It\u2019s a quick process, and once done, you can head to the marketplace.\n2. **Search for \u201cMidas Manifestation\u201d** in the ClickBank marketplace.\n3. This is the link you\u2019ll use in all promotions.\n\n---\n\n### Step 2: Set Up a Basic Landing Page (Optional for Speed, but Recommended)\nCreating a basic landing page helps improve conversions. Since we\u2019re going for speed, here\u2019s the easiest setup:\n\n1. **Use Google Sites** or **Carrd.co** to create a simple, free landing page. \n2. **Landing Page Content**:\n   - **Headline**: \u201cUnlock Your True Potential and Manifest Wealth with Midas Manifestation!\u201d\n   - **Short Description**: Explain how Midas Manifestation uses unique sound frequencies to activate hidden chakras, helping people achieve financial freedom and success.\n   - **Call-to-Action (CTA)**: Add a button or link with your affiliate link, e.g., \u201cLearn How Midas Manifestation Can Change Your Life!\u201d\n\n*Tip*: You can skip the landing page and send traffic directly to the Midas Manifestation affiliate link, though a landing page typically increases trust and conversion.\n\n---\n\n### Step 3: Create a Simple Facebook Ad (If You Want to Use Paid Ads)\nFor a low-budget, beginner-friendly ad, Facebook Ads is ideal. Here\u2019s how to set it up quickly:\n\n1. **Create a New Ad Campaign**: Choose \u201cTraffic\u201d as your campaign objective.\n2. **Audience Targeting**:\n   - **Location**: Start with your country or target English-speaking countries.\n   - **Interests**: Target interests like \u201cManifestation,\u201d

Midas Manifestation may have images in the affiliate resources.\n - **Ad Copy**:\n   - **Headline**: \u201cWant to Manifest Wealth? Here\u2019s How.\u201d\n   - **Text**: \u201cDiscover the secret to unlocking your hidden potential. Learn how sound frequencies can help you manifest wealth and happiness with Midas Manifestation.\u201d\n   - **CTA**: Use \u201cLearn More\u201d as the button, linking to your landing page or directly to your affiliate link.\n\n---\n\n### Step 4: Track Results and Make Adjustments\nCheck back after a few hours or at the end of the day to see if you\u2019re getting clicks and conversions:\n1. **Click-Through Rate (CTR)**: If it\u2019s below 1%, consider tweaking the image or ad copy.\n2. **Conversions**: See if any clicks turned into sales in your ClickBank dashboard.\n\n*Tip*: If you get conversions, reinvest to scale the campaign. If not, try changing the ad image or targeting to improve engagement.\n\n---\n\n### Summary Checklist\n1. **Get Affiliate Link** for Midas Manifestation.\n2. **Create a Quick Landing Page** with a CTA to your affiliate link (optional but ideal).\n3. **Set Up Facebook Ad** targeting \u201cManifestation\u201d and related interests.\n4. **Monitor Results and Adjust** as necessary.\n\nBy following these steps, you can have a live campaign promoting Midas Manifestation in a few hours. During product setup, you\u00a0specify a default currency for your product. ClickBank will then present the product in the specified default currency for customers in a geographic location that utilizes that currency. Customers from other geographic locations will see a converted currency most appropriate for their location.\n\nFor example, a seller with a French audience may choose Euros as their default currency and display the product price in Euros on their pitch page. If a potential customer located in France clicks to purchase the product, ClickBank will display the price in Euros on the order form. However, if a potential customer located in New Zealand clicks to purchase the product, ClickBank will convert and display the price in New Zealand Dollars on the order form.\n\nUltimately, this flexibility increases the likelihood of making a sale by allowing sellers to specifically target their audience, while still allowing all potential buyers to make purchases in their local currency. All transactions are converted to USD and applied to your account at the time of purchase. The exchange rate is updated daily. This section outlines how customers will interact with both your product or service and ClickBank during the purchase of a non-English language or non-USD currency product. The following steps occur when a customer purchases a non-English or non-USD currency

product:\n\n 1. The customer arrives at your product's Pitch Page and clicks to buy your non-English language or non-USD currency product.\n 2. The customer is taken to the ClickBank Order Form where they enter their\u00a0payment information. The Order Form is displayed in the language and currency you've specified during product creation, unless the customer is in a geographic location that uses a different currency.\n 3. The customer clicks the Pay Now button.\n 4. Once the customer's payment information is authorized, they are\u00a0sent to the order confirmation page, which is presented in the language selected during product setup and reflects the currency used to purchase. The order confirmation page then leads to your language-specific Thank You Page.\n 5. Once the customer's payment information is authorized, ClickBank delivers an English email notification to you, alerting you of the purchase. ClickBank also creates an entry in Transaction Reporting which highlights the currency used during the purchase and the amount you earned in USD.\n 2. If a customer requires technical support, ClickBank will deliver an English email notification to you with the customer's comments in either the header or footer of the notifications. To do this, you need to first translate your page into multiple languages, and then put PHP code in place that will display a particular version of your site based on the visitor's browser language settings. The following is a PHP script we created that should help you accomplish this. You'll need to customize it to work with your site.\n\n   <?php \n $language = $_SERVER["HTTP_ACCEPT_LANGUAGE"]; \n if(preg_match('/^de.*/', $language)) { \n   // imports german content page \n   include("german.html"); } \n   else if (preg_match('/^en.*/', $language)) { \n   //imports english content page \n   include("english.html"); } \n   else { \n   // imports english content page when language is not english or german \n include("english.html"); } \n   ?>\n\n# \u00a0\n\n[Image 7: ClickTip Lightning Bolt]\n\n## Additional Resources & Related Articles\n\n * \u301027\u2020Creating Your First Product\u3011 \u2013 This article describes the process of creating a product.\n * \u301028\u2020Selling Physical Products\u3011 \u2013 This article explains how to sell and ship physical products.\n * \u301029\u2020Accounting Policy\u3011 \u2013 This article explains our legal policies for currency exchanges and payments.\n\n[Image 8: ClickTip Lightning Bolt]\n\n * \u301030\u2020 \u2020www.facebook.com\u3011 \n * \u301031\u2020 \u2020twitter.com\u3011 \n * \u301032\u2020 \u2020www.linkedin.com\u3011

Once the customer's payment information is authorized, ClickBank delivers an English email notification to you, alerting you of the purchase. ClickBank also creates an entry in Transaction Reporting which highlights the currency used during the purchase and the amount you earned in USD.\n 2. If a customer requires technical support, ClickBank will deliver an English email notification to you with the customer's comments in either the header or footer of the notifications. To do this, you need to first translate your page into multiple languages, and then put PHP code in place that will display a particular version of your site based on the visitor's browser language settings. The following is a PHP script we created that should help you accomplish this. You'll need to customize it to work with your site.\n\n   <?php \n $language = $_SERVER["HTTP_ACCEPT_LANGUAGE"]; \n if(preg_match('/^de.*/', $language)) { \n   // imports german content page \n   include("german.html"); } \n   else if (preg_match('/^en.*/', $language)) { \n   //imports english content page \n   include("english.html"); } \n   else { \n   // imports english content page when language is not english or german   \n include("english.html"); } \n   ?>\n\n# \u00a0\n\n[Image 7: ClickTip Lightning Bolt]\n\n## Additional Resources & Related Articles\n\n * \u301027\u2020Creating Your First Product\u3011 \u2013 This article describes the process of creating a product.\n * \u301028\u2020Selling Physical Products\u3011 \u2013 This article explains how to sell and ship physical products.\n * \u301029\u2020Accounting Policy\u3011 \u2013 This article explains our legal policies for currency exchanges and payments.\n\n[Image 8: ClickTip Lightning Bolt]\n\n * \u301030\u2020 \u2020www.facebook.com\u3011 \n * \u301031\u2020 \u2020twitter.com\u3011 \n * \u301032\u2020 \u2020www.linkedin.com\u3011 \n\n\u301033\u2020Return to top\u3011 \n\n## Related articles\n\n * \u301034\u2020Getting Started With Your ClickBank Primary (aka Master) Account\u3011 \n * \u301035\u2020Selling Physical Products\u3011 \n * \u301036\u2020What curr", "pub_date": null, "extra": null}], "original_query": null}, "command": "mclick", "args": ["["0", "8", "12"]"], "status": "finished", "is_complete": true, "message_type": null, "model_slug": "gpt-4o", "default_model_slug": "gpt-4o", "parent_id": "cc60a3d1-bb3d-4ce9-9ad7-572538d054fe", "request_id": "8daa0e1cbdcd59b9-MXP", "timestamp_": "absolute"}, "recipient": "all", "channel": null}, "parent": "cc60a3d1-bb3d-4ce9-9ad7-572538d054fe", "children": ["628c1638-939c-4647-8dc1-392ab7e07c6c"]}, "628c1638-939c-4647-8dc1-392ab7e07c6c": {"id": "628c1638-939c-4647-8dc1-392ab7e07c6c", "message": {"id": "628c1638-939c-4647-8dc1-392ab7e07c6c", "author": {"role": "tool", "name": "browser", "metadata": {}}, "create_time": 1730277164.304683, "update_time": null, "content": {"content_type":

To complement this, you'll also receive accompanying audio tracks and a handy quick start guide. \n\n [Image 2: Midas Manifestation Author] \n\n## Midas Manifestation Author\n\nThe very first thing when people select any program, they want to know who is the creator of it. \n\nThe man behind this wonderful manifestation program is Vincent Smith. He is a cultural researcher and wants people to know the power of manifestation for their success. \n\nSmith also teaches people how to contact universe authorities to achieve wealth, abundance, and health in life. \n\nHe further defines that there are many secrets and treasures in this universe, and people must know how to achieve them, and it doesn\u2019t matter how old you are. People must put full attention and devotion to this program to become successful in their life. \n\n### How Does Midas Manifestation Work?\n\n#### Midas Manifestation was created by ancient decoding drawings, texts, and manuscripts. According to Vincent\u2019s research, he discovered 12 Chakras as opposed to 7, as is commonly known. \n\nThe other five Chakras he found are very powerful and help people tap into a new dimension in the universe. The chakras connect with the universe and help people achieve more extraordinary things in life. \n\nThe five chakras include: \n\n1) Transcendence & Connection to Spirit \n\n2) Sea of the Soul \n\n3) Earth Connection \n\n4) Mind over\n\n5) Matter \n\n6) Universal Unity\n\nThe five hidden chakras are responsible for making individuals more aware of their thoughts and using the power of the mind to manifest successfully.\n\nVincent first started by testing the chakras using audio sounds, and after a while, he could find the correct frequencies. In Midas Manifestation, you will find soundtracks that use frequencies to activate all 12 chakras. The audio tracks balance the 12 chakras in the body and ensure each one performs its purpose.\n\n[Image 3: midas manifestation-prayer] \n\n[Image 4: midas-manifestation-buy] \n\n\u30100\u2020Buy From Official Website\u20208958ffsh1y-ef-nhr7gdtyxtma.hop.clickbank.net\u3011\n\n### How does Midas Manifestation Help Users?\n\n[Image 5: Midas Manifestation] \n\nThe author aims to teach people the hidden concepts of the world through the novel. audio tracks allow users to concentrate fully on multiple chakras. It will enable users to attract fitness, money, passion, and satisfaction. \n\n 1. Users can learn how chakras function in the body.\n 2. Consumers can relate to world consciousness.\n 3. It allows users to understand the universe\u2019s hidden values.\n 4. Consumers can avoid and eliminate from life both negativity and negative thinking.\n 5. The eBook lets people maintain peace and emotional power.\n 6. It would support financial liberty for consumers.\n 7. Users will manifest everything that users desire in life.\n 8. Users should not work hard to meet the targets of their lives.\n 9. Consumers only have to listen to audio tracks and obey the Midas Manifestation directions. \n\n### What\u2019s Included in Midas Manifestation\n\n#### \n\nThe Midas Manifestation Effect uses five audio tracks to increase the chances of abundance. The tracks include:\n\n * Midas Unleashed: This focuses on the root chakra to improve the generation of wealth and success of the user.\n * Manipura Consciousness: This focuses on the solar plexus chakra to improve consciousness and support all chakras. \n * Manifest Destiny: This focuses on the third eye chakra to connect with an underlying consciousness. \n * Divine Willingness: This focuses on the crown chakra to introduce more abundance from the universe around them. \n * Anahata Bliss: This focuses on the heart chakra to reduce the negative thoughts that could inhibit gifts of wealth from the universe.\n\n#### \n\nUsers will receive an e-Book called Midas Manifestation Handbook, which explains everything Vincent learned through his interpretation of the ancient manuscript over 118 pages. To complement this, you'll also receive accompanying audio tracks and a handy quick start guide. \n\n [Image 2: Midas Manifestation Author] \n\n## Midas Manifestation Author\n\nThe very first thing when people select any program, they want to know who is the creator of it. \n\nThe man behind this wonderful manifestation program is Vincent Smith. He is a cultural researcher and wants people to know the power of manifestation for their success. \n\nSmith also teaches people how to contact universe authorities to achieve wealth, abundance, and health in life. \n\nHe further defines that there are many secrets and treasures in this universe, and people must know how to achieve them, and it doesn\u2019t matter how old you are. People must put full attention and devotion to this program to become successful in their life. \n\n### How Does Midas Manifestation Work?\n\n#### Midas Manifestation was created by ancient decoding drawings, texts, and manuscripts. According to Vincent\u2019s research, he discovered 12 Chakras as opposed to 7, as is commonly known. \n\nThe other five Chakras he found are very powerful and help people tap into a new dimension in the universe. The chakras connect with the universe and help people achieve more extraordinary things in life. \n\nThe five chakras include: \n\n1) Transcendence & Connection to Spirit \n\n2) Sea of the Soul \n\n3) Earth Connection \n\n4) Mind over\n\n5) Matter \n\n6) Universal Unity\n\nThe five hidden chakras are responsible for making individuals more aware of their thoughts and using the power of the mind to manifest successfully.\n\nVincent first started by testing the chakras using audio sounds, and after a while, he could find the correct frequencies. In Midas Manifestation, you will find soundtracks that use frequencies to activate all 12 chakras. The audio tracks balance the 12 chakras in the body and ensure each one performs its purpose.\n\n[Image 3: midas manifestation-prayer] \n\n[Image 4: midas-manifestation-buy] \n\n\u30100\u2020Buy From Official Website\u20208958ffsh1y-ef-nhr7gdtyxtma.hop.clickbank.net\u3011\n\n### How does Midas Manifestation Help Users?\n\n[Image 5: Midas Manifestation] \n\nThe author aims to teach people the hidden concepts of the world through the novel. The eBook and the audio tracks allow users to concentrate fully on multiple chakras. It will enable users to attract fitness, money, passion, and satisfaction. \n\n 1. Users can learn how chakras function in the body.\n 2. Consumers can relate to world consciousness.\n 3. It allows users to understand the universe\u2019s hidden values.\n 4. Consumers can avoid and eliminate from life both negativity and negative thinking.\n 5. The eBook lets people maintain peace and emotional power.\n 6. It would support financial liberty for consumers.\n 7. Users will manifest everything that users desire in life.\n 8. Users should not work hard to meet the targets of their lives.\n 9. Users won\u2019t have to worry about life insecurity.\n 10. Consumers only have to listen to audio tracks and obey the Midas Manifestation directions. \n\n### What\u2019s

Included in Midas Manifestation\n\n#### \n\nThe Midas Manifestation Effect uses five audio tracks to increase the chances of abundance. The tracks include:\n\n * Midas Unleashed: This focuses on the root chakra to improve the generation of wealth and success of the user.\n * Manipura Consciousness: This focuses on the solar plexus chakra to improve consciousness and support all chakras. \n * Manifest Destiny: This focuses on the third eye chakra to connect with an underlying consciousness. \n * Divine Willingness: This focuses on the crown chakra to introduce more abundance from the universe around them. \n * Anahata Bliss: This focuses on the heart chakra to reduce the negative thoughts that could inhibit gifts of wealth from the universe.\n\n#### \n\nUsers will receive an e-Book called Midas Manifestation Handbook, which explains everything Vincent learned through his interpretation of the ancient manuscript over 118 pages. Additionally, ClickBank accepts payments in 31 different currencies, which appeals to global customers and makes completing purchases easier.\n\nThe following subjects are covered in this article:\n\n * How Multi-Lingual and Multi-Currency Works\n * Setting Up Multi-Lingual and Multi-Currency Products\n * What the Customer Sees\n * What You See\n * What the Affiliate Sees\n * Localizing Your Pitch Page Automatically\n * Additional Resources & Related Articles\n\n[Image 1: ClickTip Lightning Bolt]\n\n## How Multi-Lingual and Multi-Currency Works\n\n## Product Types\n\nMulti-lingual capability is available for all product types\u00a0- standard or recurring billing products, as well as both digital and physical products.\n\n### Physical Products\n\nYou can sell physical products in multiple countries by configuring a Shipping Profile that specifies in what countries the product may be purchased. See the \u301022\u2020Selling Physical Products\u3011\u00a0article for more information.\n\n### Digital Products or Services\n\nClickBank requires that your digital product or service is provided in the language specified.\n\n## Pitch Page\n\nIt is recommended that your product Pitch Page be presented in the same\u00a0language as the product itself to reduce customer confusion and prevent high return and chargeback rates.\n\n## Thank You Page\n\nClickBank requires that your Thank You Page content is presented in the language specified for your product to reduce customer confusion and ultimately

prevent high return and chargeback rates.\n\n## Customer Service\n\nClickBank will provide initial phone and email customer service in the language specified for the product. Sellers must be capable of servicing technical support requests or customer inquiries in the language specified for the product.\n\n## Payment Methods\n\nThe payment methods offered to customers during the checkout process may vary based on your account Order Form Control settings.\n\n## Currencies\n\nClickBank retails internationally by accepting all of the currencies listed in the \u301023\u2020Currencies ClickBank Accepts\u3011 article.\n\nThe ClickBank multi-currency feature is available on the Clickbank Order Form and is automatically enabled for all accounts and products. During product setup, you\u00a0specify a default currency for your product. ClickBank will then present the product in the specified default currency for customers in a geographic location that utilizes that currency. Customers from other geographic locations will see a converted currency most appropriate for their location.\n\nFor example, a seller with a French audience may choose Euros as their default currency and display the product price in Euros on their pitch page. If a potential customer located in France clicks to purchase the product, ClickBank will display the price in Euros on the order form. However, if a potential customer located in New Zealand clicks to purchase the product, ClickBank will convert and display the price in New Zealand Dollars on the order form.\n\nUltimately, this flexibility increases the likelihood of making a sale by allowing sellers to specifically target their audience, while still allowing all potential buyers to make purchases in their local currency. All transactions are converted to USD and applied to your account at the time of purchase. The exchange rate is updated daily. For more information, please see our \u301024\u2020Accounting Policy\u3011.\n\n[Image 2: ClickTip Lightning Bolt]\n\n## Setting Up Multi-Lingual and Multi-Currency Products\n\nTo implement a non-English product with a default currency, follow these steps:\n\n 1. Log in to your ClickBank account.\n 2. Click the Vendor Settings\u00a0tab.\n 3. Click\u00a0My Products.\n 4. Select the product using one of the following methods: \n * Click the Edit icon for one of your existing products.\n * Create a new product using the instructions in the\u00a0\u301025\u2020Creating Your First Product\u3011\u00a0article.\n 5. Use the Language and Product Currency fields to specify the product's language and default currency.\n 6. Finish creating the product or click\u00a0Save Changes.\n\n[Image 3: ClickTip Lightning Bolt]\n\n## What the Customer Sees\n\nClickBank communicates with you and the customer each step of the way. This section outlines how customers will interact with both your product or service and ClickBank during the purchase of a non-English language or non-USD currency product. The following steps occur when a customer purchases a non-English or non-USD currency product:\n\n 1. The customer arrives at your product's Pitch Page and clicks to buy your non-English language or non-USD currency product.\n 2. The customer is taken to the ClickBank Order Form where they enter their\u00a0payment information. The Order Form is displayed in the language and currency you've specified during product creation, unless the customer is in a geographic location that uses a different currency.\n 3. The customer clicks the Pay Now button.\n 4. Once the customer's payment information is authorized, they are\u00a0sent to the order confirmation page, which is presented in the language selected during product setup and reflects the currency used to purchase. The order confirmation page then leads to your language-specific Thank You Page.\n 5. ClickBank delivers an email notification to the customer summarizing the purchase in the language specified during the product setup

and reflecting the currency used to purchase. All customer-facing notifications are provided in the language specified for the product.\n\n[Image 4: ClickTip Lightning Bolt]\n\n## What the Seller Sees\u00a0\n\nThis section outlines what you can expect to see during a customer's purchase of your language or currency specific product or service:\n\nNOTE \u2013 All transactions are converted to USD and applied to your account at the time of purchase.\n\n 1. Once the customer's payment information is authorized, ClickBank delivers an English email notification to you, alerting you of the purchase. ClickBank also creates an entry in Transaction Reporting which highlights the currency used during the purchase and the amount you earned in USD.\n 2. If a customer requires technical support, ClickBank will deliver an English email notification to you with the customer's comments in either the header or footer of the notifications. The customer's comments are provided in the language received.\n\n[Image 5: ClickTip Lightning Bolt]\n\n## What the Affiliate Sees\n\nThe \u301026\u2020Marketplace\u2020accounts.clickbank.com\u3011 features a filter for language, allowing affiliates to easily find sellers offering multi-lingual products.\n\n[Image 6: ClickTip Lightning Bolt]\n\n## Localizing Your Pitch Page Automatically\n\nA great way to improve your site's conversion rates among international customers is to have your Pitch Page automatically displayed in the appropriate language when a visitor arrives. To do this, you need to first translate your page into multiple languages, and then put PHP code in place that will display a particular version of your site based on the visitor's browser language settings. The following is a PHP script we created that should help you accomplish this. You'll need to customize it to work with your site.\n\n   <?php \n $language = $_SERVER["HTTP_ACCEPT_LANGUAGE"]; \n if(preg_match('/^de.*/', $language)) { \n   // imports german content page \n   include("german.html"); } \n   else if (preg_match('/^en.*/', $language)) { \n   //imports english content page \n   include("english.html"); } \n   else { \n   // imports english content page when language is not english or german   \n include("english.html"); } \n   ?>\n\n# \u00a0\n\n[Image 7: ClickTip Lightning Bolt]\n\n## Additional Resources & Related Articles\n\n * \u301027\u2020Creating Your First Product\u3011 \u2013 This article describes the process of creating a product.\n * \u301028\u2020Selling Physical Products\u3011 \u2013 This article explains how to sell and ship physical products.\n * \u301029\u2020Accounting Policy\u3011 \u2013 This article explains our legal policies for currency exchanges and payments.\n\n[Image 8: ClickTip Lightning Bolt]\n\n * \u301030\u2020 \u2020www.facebook.com\u3011 \n * \u301031\u2020 \u2020twitter.com\u3011 \n * \u301032\u2020 \u2020www.linkedin.com\u3011 \n\n\u301033\u2020Return to top\u3011 \n\n## Related articles\n\n * \u301034\u2020Getting Started With Your ClickBank Primary (aka Master) Account\u3011 \n * \u301035\u2020Selling Physical Products\u3011 \n * \u301036\u2020What curr", "pub_date": null, "extra": {"cited_message_idx": 43, "search_result_idx": null, "evidence_text": "source", "cloud_doc_url": null}}}], "content_references": [{"matched_text": "\u301043\u2020source\u3011", "start_idx": 480, "end_idx": 491, "alt": null, "type": "webpage_extended", "title": "Offering Products Globally \u2013 ClickBank Knowledge Base", "url": "https://support.clickbank.com/hc/en-us/articles/220364487-Offering-Products-Globally", "pub_date": null, "snippet": "Menu \n\n * \u30104\u2020ClickBank.com\u2020www.clickbank.com\u3011\n * \u30105\u2020Blog\u2020www.clickbank.com\u3011\n * \u30106\u2020ClickBank

Additionally, ClickBank accepts payments in 31 different currencies, which appeals to global customers and makes completing purchases easier.\n\nThe following subjects are covered in this article:\n\n * How Multi-Lingual and Multi-Currency Works\n * Setting Up Multi-Lingual and Multi-Currency Products\n * What the Customer Sees\n * What You See\n * What the Affiliate Sees\n * Localizing Your Pitch Page Automatically\n * Additional Resources & Related Articles\n\n[Image 1: ClickTip Lightning Bolt]\n\n## How Multi-Lingual and Multi-Currency Works\n\n## Product Types\n\nMulti-lingual capability is available for all product types\u00a0- standard or recurring billing products, as well as both digital and physical products.\n\n### Physical Products\n\nYou can sell physical products in multiple countries by configuring a Shipping Profile that specifies in what countries the product may be purchased. See the \u301022\u2020Selling Physical Products\u3011\u00a0article for more information.\n\n### Digital Products or Services\n\nClickBank requires that your digital product or service is provided in the language specified.\n\n## Pitch Page\n\nIt is recommended that your product Pitch Page be presented in the same\u00a0language as the product itself to reduce customer confusion and prevent high return and chargeback rates.\n\n## Thank You Page\n\nClickBank requires that your Thank You Page content is presented in the language specified for your product to reduce customer confusion and ultimately prevent high return and chargeback rates.\n\n## Customer Service\n\nClickBank will provide initial phone and email customer service in the language specified for the product. Sellers must be capable of servicing technical support requests or customer inquiries in the language specified for the product.\n\n## Payment Methods\n\nThe payment methods offered to customers during the checkout process may vary based on your account Order Form Control settings.\n\n## Currencies\n\nClickBank retails internationally by accepting all of the currencies listed in the \u301023\u2020Currencies ClickBank Accepts\u3011 article.\n\nThe ClickBank multi-currency feature is available on the Clickbank Order Form and is automatically enabled for all accounts and products. During product setup, you\u00a0specify a default currency for your product. ClickBank will then present the product in the specified default currency for customers in a geographic location that utilizes that currency. Customers from other geographic locations will see a converted currency most

appropriate for their location.\n\nFor example, a seller with a French audience may choose Euros as their default currency and display the product price in Euros on their pitch page. If a potential customer located in France clicks to purchase the product, ClickBank will display the price in Euros on the order form. However, if a potential customer located in New Zealand clicks to purchase the product, ClickBank will convert and display the price in New Zealand Dollars on the order form.\n\nUltimately, this flexibility increases the likelihood of making a sale by allowing sellers to specifically target their audience, while still allowing all potential buyers to make purchases in their local currency. All transactions are converted to USD and applied to your account at the time of purchase. The exchange rate is updated daily. For more information, please see our \u301024\u2020Accounting Policy\u3011.\n\n[Image 2: ClickTip Lightning Bolt]\n\n## Setting Up Multi-Lingual and Multi-Currency Products\n\nTo implement a non-English product with a default currency, follow these steps:\n\n 1. Log in to your ClickBank account.\n 2. Click the Vendor Settings\u00a0tab.\n 3. Click\u00a0My Products.\n 4. Select the product using one of the following methods: \n * Click the Edit icon for one of your existing products.\n * Create a new product using the instructions in the\u00a0\u301025\u2020Creating Your First Product\u3011\u00a0article.\n 5. Use the Language and Product Currency fields to specify the product's language and default currency.\n 6. Finish creating the product or click\u00a0Save Changes.\n\n[Image 3: ClickTip Lightning Bolt]\n\n## What the Customer Sees\n\nClickBank communicates with you and the customer each step of the way. This section outlines how customers will interact with both your product or service and ClickBank during the purchase of a non-English language or non-USD currency product. The following steps occur when a customer purchases a non-English or non-USD currency product:\n\n 1. The customer arrives at your product's Pitch Page and clicks to buy your non-English language or non-USD currency product.\n 2. The customer is taken to the ClickBank Order Form where they enter their\u00a0payment information. The Order Form is displayed in the language and currency you've specified during product creation, unless the customer is in a geographic location that uses a different currency.\n 3. The customer clicks the Pay Now button.\n 4. Once the customer's payment information is authorized, they are\u00a0sent to the order confirmation page, which is presented in the language selected during product setup and reflects the currency used to purchase. The order confirmation page then leads to your language-specific Thank You Page.\n 5. ClickBank delivers an email notification to the customer summarizing the purchase in the language specified during the product setup and reflecting the currency used to purchase. All customer-facing notifications are provided in the language specified for the product.\n\n[Image 4: ClickTip Lightning Bolt]\n\n## What the Seller Sees\u00a0\n\nThis section outlines what you can expect to see during a customer's purchase of your language or currency specific product or service:\n\nNOTE \u2013 All transactions are converted to USD and applied to your account at the time of purchase.\n\n 1. Once the customer's payment information is authorized, ClickBank delivers an English email notification to you, alerting you of the purchase. ClickBank also creates an entry in Transaction Reporting which highlights the currency used during the purchase and the amount you earned in USD.\n 2. If a customer requires technical support, ClickBank will deliver an English email notification to you with the customer's comments in either the header or footer of the notifications. The customer's comments are provided in the language received.\n\n[Image 5: ClickTip Lightning Bolt]\n\n## What the Affiliate Sees\n\nThe

\u301026\u2020Marketplace\u2020accounts.clickbank.com\u3011 features a filter for language, allowing affiliates to easily find sellers offering multi-lingual products.\n\n[Image 6: ClickTip Lightning Bolt]\n\n## Localizing Your Pitch Page Automatically\n\nA great way to improve your site's conversion rates among international customers is to have your Pitch Page automatically displayed in the appropriate language when a visitor arrives. To do this, you need to first translate your page into multiple languages, and then put PHP code in place that will display a particular version of your site based on the visitor's browser language settings. The following is a PHP script we created that should help you accomplish this. You'll need to customize it to work with your site.\n\n <?php \n $language = $_SERVER["HTTP_ACCEPT_LANGUAGE"]; \n if(preg_match('/^de.*/', $language)) { \n // imports german content page \n include("german.html"); } \n else if (preg_match('/^en.*/', $language)) { \n //imports english content page \n include("english.html"); } \n else { \n // imports english content page when language is not english or german \n include("english.html"); } \n ?>\n\n# \u00a0\n\n[Image 7: ClickTip Lightning Bolt]\n\n## Additional Resources & Related Articles\n\n * \u301027\u2020Creating Your First Product\u3011 \u2013 This article describes the process of creating a product.\n * \u301028\u2020Selling Physical Products\u3011 \u2013 This article explains how to sell and ship physical products.\n * \u301029\u2020Accounting Policy\u3011 \u2013 This article explains our legal policies for currency exchanges and payments.\n\n[Image 8: ClickTip Lightning Bolt]\n\n * \u301030\u2020 \u2020www.facebook.com\u3011 \n * \u301031\u2020 \u2020twitter.com\u3011 \n * \u301032\u2020 \u2020www.linkedin.com\u3011 \n\n\u301033\u2020Return to top\u3011 \n\n## Related articles\n\n * \u301034\u2020Getting Started With Your ClickBank Primary (aka Master) Account\u3011 \n * \u301035\u2020Selling Physical Products\u3011 \n * \u301036\u2020What curr"}], "gizmo_id": "g-aB11CrrhD", "message_type": null, "model_slug": "gpt-4o", "default_model_slug": "gpt-4o", "parent_id": "aaa29806-d91e-44ae-87f4-9abda4a696aa", "request_id": "8daa22e61e250e07-MXP", "timestamp_": "absolute"}, "recipient": "all", "channel": null}, "parent": "aaa29806-d91e-44ae-87f4-9abda4a696aa", "children": ["aaa27399-0b7a-4f5e-ac4e-b7f01b5af900"]}, "aaa27399-0b7a-4f5e-ac4e-b7f01b5af900": {"id": "aaa27399-0b7a-4f5e-ac4e-b7f01b5af900", "message": {"id": "aaa27399-0b7a-4f5e-ac4e-b7f01b5af900", "author": {"role": "user", "name": null, "metadata": {}}, "create_time": 1730278127.172945, "update_time": null, "content": {"content_type": "text", "parts": ["and to throw a wrench in the thing, is cpa more profitable? should I look for cpa offers? Unlike traditional

affiliate offers, where commissions are based on sales, CPA networks pay for specific actions, such as generating leads or acquiring sign-ups. Here\u2019s a breakdown of whether CPA might be a better fit for your goals:\n\n### Benefits of CPA Offers\n1. **Lower Commitment from Users**: With CPA, you\u2019re typically compensated when users complete a simple action (e.g., submitting an email or signing up), which often requires less commitment than making a purchase. This can lead to higher conversion rates, especially on social media.\n2. **Faster Turnaround on Earnings**: Since users don\u2019t have to purchase, CPA campaigns can often achieve faster conversions, translating to quicker earnings for you.\n3. **Diverse Niches**: CPA offers span many niches, including finance, gaming, health, and personal development. If you're open to exploring beyond manifestation or wealth, CPA offers could provide opportunities to promote in high-demand niches with less competition.\n\n### Downsides of CPA for Quick Earnings\n- **Lower Payouts per Action**: CPA offers generally pay less per action compared to high-ticket affiliate products. While you can earn around $1\u2013$20 per lead, affiliate programs in niches like manifestation or high-ticket sales can bring in $30\u2013$100 or more per sale.\n- **High-Volume Traffic Needed**: With CPA offers, especially those with lower payouts, profitability often depends on driving a significant amount of traffic to achieve meaningful earnings.\n\n### Comparing CPA to Affiliate Offers in Your Case\nIf you\u2019re prioritizing **minimal setup and quick returns**, CPA could be worth testing if you can access offers in related niches, such as personal development or wealth-building sign-ups. For example:\n- Platforms like **MaxBounty** or **CPA Grip** specialize in high-conversion CPA offers and provide tools to promote easily across platforms.\n- **CPA Offers in Finance** or **Wealth Niches**: Some CPA offers focus on lead generation for financial tools, which might be attractive for users interested in wealth creation or manifestation.\n\nHowever, if you\u2019re primarily interested in higher per-conversion earnings and don\u2019t want to drive high traffic, **sticking with high-gravity ClickBank offers like The Genius Wave** might yield faster and more substantial results per click. \n\n### Recommendation\nStart with high-gravity affiliate offers on ClickBank, like **The Genius Wave** or **Moon Reading**, to leverage their higher payouts with moderate traffic. Once you get a feel for your audience's engagement, you could test CPA offers in parallel, especially in related niches. This way, you benefit from both higher payouts and lower-effort conversions, allowing you to see which approach works best for you."]}, "status": "finished_successfully","end_turn": true

In this approach, you cast a wider net using platforms like Facebook Ads, TikTok Ads, or Google Display Ads, aiming to get as many people as possible to take a simple action, such as signing up or submitting information.\n\n### Here\u2019s How High-Traffic Strategies Work with CPA Offers:\n1. **Broad Targeting with Minimal Restrictions**: With CPA, you're often promoting offers that appeal to a wide demographic (e.g., people interested in financial tips, free trials, or health offers). For these, targeting doesn't have to be extremely niche, so broad audience settings on Facebook Ads or TikTok can be effective.\n\n2. **Low-Cost Per Action Goal**: Since CPA offers pay per action (not per sale), you\u2019re generally focused on maximizing clicks and actions at a low cost. By setting a modest cost-per-click (CPC) or cost-per-thousand-impressions (CPM) bid, you reach more people at a manageable cost, keeping acquisition costs below the CPA payout rate.\n\n3. **Ad Spend and Traffic Volume**: To generate meaningful returns, you\u2019ll want to drive thousands of clicks or impressions, meaning that you may spend aggressively upfront to test what works. With Facebook Ads, for instance, setting an initial budget of $20\u2013$50 per day can help you gauge which ad creatives or audience segments convert the best.\n\n4. **Automation & Optimization**: Running broad campaigns with CPA offers lets Facebook\u2019s algorithm optimize for high engagement and low-cost actions. You can start broad, observe which audience segments perform well, and adjust based on data to improve return on ad spend (ROAS).\n\n### Pros and Cons of Casting a Wide Net with Ads\n\n- **Pros**:\n - **Quick Data Collection**: You\u2019ll quickly see which ads convert and can refine your targeting.\n - **Low-Commitment Audience Actions**: Users only need to submit information rather than make a purchase, leading to higher conversion rates.\n\n- **Cons**:\n - **High Upfront Spend**: This approach may require $100\u2013$200+ in initial ad spend to collect enough data for optimizations.\n - **Lower Payouts Per Action**: CPA payouts per lead or sign-up tend to be lower, so you\u2019ll need volume to see significant returns.\n\n### Final Recommendation\nIf you\u2019re ready to invest upfront in ad spend and want to test a high-traffic approach, CPA offers could be worthwhile. However, if you'd prefer a lower budget to start or want to prioritize higher payouts per conversion, sticking with high-gravity ClickBank affiliate offers like **The Genius Wave** or **Moon Reading** may offer a better balance of effort and return."]}, "status": "finished_successfully","end_turn": true

However, adding a simple landing page can improve your conversions by warming up traffic and filtering out unqualified clicks.\n\n### Option 1: No Landing Page (Direct Link in Ads)\nIf speed is your priority, you can create a Facebook ad campaign and link directly to your affiliate links. This will work well with small budgets, allowing you to test quickly.\n\n1. **Create the Ad Campaign** in Facebook Ads Manager.\n2. **Target Your Audience** with interests related to \u201cself-improvement,\u201d \u201castrology,\u201d or \u201cspirituality,\u201d depending on the offer.\n3. **Ad Content**:\n   - Use engaging images (e.g., brain waves for Genius Wave, celestial visuals for Moon Reading).\n   - Add a brief, benefit-focused description.\n   - Link directly to your ClickBank affiliate link in the ad\u2019s CTA button.\n\n**Pros**: Fast and straightforward; you can get ads running quickly.\n**Cons**: You may get lower conversions as users land on the affiliate page without additional context.\n\n---\n\n### Option 2: Simple Landing Page\nIf you have time for an extra step, creating a basic landing page can help pre-sell the offer, increase trust, and boost conversion rates. Here\u2019s how:\n\n1. **Use a Free Page Builder**: Platforms like Google Sites or Carrd make it easy to create a single-page landing page.\n2. **Content on Landing Page**:\n   - Add a short description of the benefits (e.g., \u201cDiscover the power of sound waves to unlock your genius\u201d for The Genius Wave).\n   - Include a strong CTA button (\u201cGet Started\u201d or \u201cLearn More\u201d) linking to your affiliate link.\n3. **Direct Ads to Your Landing Page**: Run the Facebook ad but link to your landing page instead. This way, visitors see a warm-up page that primes them for the affiliate product.\n\n**Pros**: Higher conversion potential, better user experience.\n**Cons**: Slightly longer setup time.\n\n---\n\n### Recommended Next Step\nIf you\u2019re looking for the fastest route, go ahead with **Option 1** and set up the Facebook ad directly to your affiliate link. Once you see results, you can add a landing page later to refine the funnel and improve conversions further. \n\nThis lets you start collecting data quickly, giving you insights into how well each product resonates with your audience."]}, "status": "finished_successfully","end_turn": true

It is intended for informational purposes under Lexology Enterprises.\u201d\n - **Privacy Policy**: Include a link or section with the basic privacy policy you created, either in the footer or as a separate page.\n\n> **Note**: Your page will be named something like **Lexanova Astrology Insights** to make it look like a Lexology brand experience without mentioning Moon Reading directly.\n\n---\n\n### **2. Set Up Tracking with ClickBank and Basic Analytics**\n - **ClickBank Tracking**: Log into your ClickBank account and set up tracking IDs for this specific link. This will allow you to monitor the number of clicks, sales, and conversions coming through your campaign.\n - **Google Analytics or Facebook Pixel** (Optional): If you plan to drive traffic from organic social media, consider adding basic analytics to your Carrd page. Here\u2019s how to set it up strategically for the Moon Reading offer:\n\n---\n\n### **1. Campaign Objective: Choose \u201cTraffic\u201d**\n\nSelect \u201cTraffic\u201d as your campaign objective, aiming to drive users to your Carrd landing page. Since the goal is to get clicks to your quiz page, a traffic campaign will optimize for clicks, giving you more reach and conversions within budget.\n\n---\n\n### **2. Audience Targeting: Focus on Interest-Based Segments**\n\nFor Moon Reading, targeting audiences interested in astrology, spirituality, or self-improvement will yield the best results:\n\n- **Location**: Start with a broad target such as the U.S., Canada, UK, or Australia, where astrology

and personal development are popular niches.\n- **Age Range**: Typically, 18-45 years old tends to engage most with astrology-based offers.\n- **Interests**: Use the following Facebook interests:\n - **Astrology**: Target users interested in \u201cAstrology,\u201d \u201cHoroscope,\u201d and \u201cZodiac.\u201d\n - **Personal Development**: Add \u201cPersonal Growth,\u201d \u201cSelf-Improvement,\u201d and \u201cMindfulness.\u201d\n - **Spirituality**: Include interests like \u201cSpirituality\u201d and \u201cNew Age.\u201d\n \nLimit your initial targeting to 2-3 of these interests to keep your audience broad enough to reach about 1-2 million people but still focused.\n\n---\n\n### **3. Ad Creative: Eye-Catching Visual and Compliant Copy**\n\n#### **Visuals**\n - Use an image with celestial or moon themes (a high-quality photo of a full moon, constellations, or mystical backgrounds).\n - Consider adding subtle text overlay, like \u201cDiscover Your Moon\u2019s Path\u201d to make it eye-catching.\n\n#### **Ad Copy**\nKeep the language compliant, inviting, and curiosity-driven. Here\u2019s a sample copy:\n\n - **Primary Text**: \u201cCurious what the stars reveal about your journey? \ud83c\udf19 Discover unique insights tailored to you with a personalized astrology quiz. Start your path to self-discovery today!\u201d\n - **Headline**: \u201cUnlock Your Moon Insights Now!\u201d\n - **Call to Action (CTA)**: Use \u201cLearn More\u201d or \u201cTake Quiz\u201d to drive clicks.\n\n---\n\n### **4. Budget Allocation and Bid Strategy**\n\n - **Daily Budget**: Set a daily budget of $10-$15. This allows you to run the campaign for 7-10 days, which is long enough to gather meaningful data on ad performance.\n - **Bid Strategy**: Use the \u201cLowest Cost\u201d bid strategy to maximize reach within your budget without overcomplicating bidding.\n\n---\n\n### **5. Tracking and Optimization**\n\n - **Use UTM Parameters**: Append UTM tracking codes to your Carrd link (e.g., `utm_source=facebook&utm_campaign=moon_reading`) so you can monitor traffic sources in ClickBank and Google Analytics if connected.\n - **Monitor Key Metrics**: Focus on CTR (Click-Through Rate) and CPC (Cost per Click). A good CTR for niche offers is 1-3%, and aim for a CPC below $1 for maximum ROI.\n - **Adjust Based on Performance**: If one interest group or creative is outperforming others, allocate more of your budget to it after 3-5 days.\n\n---\n\n### **6. Expected Results and Scaling**\n\nWith careful targeting and optimization, a $100 budget can yield initial conversions, helping you understand your campaign\u2019s potential. If the CTR and conversions look promising, consider scaling by testing variations in audience targeting or creative while gradually increasing the budget.\n\n---\n\nFollowing this setup, you\u2019ll maximize your reach and chances for conversions within budget while ensuring compliance. Final Touches**\n\n- **Disclaimer & Privacy Policy Label**: Since you\u2019ve placed the disclaimer text in the last box, make sure the \u201cPrivacy Policy\u201d link is bolded or styled slightly differently (perhaps in a contrasting color or underlined) to ensure it stands out.

This will make it easily accessible and look more intentional.\n\n- **Test the Link**: If linking to a Google Doc for the privacy policy, make sure the sharing settings are set to \u201cAnyone with the link can view,\u201d so users can access it without issues. Set it to open in a new tab to keep users on the main page.\n\n- **Visual Alignment**: The layout is already visually appealing and aligned with the theme. The purple and celestial design fits the astrology theme perfectly, which enhances user engagement without implying official affiliation.\n\n---\n\n### **2. Website Title Suggestions**\n\nSince we\u2019re avoiding direct mentions of "Moon Reading" and focusing on compliance, here are a few title ideas that evoke astrology and personal growth without brand violations:\n\n- **Astro Path Insights**\n- **Celestial Blueprint Quiz**\n- **Lexology Astrology Insights**\n- **Path of the Stars Quiz**\n- **Stellar Self Discovery**\n\nThese titles highlight the idea of personalized astrology insights while maintaining neutrality. "Celestial Blueprint Quiz" or "Astro Path Insights" would align particularly well with your current page setup.\n\n---\n\n### **3. Compliance Recap**\n\nEverything on your page seems aligned with Moon Reading\u2019s affiliate guidelines:\n- No direct mention of "Moon Reading" or any other restricted terms.\n- The language is focused on insights and self-discovery, which aligns well with FTC guidelines.\n- The disclaimer is present, and there\u2019s a clear link to the privacy policy.\n\nOnce these final details are implemented, your landing page should be ready for traffic! Shortener**: If you want to make it even easier to share, you could use a link shortener like **Bitly** (bit.ly) or **Rebrandly** to create a custom, shorter link. For example, you could turn it into something like **bit.ly/lunarquiz** or **bit.ly/astro-path**.\n\nIf most of your traffic will come from ads or clickable links, **lunarastrologygateway.carrd.co** should work fine. Which one would you recommend and can you generate a script from the story if you believe its needed to best bring this story below to 'screen'\n------------------------------\n\n\r\nScientists suggest that the human mind processes anywhere from 20,000 to 70,000 thoughts per day. If I were to wake up surrounded by aliens, all my thoughts for the day would pass through my mind at that moment. So many questions and concerns would flash through my mind. \r\n\r\nAre they going to hurt me? Will they eat me? Have they studied me while I was sleeping? What did they do to me? Is this real? \r\n\r\nIs this real? I would indeed slowly move to sit up in the bed. I'm likely more disturbed by their proximity when I'm awake than their alienness. They would likely all just be looking at me, because to them, I'm an alien in their alien homeworld. How odd. \r\n\r\nI wait for one to say something, anything. I imagine they wouldn't have anything I can discern as a mouth, which I would be grateful for, but don't aliens have ESP? I'm sure I would wait for them to speak. \r\n\r\nTheir sudden appearance in my bedroom en masse suggests they obviously have something to say\u2014because why else would they all be there when I wake up? Always the taciturn type, I'd make a confused face and think loudly, asking them to say something or anything. I would hope for some revelation as to why they congregated in my bedroom. \r\n\r\nThey would probably look like the standard little gray men of legend: large, glossy eyes in a startling shade of yellow-green. Grayish skin covered with something that looks like the soft down you\u2019d find on a sage leaf. Expressionless faces and nearly glowing eyes all staring at me, perhaps five of them. I might make up some stories about them to make them feel familiar and less scary. \r\n\r\nThey\u2019re an alien family on vacation, marooned in a strange world, and somehow, they decided to come to my bedroom while I was sleeping. And probably still, they would say nothing and just stare at me. I don't know why we always assume that aliens would communicate with us. \r\n\r\nWe would probably have a stare-off for I don\u2019t know how long unless they spoke first. Perhaps after some time, if the tension got to be too much, I\u2019d say something. Something simple, like: \r\n\r\n"My name is Alexis. Welcome to Earth." \r\n\r\nPerhaps then, the smallest alien, the one without the glowing eyes, would toddle forward, reaching out with a tiny, soft hand. A sudden warmth would pulse through me, like some strange connection transcending words. Maybe they didn't come to study or harm but simply to understand.\r\n\r\nThe others would step back, watching intently, as if this small interaction were something significant to them. There\u2019d be a weight to their silence, and I\u2019d wonder if they were as curious about me as I was about them. I\u2019d look at the tiny alien, who\u2019d still be holding my hand, and wonder what its world was like, how its people thought and felt.And as suddenly as they came, they\u2019d step back one by one, their eyes lingering a moment longer before they\u2019d vanish, leaving the room

Here\u2019s how you could structure it:\n\n---\n\n**Scene 1: Dark Bedroom Interior, Close-up of a Figure in Bed (Visuals: Dim lighting, subtle movement in shadows)** \n**Text Overlay**: \n\u201cScientists suggest that the human mind processes anywhere from 20,000 to 70,000 thoughts per day\u2026\u201d\n\n**Voiceover** (optional): \n*\u201cIf I were to wake up surrounded by aliens, all my thoughts for the day would pass through my mind at that moment.\u201d*\n\n---\n\n**Scene 2: Soft Light on the Figure\u2019s Face as They Slowly Wake, Then See Aliens (Visuals: Subtle, shadowed figures around the bed, alien forms gradually appearing)** \n**Text Overlay**: \n\u201cAre they going to hurt me? Will they eat me? What did they do to me?\u201d\n\n---\n\n**Scene 3: Close-Up of Aliens\u2019 Faces, Large Eyes Watching Silently (Visuals: Gray, soft down skin; large glossy yellow-green eyes)** \n**Text Overlay**: \n"I wait for one to say something... anything.\u201d\n\n---\n\n**Scene 4: Character's POV\u2014Aliens\u2019 Expressions, Still Silent and Unmoving (Visuals: Aliens in different positions around the room, silent but expressive eyes)** \n**Text Overlay**: \n\u201cI'd make a confused face and think loudly, asking them to say something or anything.\u201d\n\n---\n\n**Scene 5: Internal Thoughts (Visuals: Zooming into the character's eyes, transitioning to a brief flashback of a happy family on vacation, superimposing alien family imagery)** \n**Text Overlay**: \n\u201cThey\u2019re an alien family on vacation, marooned in a strange world. And they decided to visit my bedroom\u2026\u201d\n\n---\n\n**Scene 6: Stare-off Between Character and Aliens, Tension Building (Visuals: Slow zooms on the character\u2019s face, then aliens)** \n**Text Overlay**: \n\u201cWe would probably

have a stare-off for I don\u2019t know how long\u2026\u201d\n\n---\n\n**Scene 7: The Character Speaks (Visuals: Character\u2019s expression softens as they tentatively speak)** \n**Text Overlay**: \n"My name is Alexis. Welcome to Earth."\n\n---\n\n**Scene 8: The Smallest Alien Moves Forward and Reaches Out, Touching Character\u2019s Hand (Visuals: Tiny hand reaching forward, contact made with the character\u2019s hand)** \n**Text Overlay**: \n\u201cA sudden warmth would pulse through me, like some strange connection transcending words\u2026\u201d\n\n---\n\n**Scene 9: Other Aliens Step Back, Observing with Silent Curiosity (Visuals: Aliens watching intently, as if something significant is happening)** \n**Text Overlay**: \n\u201cTheir eyes lingered a moment longer before they vanished, leaving the room exactly as it was.\u201d\n\n---\n\n### Tool-Specific Tips\n\n1. **Pictory AI**: Upload the text script scene by scene. Add visuals for each line of text, using free stock images and effects to simulate the aliens and the dim, suspenseful environment.\n\n2. **Lumen5**: Paste in the full story and then refine each frame. Lumen5\u2019s video clips and images can be customized to reflect a dark, mysterious bedroom and silent alien figures.\n\n3. **RunwayML**: Start with text-to-video generation for each scene, using atmospheric effects to create a dreamy or suspenseful visual quality. You could add overlays for text as captions and experiment with effects for the alien encounters.\n\nUsing this script will allow each tool to focus on a key aspect of the story, keeping the video simple, suspenseful, and visually engaging. Once the page is set up, we can go over any paid options if you'd like extra features.\n\n### Step 4: **Running Ads with a $30 Budget**\n - With a small budget, focus on **highly-targeted ads** on Facebook or TikTok:\n -

Target Audience: Look for audiences interested in self-help, spirituality, meditation, manifestation, or conspiracy theories.\n - **Ad Design**: Create ads that use emotionally compelling language and short-form video or imagery that captures the intrigue of "hidden secrets."\n\n### Step 5: **Reinvesting Profits**\n - As sales roll in, you can reinvest by expanding ad budgets and experimenting with other channels, optimizing based on which platforms and audience segments perform best.\n\nLet\u2019s start with finding a high-gravity ClickBank offer, then move on to funnel design! High gravity doesn\u2019t guarantee success but indicates other affiliates are making sales, which is promising.\n\n2. **Optimizing Ad Targeting to Stretch Budget**:\n - With a small budget, focus on narrow, high-intent audiences. For example, target people interested in \u201cmanifestation,\u201d \u201cabundance,\u201d or \u201cfinancial independence,\u201d as they\u2019re already primed to click on related

offers. This focus can reduce wasted clicks and increase the likelihood of reaching buyers.\n\n3. **Using Retargeting or Lookalike Audiences (if Possible)**:\n - Though limited by budget, retargeting can keep ads in front of people who have shown interest, especially if we run ads on Facebook or TikTok. This could lead to higher conversions since retargeted users are already familiar with the product.\n\n4. **Testing One High-Converting Ad**:\n - Craft one strong, visually compelling ad with a clear call to action and a hook that taps into curiosity or desire for improvement, helping maximize engagement and reducing the need for multiple ad variants. For example, focus on \u201cUnlocking Secret Wealth Codes\u201d or \u201cThe Government\u2019s Best-Kept Manifestation Secret.\u201d\n\n### Realistic Expectation:\nWith careful targeting, a compelling ad, and a high-converting offer, there\u2019s a reasonable chance of making your $30 back or even achieving a small profit. But given the low budget, this is more of a test run to gauge how the funnel performs, and seeing a strong return right away is ambitious. Love... Health... \n\nOften times however, our brain becomes disconnected with the universe and simply needs to be retuned. \n\nTake this short quiz below to test if your brain is able to manifest your desires into reality, or if it simply needs to be retuned! \n\n### FACEBOOK AD COPY #3 \n\nOptical illusions show you exactly how your brain's interpretation of reality is not always accurate. \u26a1 \n\nAs your brain struggles to interpret this illusion, and make it conform to what should be interpreted as "correct", it should make you realize, that reality, is whatever your brain interprets as reality. \n\nWhat most people don't realize however, is our brains are able to do more than simply "interpret" reality as they see fit... \n\nThey are able to modify reality, by directly tapping into the universe itself. \u2b50 \n\nQuantum physics has been increasingly demonstrating this monumental phenomenon over the last decade with ground breaking discoveries. \n\nIf you want to be able to tap into this ability and change your reality around you using nothing more than the power of your thought, then take this short quiz below to see how close you are to being able to manifest the reality of your choosing. \n\n#### PPC Keyword List\n\nHere is a list of some of the best, top related keywords for Ultra Manifestation. \n\u301011\u2020Click Here to Download Them.\u2020umpd.s3-us-west-2.amazonaws.com\u3011 \n\n#### Support\n\nIf you plan to buy traffic to send to this offer, or promote it to a large mailing list, we can raise your commission to a massive 90%. Nostradamus..\u2b50 \n\nWhat did they know about the nature of reality? \n\nSome say they took the secrets to their grave, while others say they left cryptic messages in their writings about it. \n\nIt was recently revealed that they understood that some people had the ability to manifest things into reality... using nothing but the power of their will and their mind. \n\nTo see if you could potentially be one of those people, take this short quiz below \n\n### FACEBOOK AD COPY #2 \n\nYou have the ability to manifest whatever \n\nyour heart desires into existence... \n\nWealth... Love... Health... \n\nOften times however, our brain becomes disconnected with the universe and simply needs to be retuned. \n\nTake this short quiz below to test if your brain is able to manifest your desires into reality, or if it simply needs to be retuned! \n\n### FACEBOOK AD COPY #3 \n\nOptical illusions show you exactly how your brain's interpretation of reality is not always accurate. \u26a1 \n\nAs your brain struggles to interpret this illusion, and make it conform to what should be interpreted as "correct", it should make you realize, that reality, is whatever your brain interprets as reality. \n\nWhat most people don't realize however, is our brains are able to do more than simply "interpret" reality as they see fit... \n\nThey are able to modify reality, by directly tapping into the universe itself. \u2b50 \n\nQuantum physics has been increasingly demonstrating this monumental phenomenon over the last decade with ground breaking discoveries. \n\nIf you want to be able to tap into this ability and change your reality around you using nothing more than the power of your thought, then take this short quiz below to see

Gravity is a ClickBank metric that indicates how well a product is converting for other affiliates. This low score suggests low recent conversions or fewer affiliates promoting it, which may imply limited demand or visibility.\n - **Audience Appeal**: Targeted towards audiences interested in Law of Attraction, wealth, and hypnosis, which aligns with popular self-help categories but may require more effort to attract engagement due to lower conversion rates.\n\n### 2. **Ultra Manifestation**\n - **Product Overview**: Ultra Manifestation focuses on manifestation through guided

audio tracks aimed at \u201cretuning\u201d the mind to attract desired outcomes, covering aspects like wealth, health, and relationships.\n - **Commission Structure**: This product also offers a generous 75% commission, and it provides a range of affiliate resources, including a quiz-based landing page and Facebook ad creatives, which can help boost conversions.\n - **Gravity Score**: Higher than Wealth Compass, indicating better conversion rates and performance for affiliates.\n - **Audience Appeal**: Ultra Manifestation targets similar audiences but with the added appeal of easy-to-use audio tracks and quiz-based engagement, making it appealing for ad traffic and quick conversions.\n\n### Comparison Summary\nWhile both products are focused on wealth and manifestation, **Ultra Manifestation** has several advantages: it has a proven ad-friendly funnel, higher gravity, and more promotional tools. **The Wealth Compass** offers decent commissions and a recurring revenue model, but its low gravity suggests it may be challenging to achieve quick returns, especially with a limited ad budget.\n\nFor your goals of minimizing risk and maximizing returns with a $30 ad spend, **Ultra Manifestation** is likely the better choice due to its higher conversion rate, proven ad assets, and a broad appeal across manifestation audiences."]}, "status": "finished_successfully","end_turn": true , "weight": 1.0, "metadata": {"finish_details": {"type": "stop", "stop_tokens": [200002]}, "is_complete": true, "citations": [], "content_references": [], "gizmo_id": null, "message_type": null, "model_slug": "gpt-4o", "default_model_slug": "auto", "parent_id": "aaa21f74-2882-4f35-bc96-f8f2a27ad7a3", "request_id": "8d9666436c140e3e-MXP", "timestamp_": "absolute"}, "recipient": "all", "channel": null}, "parent": "aaa21f74-2882-4f35-bc96-f8f2a27ad7a3", "children": ["aaa26688-7bb9-4679-a55e-2f8c56709408"]}, "aaa26688-7bb9-4679-a55e-2f8c56709408": {"id": "aaa26688-7bb9-4679-a55e-2f8c56709408", "message": {"id": "aaa26688-7bb9-4679-a55e-2f8c56709408", "author": {"role": "user", "name": null, "metadata": {}}, "create_time": 1730228652.386568, "update_time": null, "content": {"content_type": "text", "parts": ["today i was talking with copilot and they suggested this product For the Crypto Swap Profits product on ClickBank, the initial conversion amount is $656.19 per sale1\r\n. Promoting in niche communities, crypto forums, or investment groups can also be effective, as these audiences are more likely to make significant purchases.\n\nIn short, **Crypto Swap Profits does indeed offer substantial payouts**, but keep in mind that conversion rates might be lower than with lower-ticket products, as the price point could require more targeted promotion. However, this approach has higher risks, as converting an audience to make a high-ticket purchase usually requires a more targeted (and often costly) marketing approach. Here\u2019s a structured plan that could help maximize your chances without overspending:\n\n### Step 1: **Optimize Audience Targeting with Free and Low-Cost Channels**\n - **Social Media Engagement**: Start by joining crypto and finance-related Facebook groups, Reddit communities, and Discord channels where crypto trading and investments are discussed. Be sure to check each group\u2019s guidelines for posting affiliate links; in some cases, subtle engagement and sharing information can be better than direct links.\n - **Content Sharing**: Create short, value-driven posts or free guides about crypto trading trends, which can direct interested followers to your affiliate link. Platforms like Twitter or Instagram are useful for sharing quick tips and getting views without spending on ads.\n\n### Step 2: **Set Up a Simple Funnel with Free Hosting**\n - **Landing Page**: A single-page funnel with a lead-in about crypto insights, trading tips, or market trends will draw in people interested in learning more about crypto. You can

host this page for free on **Carrd.co** or **Netlify**.\n - **Include a Call-to-Action**: Highlight the potential of profiting through smart crypto investments and place a clear call-to-action button linked to your affiliate product. Make it compelling by emphasizing \u201ccrypto insights,\u201d \u201ctrading secrets,\u201d or \u201cmarket timing strategies.\u201d\n\n### Step 3: **Use Part of the Budget for Minimal Ads**\n - With a $100 budget, try allocating only $30\u2013$50 initially toward targeted ads, ideally on Facebook or Twitter. Set a low daily ad budget ($5\u2013$10) to test whether your audience engages with the content. You can target users with interests in \u201ccryptocurrency,\u201d \u201cblockchain,\u201d or \u201cfinancial freedom.\u201d\n - **Retargeting**: If Facebook ads perform decently, consider setting up retargeting for users who interacted with the ad but didn\u2019t convert. This approach keeps your cost low but continues engaging interested viewers.\n\n### Step 4: **Monitor and Adjust**\n - After 7\u201310 days, check the performance of your ad spend and funnel. If you see decent engagement, consider scaling slightly with the remaining budget.\n - Use analytics to assess where visitors are clicking and spending the most time. If you\u2019re seeing interest but no sales, small adjustments like adding a more specific call-to-action or emphasizing urgency can help.\n\nThis method leverages free resources and low-cost ads while maintaining flexibility in your budget. Although conversions are often easier on Amazon (due to trust and a large user base), lower commissions mean you'd need a high volume of sales to break even or profit on your ad spend.\n2. **Easier Conversion**: Amazon\u2019s reputation can lead to higher conversion rates, especially for everyday items. If you choose

products in high-demand categories (like tech gadgets, health items, or popular books), you could potentially make a small profit if traffic is high.\n3. **Cookie Window**: Amazon offers a **24-hour cookie**, meaning if someone clicks your link and buys within a day, you earn a commission on all purchases they make. However, this is much shorter than many ClickBank products, which often have 60-day or 90-day cookies.\n\n### ClickBank High-Payout Products (e.g., Ultra Manifestation or Crypto Swap Profits)\n1. **Higher Commissions**: ClickBank products like **Ultra Manifestation** or **Crypto Swap Profits** pay high commissions, often in the range of **50%\u201375%**, which can result in much larger payouts (up to $600 per sale in some cases). Even a single sale can cover your ad costs and yield a profit.\n2. **Niche-Specific Appeal**: High-ticket products tend to require more targeted advertising, but they attract buyers who are already interested in investing in solutions (e.g., personal development, wealth-building, or specialized software).\n3. **Longer Cookie Duration**: Many ClickBank offers have 60- to 90-day cookies, giving you a wider window to earn commissions if someone clicks your link and buys later.\n\n### Strategy for Faster Returns\nIf you're looking for quick results, ClickBank offers a higher chance to recoup costs from even one or two sales. Here\u2019s how you can approach it for the best chances:\n\n1. **Start with ClickBank and Promote High-Payout Products**: Products like **Ultra Manifestation** or **Crypto Swap Profits** give you a greater profit margin per sale, allowing you to cover costs faster. Since you only need a few conversions to break even, this is the better option with a limited budget.\n\n2. **Test Minimal Ads with Retargeting**: Start with a low ad budget targeting an audience interested in manifestation or crypto, depending on the product you choose. Retargeting those who engaged with your ad or page can help maximize the value of each visitor and reduce ad waste.\n\n3. **Consider Amazon for Steady, Low-Risk Growth**: Once you see returns from ClickBank and get a feel for affiliate marketing, you could add Amazon affiliate links to diversify your income. While Amazon may yield slower results, it can offer a steady secondary income.\n\nTo sum up: **ClickBank high-payout products offer the fastest path to breaking even and achieving a profit**. For a limited ad budget, a high-ticket ClickBank product is your best chance to see a positive return, whereas Amazon\u2019s program is better suited as a longer-term, lower-risk supplement once you start seeing affiliate success."]}, "status": "finished_successfully","end_turn": true

Here\u2019s why Ultra Manifestation has a higher probability of achieving returns within a short timeframe:\n\n### 1. **Broader Appeal with Lower Buyer Resistance**\n - **Manifestation products** tend to have broader appeal and a lower price point, which typically translates to lower buyer resistance. Potential customers in the personal development niche are often open to purchasing mid-range digital products, which can result in quicker conversions from ads.\n - **Crypto products**, on the other hand, require targeting users who are both interested in and capable of spending on high-ticket products. This typically means a more selective audience and higher ad costs to reach them effectively. While the payout is attractive, achieving a single sale within a month can be challenging without precise targeting and a high ad spend.\n\n### 2. **Optimized Ad and Landing Page Resources**\n - Ultra Manifestation has pre-made, **Facebook-compliant quiz landing pages and ad creatives**, which are designed to convert even with modest ad budgets. These resources allow you to set up an ad campaign quickly, with fewer customizations needed, maximizing the $30\u2013$50 ad spend potential.\n - In contrast, Crypto Swap Profits lacks these pre-built, high-converting ad resources, and marketing crypto-related offers can be more challenging due to restrictions on platforms like Facebook and Google. \n\n### 3. **Better Fit for Limited Budget Testing**\n - With a $100 budget, Ultra Manifestation allows you to test different ad creatives or audience segments without overextending. It can be effective to target users with interests in \u201cmanifestation,\u201d \u201claw of attraction,\u201d and \u201cspirituality\u201d on Facebook, which generally sees good engagement for these types of offers.\n - Crypto-related ads, on the other hand, often require a higher ad spend to see meaningful engagement, as the product\u2019s high-ticket nature typically demands warmer, more qualified leads. This makes it less ideal for a limited ad budget.\n\n### Recommended Plan for Ultra Manifestation\n1. **Set Up the Ad Campaign**: Target a broad audience with interests in self-improvement and manifestation to test engagement. Start with a $5\u2013$10 daily budget and monitor results closely.\n2. **Use Retargeting**: Track ad interactions and set up a retargeting ad to reach users who engaged with the initial ad, which often yields better conversion rates.\n3. **Optimize Based on Early Results**: Adjust ad copy, images, or targeting based on early performance data, focusing on what drives clicks and conversions.\n\nBy prioritizing the Ultra Manifestation product and leveraging its optimized sales funnel, you have the best chance to make your money back by mid-November. Facebook isn\u2019t the only platform that could help you maximize your ad budget for Ultra Manifestation. Many users interested in self-help, manifestation, and spirituality actively engage with TikTok\u2019s short-form content, which could drive conversions quickly.\n - **Suggested Strategy**: Create a 10-15 second video ad that hooks viewers by asking, \u201cAre you manifesting your best life?\u201d or \u201cDiscover your mind\u2019s hidden potential!\u201d TikTok's video format is perfect for creating curiosity and encouraging users to click through.\n - **Budget Tip**: With TikTok, you can set a daily budget as low as $5, making it a good platform to test engagement without a large initial spend.\n\n### 2. **Pinterest Ads**\n - **Why It\u2019s a Good Option**: Pinterest is known for users interested in personal development, spirituality, and self-improvement, making it a natural fit for promoting manifestation products. Pinterest\u2019s ad platform can also target people based on search behavior, so you can reach users actively looking for related content.\n - **Suggested Strategy**: Use an image pin that taps into aspirational or motivational visuals, such as a serene meditation scene or an image of someone \u201cvisualizing\u201d success. Ad text should prompt curiosity, like \u201cTap into your mind\u2019s full power with this audio guide.\u201d\n - **Budget Tip**: Pinterest ads have flexible budgeting options, allowing for a low daily budget. Advertising in relevant subreddits (like r/manifestation, r/lawofattraction, or r/selfimprovement) can put your ad in front of users already interested in the topic.\n - **Suggested Strategy**: Use a Reddit text ad or link ad with a conversational style, something like, \u201cManifest the life you want\u2014start with these guided audio sessions.\u201d Subreddits focused on personal growth may engage well with such ads.\n - **Budget Tip**: Reddit ads can be as low as $5 per day, making it budget-friendly. However, be sure to check each subreddit\u2019s rules about ads and promotion to avoid getting flagged.\n\n### 4. **Microsoft Advertising (Bing Ads)**\n - **Why It\u2019s a Good Option**: Bing Ads may not be as popular as Google, but its audience tends to

skew slightly older and can often be less expensive to target. Many people interested in personal growth may use Bing for searches related to self-help, manifestation, and abundance.\n - **Suggested Strategy**: Focus on keyword targeting with high-intent phrases like \u201cmanifestation audio guide,\u201d \u201claw of attraction techniques,\u201d or \u201cself-improvement audio program.\u201d Text ads on Bing can drive high-quality traffic if keywords are chosen carefully.\n - **Budget Tip**: Microsoft Ads allows you to bid low on keywords that are typically more affordable than on Google, with recommended starting bids between $0.50\u2013$1 per click.\n\n### Suggested Budget Allocation\nConsider testing across two platforms, allocating $10\u2013$15 to each over a few days to see which drives the best engagement. You could try a mix of TikTok and Pinterest (for visual engagement) or Reddit and Bing Ads (for targeting search and community-driven engagement).\n\nThis multi-platform approach gives you insights into where your audience is most engaged, potentially maximizing your returns by mid-November."]}, "status": "finished_successfully","end_turn": true

Here\u2019s how we can proceed with Ultra Manifestation to get everything set up for a lean, high-converting affiliate funnel:\n\n### Step 1: Get Your Affiliate Link\n\n1. **Sign up or log in** to ClickBank.\n2. **Search for "Ultra Manifestation"** in the marketplace and generate your unique affiliate link.\n3. **Choose the Pre-Built Quiz Landing Page**: Ultra Manifestation provides several landing page options, including a quiz page. Opt for this one, as it's proven effective for conversions and ad compliance, especially on Facebook.\n\n### Step 2: Funnel Page Design\n\nOnce you have your link, I\u2019ll integrate it into a funnel page design optimized for clicks and conversions. Here\u2019s a suggested layout:\n\n1. **Headline**: Capture curiosity with something like, \u201cDiscover the Power Hidden in Your Mind \u2013 Realize Your True Potential Today.\u201d\n2. **Quiz Introduction**: A short intro to draw users into the quiz, with a few sentences on what they might discover about their potential.\n3. **Call to Action Buttons**: Multiple \u201cStart Your Journey\u201d or \u201cSee If You Qualify\u201d buttons

throughout the page with your affiliate link.\n4. **Social Proof**: If available, mention testimonials or highlight the widespread appeal of manifestation techniques for credibility.\n5. **Scarcity Message**: Create urgency, like a note that \u201cLimited Quiz Spots Are Available Today.\u201d\n\nThis layout directs users toward engagement, generating interest before they reach the affiliate sales page.\n\n### Step 3: Setting Up Hosting\n\nPlatforms like **Carrd.co** or **Netlify** are free or low-cost and offer simple setups that can host your funnel page effectively. I can provide you with the HTML code for the page, which you can upload onto one of these platforms.\n\n### Step 4: Ad Campaign\n\nWith your $30 budget, here\u2019s how to make the most of it:\n\n1. **Platform**: Start with **Facebook**, as it has well-developed tools for reaching niche audiences.\n2. **Target Audience**: Focus on interests like \u201cmanifestation,\u201d \u201claw of attraction,\u201d \u201cself-improvement,\u201d and \u201cspirituality.\u201d\n3. **Ad Creative**: Use Ultra Manifestation\u2019s high-CTR ad images and copy suggestions if they\u2019re provided. This makes it likely a better fit for your limited budget and shorter timeline. Additionally, the **Genius Wave\u2019s** higher price could make it a good option for retargeting efforts if you decide to scale up later.\n\nIf your priority is the surest and fastest returns, starting with **Ultra Manifestation** will allow you to run an ad campaign and potentially see quicker results with a manageable budget. Here's why this approach could be faster and more profitable:\n\n1. **Higher Profit Margins:** As a seller, you keep a larger percentage of each sale rather than sharing it with an affiliate network.\n2. **Affiliate Control:** You can recruit affiliates to promote your product, setting attractive commission rates that motivate others to sell for you.\n3. **Scalable Product:** A manifestation journal is a low-cost digital product that can be downloaded instantly, allowing you to scale sales without added production or shipping costs.\n4. **Appealing Niche:** The 369

method (based on numerology) has a growing audience, especially among those interested in manifestation and the Law of Attraction.\n\nTo get started, we could design a 369 Manifestation Journal with prompts, exercises, and motivational content. In the case of the purchase of new furniture, Centrufficio carries out an inspection at the customer\u2019s premises to view the existing furniture and assess the feasibility of collection.\n\n2. Following this inspection, an agreement is reached with the client on the date and method of collecting the furniture, which very often coincides with the delivery of the new furniture.\n\n3. The disposal of the furniture includes collection (also on the floor), dismantling, disassembly of components and disposal of the various materials in accordance with the law.\n\n4. We can also carry out removals of pre-existing furniture, providing for its disassembly, floor collection, packing, return and reassembly.\n\n\u301038\u2020Contact us\u3011 to evaluate the purchase of new furniture with disposal service.\n\n\u00a9 Copyright 2024 Centrufficio S.p.A. - Sede societaria Viale Andrea Doria 17 - 20124 Milano (MI) Italia - P.IVA 00902270966 - CF 08312370151 - REA: 1215041 di Milano del 20/05/86 Iscrizione alla CCIA di Milano: 08312370151 (sezione ordinaria) - Capitale sociale e riserve: \u20ac 38.250.000 - Registro AEE n. In the case of the purchase of new furniture, Centrufficio carries out an inspection at the customer\u2019s premises to view the existing furniture and assess the feasibility of collection.\n\n2. Following this inspection, an agreement is reached with the client on the date and method of collecting the furniture, which very often coincides with the delivery of the new furniture.\n\n3. The disposal of the furniture includes collection (also on the floor), dismantling, disassembly of components and disposal of the various materials in accordance with the law.\n\n4. We can also carry out removals of pre-existing furniture, providing for its disassembly, floor collection, packing, return and reassembly.\n\n\u301038\u2020Contact us\u3011 to evaluate the purchase of new furniture with disposal service.\n\n\u00a9 Copyright 2024 Centrufficio S.p.A. - Sede societaria Viale Andrea Doria 17 - 20124 Milano (MI) Italia - P.IVA 00902270966 - CF 08312370151 - REA: 1215041 di Milano del 20/05/86 Iscrizione alla CCIA di Milano: 08312370151 (sezione ordinaria) - Capitale sociale e riserve: \u20ac 38.250.000 - Registro AEE n. In the case of the purchase of new furniture, Centrufficio carries out an inspection at the customer\u2019s premises to view the existing furniture and assess the feasibility of collection.\n\n2. Following this inspection, an agreement is reached with the client on the date and method of collecting the furniture, which very often coincides with the delivery of the new furniture.\n\n3. The disposal of the furniture includes collection (also on the floor), dismantling, disassembly of components and disposal of the various materials in accordance with the law.\n\n4. We can also carry out removals of pre-existing furniture, providing for its disassembly, floor collection, packing, return and reassembly.\n\n\u301038\u2020Contact us\u3011 to evaluate the purchase of new furniture with disposal service.\n\n\u00a9 Copyright 2024 Centrufficio S.p.A. - Sede societaria Viale Andrea Doria 17 - 20124 Milano (MI) Italia - P.IVA 00902270966 - CF 08312370151 - REA: 1215041 di Milano del 20/05/86 Iscrizione alla CCIA di Milano:

In the case of the purchase of new furniture, Centrufficio carries out an inspection at the customer\u2019s premises to view the existing furniture and assess the feasibility of collection.\n\n2. Following this inspection, an agreement is reached with the client on the date and method of collecting the furniture, which very often coincides with the delivery of the new furniture.\n\n3. The disposal of the furniture includes collection (also on the floor), dismantling, disassembly of components and disposal of the various materials in accordance with the law.\n\n4. We can also carry out removals of pre-existing furniture, providing for its disassembly, floor collection, packing, return and reassembly.\n\n\u301038\u2020Contact us\u3011 to evaluate the purchase of new furniture with disposal service.\n\n\u00a9 Copyright 2024 Centrufficio S.p.A. - Sede societaria Viale Andrea Doria 17 - 20124 Milano (MI) Italia - P.IVA 00902270966 - CF 08312370151 - REA: 1215041 di Milano del 20/05/86 Iscrizione alla CCIA di Milano: 08312370151 (sezione ordinaria) - Capitale sociale e riserve: \u20ac 38.250.000 - Registro AEE n. domestic use and is aimed at tackling the problem of illegal dumping. The new home collection service will replace the 186 mobile collection points around the city, which will be phased out by 30 April.\n\nThe service permits householders to throw out up to two cubic metres of volume which is the equivalent of a three-seater couch; a table plus large-screen television; or a washing machine and dishwasher. The service can be used up to a maximum of 12 times a year and no more than twice a month.\n\nIn addition to the bulky household waste, AMA will also collect electronic appliances such as washing machines, refrigerators, freezers, dishwashers, computers, monitors, printers, televisions, music systems, fans and hair dryers.\n\nHowever the service does not include toxic or hazardous waste such as used batteries, expired medicines, neon lighting tubes, solvents or material containing asbestos. Neither does it include objects that are burnt, wet or mouldy.\n\nIn cases where the amount of rubbish to be thrown out adds up to more than two cubic metres, or is non-domestic waste, AMA Roma continues its collection system of before, for a fee.\n\nThe new service works by making an appointment by calling 060606 Mon-Fri from 09.00-18.00 and Sat 09.00-16.00, alternatively by filling out the online form on the \u301082\u2020AMA website\u2020www.amaroma.it\u3011. When booking, just insert your individual user code (found on the top right of your AMA bills).\n\nOnce an appointment is made, the objects being thrown out must be taken to the street level for collection. The AMA workers will have an identity badge and will provide you with a receipt outlining the type of material collected.\n\nSHARE\n\n\u301083\u2020 Facebook \u2020www.facebook.com\u3011 \u301084\u2020 Twitter \u2020twitter.com\u3011 \u301085\u2020 \u2020pinterest.com\u3011 \u301086\u2020 \u2020send\u3011 \n\n * Categories / Tags\n * \u301081\u2020Environment\u3011\n\nPrevious article \u301087\u2020The Italian mar\u00f2 and India\u3011 \n\nNext article \u301087\u2020The Italian mar\u00f2 and India\u3011 \n\n\u301079\u2020 \u3011 \n\n\u301079\u2020Wanted in Rome\u3011 \u301079\u2020https://www.wantedinrome.com\u3011 \n\nWanted in Rome is a monthly magazine in English for expatriates in Rome established in 1985. The new home collection service will replace the 186 mobile collection points around the city, which will be phased out by 30 April.\n\nThe service permits householders to throw out up to two cubic metres of volume which is the equivalent of a three-seater couch; a table plus large-screen television; or a washing machine and dishwasher. The service can be used up to a maximum of 12 times a year and no more than twice a month.\n\nIn addition to the bulky household waste, AMA will also collect electronic appliances such as washing machines, refrigerators, freezers, dishwashers, computers, monitors, printers, televisions, music systems, fans and hair dryers.\n\nHowever the service does not include toxic or hazardous waste such as used batteries, expired medicines, neon lighting tubes, solvents or material containing asbestos. Neither does it include objects that are burnt, wet or mouldy.\n\nIn cases where the amount of rubbish to be thrown out adds up to more than two cubic metres, or is non-domestic waste, AMA Roma continues its collection system of before, for a fee.\n\nThe new service works by making an appointment by calling 060606 Mon-Fri from 09.00-18.00 and Sat 09.00-16.00, alternatively by filling out the online form on the \u301082\u2020AMA website\u2020www.amaroma.it\u3011. When booking, just insert your individual user code (found on the top right of your AMA bills).\n\nOnce an appointment is made, the objects being thrown out must be taken to the street level for collection. The AMA workers will have an identity badge and will provide you with a receipt outlining the type of material collected.\n\nSHARE\n\n\u301083\u2020 Facebook \u2020www.facebook.com\u3011 \u301084\u2020 Twitter \u2020twitter.com\u3011 \u301085\u2020 \u2020pinterest.com\u3011 \u301086\u2020 \u2020send\u3011 \n\n * Categories / Tags\n * \u301081\u2020Environment\u3011\n\nPrevious article \u301087\u2020The Italian mar\u00f2 and India\u3011 \n\nNext article \u301087\u2020The Italian mar\u00f2 and India\u3011 \n\n\u301079\u2020 \u3011 \n\n\u301079\u2020Wanted in Rome\u3011 \u301079\u2020https://www.wantedinrome.com\u3011 \n\nWanted in Rome is a monthly magazine in English for expatriates in Rome established in 1985. This is the

equivalent of a three-seater couch; a table plus large-screen television; or a washing machine and dishwasher.\n\nFor those without street access there is a collection fee: \u20ac18.34 for up to one cubic metre of waste, or \u20ac29.34 for up to two cubic metres. The service \u2013 for street level and upper level \u2013 can be used up to a maximum of 12 times a year and no more than twice a month.\n\nTo book an appointment tel. 060606 Mon-Fri from 09.00-18.00 and Sat 09.00-16.00, alternatively compile the online form on the \u301080\u2020AMA website\u2020www.amaroma.it\u3011. When booking, insert your individual user code (found on the top right of your AMA bills).\n\nThe reactivation of the service follows the recent \u301081\u2020"Frigogate"\u3011comments by Rome mayor Virginia Raggi who voiced suspicions over an allegedly large amount of refrigerators abandoned on streets around the capital.\n\nSHARE\n\n\u301082\u2020 Facebook \u2020www.facebook.com\u3011 \u301083\u2020 Twitter \u2020twitter.com\u3011 \u301084\u2020 \u2020pinterest.com\u3011 \u301085\u2020 \u2020send\u3011 \n\n * Categories / Tags\n * \u301079\u2020Environment\u3011\n\nPrevious article \u301086\u2020World AIDS Day in Rome\u3011 \n\nNext article \u301087\u2020Fire destroys Rome's Pineta Sacchetti auditorium\u3011 \n\n\u301077\u2020 \u3011 \n\n\u301077\u2020Wanted in Rome\u3011 \u301077\u2020https://www.wantedinrome.com\u3011 \n\nWanted in Rome is a monthly magazine in English for expatriates in Rome established in 1985. This is the equivalent of a three-seater couch; a table plus large-screen television; or a washing machine and dishwasher.\n\nFor those without street access there is a collection fee: \u20ac18.34 for up to one cubic metre of waste, or \u20ac29.34 for up to two cubic metres. The service \u2013 for street level and upper level \u2013 can be used up to a maximum of 12 times a year and no more than twice a month.\n\nTo book an appointment tel. 060606 Mon-Fri from 09.00-18.00 and Sat 09.00-16.00, alternatively compile the online form on the \u301080\u2020AMA website\u2020www.amaroma.it\u3011. When booking, insert your individual user code (found on the top right of your AMA bills).\n\nThe reactivation of the service follows the recent \u301081\u2020"Frigogate"\u3011comments by Rome mayor Virginia Raggi who voiced suspicions over an allegedly large amount of refrigerators abandoned on streets around the capital.\n\nSHARE\n\n\u301082\u2020 Facebook \u2020www.facebook.com\u3011 \u301083\u2020 Twitter \u2020twitter.com\u3011 \u301084\u2020 \u2020pinterest.com\u3011 \u301085\u2020 \u2020send\u3011 \n\n * Categories / Tags\n * \u301079\u2020Environment\u3011\n\nPrevious article \u301086\u2020World AIDS Day in Rome\u3011 \n\nNext article \u301087\u2020Fire destroys Rome's Pineta Sacchetti auditorium\u3011 \n\n\u301077\u2020 \u3011 \n\n\u301077\u2020Wanted in Rome\u3011 \u301077\u2020https://www.wantedinrome.com\u3011 \n\nWanted in Rome is a monthly magazine in English for expatriates in Rome established in 1985.
