is available in Italy as of 2024. The feature allows users to purchase products
directly through the app, including during live streams and through shoppable videos.
It integrates shopping into the TikTok experience, making it convenient for businesses
and creators to sell items and for users to buy them without leaving the platform.
This functionality is part of TikTok's growing social commerce strategy across

"}]}

has led to a sentiment of distrust towards influencer marketing in some cases. Consider the recent Balocco case: Chiara Ferragni received a high fee for promoting the pandori, which was not tied to the quantity of pandori sold, nor was the charity donation amount linked to the promo's success.

But on TikTok, the Affiliation circuit addresses this issue. The affiliation circuit serves as a platform that connects sellers looking to promote their products through influencers with creators seeking commercial opportunities and products to recommend. Once the partnership between the seller and influencer is established, the creator's commission is automatically paid by the platform when a user makes a purchase directly from their channel. This way, the seller only pays the influencer based on the sales they generate on their profile.

The affiliation circuit also benefits creators by providing them with a platform to showcase themselves to brands, without the need for intermediary influencer marketing agencies. Additionally, even creators with a limited fanbase will have the opportunity to monetize, as the promo fee will depend solely on their ability to communicate with their audience.

TikTok's affiliation circuit thus represents a default and transparent mode of operation for influencer marketing, ushering in a new era that is fairer and based on merit.

[Image 3: Immagine con 4 mockup di smartphone che rappresentano le fasi di acquisto su Tik Tok Shop: Product link, product detail page, selection option e checkout]

[Image 4: Immagine con 4 mockup di smartphone che rappresentano le fasi di acquisto su Tik Tok Shop: Product link, product detail page, selection option e checkout]

Which product categories are popular on TikTok Shop?

Although the TikTok Shop experience has just begun, we already have the first statistics from the United States telling us which products are most appreciated and purchased by TikTok users.

The Beauty and Personal Care sector is decidedly the most appreciated, representing 22.5% of the entire market share. Women's Clothing and Intimates is the second most purchased category through TikTok Shop, accounting for 12.5% of purchases, while Men's Clothing and Intimates ranks third, with a preference rate of 8%.

As is already the case on Instagram, on TikTok, the female target audience appears to be the most responsive to the allure of social shopping.

Do you want to sell online or are you looking for someone to boost your sales?

Discuss it with Matteo!

1. TikTok Shop e le Presentazioni non sono uguali.

* Se hai soltanto una Vetrina e non un TikTok Shop, puoi comunque fare pubblicit\u00e0 utilizzando i prodotti nella tua vetrina e fare riferimento a

Come configurare Video Shopping Ads con Vetrina

* Se scegli Vetrina o TikTok Shop come origine prodotto, l'elenco dei prodotti che possono essere selezionati per la pubblicit\u00e0 cambia di conseguenza.

* Ricordati che TikTok Shop contiene l'inventario dei prodotti di propriet\u00e0

del venditore. Se vendi i prodotti attraverso un account affiliato o di marketing, è possibile che tu possieda un TikTok Shop.

2. Da notare che non tutti coloro che possiedono una Vetrina hanno un TikTok Shop.

* Ad esempio, un brand può concedere a un terzo l'autorizzazione a vendere prodotti a suo nome. Questi prodotti sono visualizzati nella Vetrina del terzo per essere acquistati dai clienti. Un terzo non possiede i prodotti che vende, ma piuttosto vende i prodotti per conto del brand.

Ecco cosa devi sapere per utilizzare TikTok Shop e Vetrina

Possedere una Vetrina non significa necessariamente possedere un TikTok Shop. Gli esempi che seguono mostrano i diversi scenari che si verificano tra TikTok Shop e Vetrina.

Esempi

1. Per un account TikTok ufficiale, tutti i prodotti di un brand verranno automaticamente visualizzati nella loro Vetrina.

2. Un brand può consentire agli account commerciali/affiliati di vendere i prodotti per suo conto. La Vetrina degli account commerciali/affiliati visualizzerà alcuni o tutti i prodotti di un negozio.

* Esempio 1: un brand di calzature può consentire a più account commerciali, gestiti da terzi, di vendere prodotti a suo nome.

* Esempio 2: due brand diversi di calzature possono consentire a un account affiliato/di marketing gestito da un importante rivenditore al dettaglio o da uno store specializzato di vendere prodotti per conto di entrambi i brand.

Come utilizzare TikTok Shop e Vetrina

Come account TikTok ufficiale

Se sei un account TikTok ufficiale con un TikTok Shop, la tua Vetrina mostrerà tutti i tuoi prodotti.

Come sono collegati i tuoi prodotti tra TikTok Shop e Vetrina:

* In Seller Center collega un account TikTok ufficiale. Dopo che il titolare dell'account TikTok ha confermato il link, tutti i prodotti del TikTok Shop vengono automaticamente visualizzati nella Vetrina.

* Il link dipende dal Paese in cui vende lo shop. Per maggiori informazioni scegli il tuo Paese:

\u00104\u0020Indonesia\u0020seller-id.tiktok.com\u0011,
\u00105\u0020Malesia\u0020seller-my.tiktok.com\u0011,
\u00106\u0020Filippine\u0020seller-ph.tiktok.com\u0011,
\u00107\u0020Singapore\u0020seller-sg.tiktok.com\u0011,
\u00108\u0020Thailandia\u0020seller-th.tiktok.com\u0011, \u00109\u0020Regno Unito\u0020seller-uk.tiktok.com\u0011, \u001010\u0020Stati Uniti\u0020seller-us.tiktok.com\u0011 e \u001011\u0020Vietnam\u0020seller-vn.tiktok.com\u0011.

* Ciascun TikTok Shop può disporre di 1 solo account TikTok ufficiale.

* Ciascun account TikTok può essere collegato a 1 solo TikTok Shop come account TikTok ufficiale. Un account TikTok ufficiale non può essere collegato ad altri TikTok Shop.

Come account TikTok per il marketing

La tua vetrina mostrerà alcuni o tutti i prodotti di un brand.

Come sono collegati i tuoi prodotti tra TikTok Shop e Vetrina:

* In Seller Center collega un account TikTok per il marketing. Dopo aver confermato il link, il titolare dell'account TikTok può selezionare alcuni o tutti i prodotti del TikTok Shop per mostrarli nella Vetrina.

* Il link dipende dal Paese. Per maggiori informazioni scegli il tuo Paese:

The new function that will change the approach to online shopping. - HT&T Consulting .", "url": "https://www.htt.it/en/tiktok-shop-also-arrives-in-europe-online-shopping/", "pub_date": null, "snippet": "But Instagram and Facebook represent only two showcases for brands, and purchases continue to be made on e-commerce and marketplace platforms. In fact, although it is possible to upload the catalog of products on Meta, content with clickable products always redirects to an external product page outside of the social media platform, and in fact Meta does not manage the transaction (except with specific solutions for some countries and for some Profiles/Brands, as of today). \n\nWith TikTok Shop, on the other hand, you can complete a purchase in a few clicks without ever leaving the app. TikTok provides seller support and should handle orders, shipments, and money flow internally. \n\nIn this way, TikTok Shop would position itself as a kind of integrated marketplace within the social media platform. \n\nTikTok provides 4 native formats for shopping on the platform: \n\n * Live shopping: You can purchase directly during creators\u2019 live streams by tapping on pinned products or exploring the shopping icon. \n\n * Shoppable videos: In-feed video content with clickable shop icons. \n\n * Product showcase: Showcase of products that you can find on brand or creator profiles. \n\n * Shop tab: Personalized shopping exploration section that groups various brands and different types of content. \n\n[Image 1: Immagine con 3 mockup di smartphone con differenti schermate di Tik Tok Shop][Image 2: Immagine con 3 mockup di smartphone con differenti schermate di Tik Tok Shop] \n\n## The crucial role of creators in TikTok Shop \n\nIf creators were already crucial on Instagram, they become even more so on TikTok. The reason is simple. \n\nIn-App purchases allow creators to sell the products they promote directly. \n\nWhile on Meta, creators or influencers lend their testimony to drive traffic and conversions to the websites of the brands they collaborate with, on TikTok, users purchase directly through the creators\u2019 channels. \n\nThis has two fundamental consequences: \n\n 1. Small businesses enter the game by creating content to sell their products directly. In this initial phase, TikTok\u2019s algorithm favors Shop content, offering great visibility to sellers and favorable commissions. \n\n 2. Medium/large brands can rely on creators to sell their products, without the need to internally produce content. This way, the brand does not have to invest resources in managing social media and can leverage the creator\u2019s fanbase. \n\nThe role of creators is therefore increasingly crucial in supporting brands in their online sales. The advertising style of creators is engaging and fun, reducing friction in the consumer\u2019s purchase journey, who immediately associates a positive feeling with the product being sold. \n\nOne could speak of \u201cadvertisement\u201d, a creative and well-executed advertising message, that also provides entertainment to users who choose to watch it. \n\n### Collaborations with creators are more transparent thanks to the Tik Tok Affiliation circuit \n\nMore and more brands are opting to collaborate with influencers and creators for promoting their products, but the results are not always as expected. \n\nOn Instagram, we\u2019re accustomed to hefty paychecks, with no guarantee in return that the influencer\u2019s testimony adds value to the promotion. \n\nThe fee is determined by the number of contents produced by the influencer rather than the actual sales generated by their content. \n\nThis opaque collaboration mode has led to a sentiment of distrust towards influencer marketing in some cases. Consider the recent Balocco case: Chiara Ferragni received a high fee for promoting the pandori, which was not tied to the quantity of pandori sold, nor was the charity

donation amount linked to the promo's success. But on TikTok, the Affiliation circuit addresses this issue. The affiliation circuit serves as a platform that connects sellers looking to promote their products through influencers with creators seeking commercial opportunities and products to recommend. Once the partnership between the seller and influencer is established, the creator's commission is automatically paid by the platform when a user makes a purchase directly from their channel. This way, the seller only pays the influencer based on the sales they generate on their profile. The affiliation circuit also benefits creators by providing them with a platform to showcase themselves to brands, without the need for intermediary influencer marketing agencies. Additionally, even creators with a limited fanbase will have the opportunity to monetize, as the promo fee will depend solely on their ability to communicate with their audience. TikTok's affiliation circuit thus represents a default and transparent mode of operation for influencer marketing, ushering in a new era that is fairer and based on merit.

Create a TikTok Business Account: If you don't already have one, you'll need to sign up for a TikTok Business account. This account will be essential for managing your shop and linking products to your videos.\n\n2. Register for TikTok Shop:\n- Visit the TikTok Seller Center and sign up as a seller.\n- You'll need to provide business information such as your company name, address, and tax ID, as well as proof of identity.\n- Some countries may have specific requirements or limitations, so ensure you meet those for your region.\n\n3. Set Up Your Product Inventory: \n- Once registered, you can upload your products directly to the TikTok Shop.\n- Ensure that all product descriptions, prices, and photos are optimized for visibility. TikTok encourages sellers to upload as many products as possible to increase exposure.\n\n4. Link Products to TikTok Content: \n- You can link products to your videos, live streams, and even your TikTok profile's shop tab. This makes it easy for users to shop directly from the content they're viewing.\n- You can also use TikTok's tools to create Shoppable Videos and Live Shopping events, where viewers can purchase items in real time.\n\n5. Promote Your Shop: \n- Utilize TikTok's marketing tools, such as Video Shopping Ads and collaborations with creators via the Affiliate Program, to maximize product visibility.\n- Consistently post content featuring your products and encourage engagement to attract more customers.\n\nBy following these steps, you'll have a fully operational TikTok Shop that integrates with your content and allows users to purchase directly from within the app."}], "status": "finished_successfully", "end_turn": true, "weight": 1.0, "metadata": {"citations": [{"start_ix": 1009, "end_ix": 1020, "citation_format_type": "tether_og", "metadata": {"type": "webpage", "title": "Business Help Center", "url": "https://ads.tiktok.com/help/article/considerations-when-launching-your-tiktok-shop-journey?lang=en", "text": "\nURL: https://ads.tiktok.com/help/article/considerations-when-launching-your-tiktok-shop-journey?lang=en\n\nBusiness Help Center\n\nCreate an Ad\n\nConsiderations when launching your TikTok Shop Journey\n\nLast updated, May 2024\n\nTikTok Shop is now available in the following markets: Indonesia, Malaysia, the Philippines, Singapore, Thailand, the United Kingdom, the United States, and Vietnam.\n\nYou can directly create your TikTok Shop at\n\nTikTok Seller Center\n\nAfter creating your TikTok Shop, start your marketing and sales efforts with these recommended steps."}]}}

```

\n\n1. Maximize the products uploaded to TikTok Shop (TTS). Do not only upload your bestselling products or products that you believe will sell well on TikTok Shop. We strongly recommend uploading all products available to help increase exposure among potential shoppers.\n\n2. Maximize the number of Shoppable Video posts on your TikTok account. Do not only upload videos that have performed well on other platforms or that you believe will perform well on TikTok. Uploading videos on TikTok requires no additional costs. We strongly recommend posting as many videos as possible on your TikTok account to help increase exposure among potential shoppers.\n\n3. Add TikTok Shop Product Link (the little orange cart) to all relevant videos on your TikTok account. While it is best practice to ensure the linked product matches the video content, it is more important to have a TikTok Shop Product Link on as many video posts as possible.\n\n4. Participate in the open affiliate plan. You may participate in the targeted plan if you are already familiar with creators and have an existing creator pipeline. Tips on commission rate: If no benchmarks have been set before, we recommend starting with a 10% commission rate, and gradually reducing it to 5% or 1% as your TikTok Shop GMV grows.\n\n5. Start with \u3010Video Shopping Ads\u3011 (VSA) for TikTok Shop, prioritizing existing videos from your TikTok account that have already generated organic conversions (Spark Ads). Note that when using an existing video as an asset for Video Shopping Ads, the Video Shopping Ads will use the products chosen during ad creation in the ad link. You can choose to advertise the same or different list of products for the Video Shopping Ads vs. the organic link. You can even run a Video Shopping Ads with an existing video that has no organic link.\n\n6. If using new videos as an asset for Video Shopping Ads through TikTok Ads Manager (not using Spark Ads), we recommend posting the video with the TikTok Shop Product Link on your TikTok account first, unless you are testing multiple variations of video captions, for which you may choose ads-only mode for some of the ads.\n\n7. Try to acquire affiliate videos that have been generating GMV for you and/or have high GPM (GMV per impression) as ad creatives assets. Obtain the video code from the affiliate creator. You can see all affiliate videos that have been generating GMV for you in the affiliate section of Seller Center and directly message the creator from Seller Center via Creator Connect.\n\n8. Try to use as many videos and/or TikTok Shop Product Links as possible under the same VSA ad group budget, ideally with 3-5 active video creatives in each ad group. Use the highest gross revenue and cost cap bid strategies according to preference and experiment with a combination of these two bid strategies. Experiment with using single product links (only one product per ad) and multiple product links (multiple products per ad) to test what works better for your business, as results may vary for different sellers.\n\n9. For the highest gross revenue ad group, keep scaling the budget every week, each time observing the ROAS of the previous 7 days on a rolling basis, and increase or decrease the budget as necessary. For cost cap, we recommend maximizing the budget after the ad has run for more than a day.\n\n10. Besides the 1 official TikTok account connected to your TikTok Shop, you can additionally connect up to 4 more TikTok accounts with your TikTok Shop for marketing purposes. Take advantage of this by differentiating your marketing accounts based on persona categories to cater to different audience preferences, presenting "UGC" style native content. This helps to broaden your interested audiences.\n\n11. If you are running a LIVE Shopping event, we highly recommend running \u3010Live Shopping Ads\u3011 (LSA), optimizing towards Gross Revenue, and starting with a budget of a few hundred dollars. LIVE Shopping events or LSA may or may not work well for your business. LIVE Shopping performance can be volatile but

can work well for some businesses.

2. TikTok Shop does not only offer ads GMV but also trackable organic GMV. It also offers a potentially large pool of “referral” style affiliate creatives that you can use for ads or other purposes.

3. When considering Shop Ads performance, in addition to reviewing Shop Ads ROAS performance, we recommend reviewing overall TikTok Shop marketing ROI, which equates to $[\text{Shop total GMV} / (\text{Shop Ads ads cost} + \text{Shop affiliate commission})]$. Consider how much GMV (paid, affiliate, organic) you are getting out of your marketing investment in TikTok Shop. Evaluate your TikTok Shop marketing ROI against your typical marketing ROI targets.

Ad\u3011\n\n[Image 0] \n\nConsiderations when launching your TikTok Shop
Journey\n\nLast updated, May 2024 \n\nTikTok Shop is now available in the following
markets: Indonesia, Malaysia, the Philippines, Singapore, Thailand, the United Kingdom,
the United States, and Vietnam.\n\nYou can directly create your TikTok Shop at
\u30102\u2020TikTok Seller Center\u2020seller.tiktok.com\u3011.\n\nAfter creating your
TikTok Shop, start your marketing and sales efforts with these recommended steps.
\n\n1. Maximize the products uploaded to TikTok Shop (TTS). Do not only upload your
bestselling products or products that you believe will sell well on TikTok Shop. We
strongly recommend uploading all products available to help increase exposure among
potential shoppers.\n\n2. Maximize the number of Shoppable Video posts on your TikTok
account. Do not only upload videos that have performed well on other platforms or that
you believe will perform well on TikTok. Uploading videos on TikTok requires no
additional costs. We strongly recommend posting as many videos as possible on your
TikTok account to help increase exposure among potential shoppers.\n\n3. Add TikTok
Shop Product Link (the little orange cart) to all relevant videos on your TikTok
account. While it is best practice to ensure the linked product matches the video
content, it is more important to have a TikTok Shop Product Link on as many video
posts as possible.\n\n4. Participate in the open affiliate plan. You may participate
in the targeted plan if you are already familiar with creators and have an existing
creator pipeline. Tips on commission rate: If no benchmarks have been set before, we
recommend starting with a 10% commission rate, and gradually reducing it to 5% or 1%
as your TikTok Shop GMV grows.\n\n5. Start with \u30103\u2020Video Shopping Ads\u3011
(VSA) for TikTok Shop, prioritizing existing videos from your TikTok account that have
already generated organic conversions (Spark Ads). Note that when using an existing
video as an asset for Video Shopping Ads, the Video Shopping Ads will use the products
chosen during ad creation in the ad link. You can choose to advertise the same or
different list of products for the Video Shopping Ads vs. the organic link. You can
even run a Video Shopping Ads with an existing video that has no organic link.\n\n6.
If using new videos as an asset for Video Shopping Ads through TikTok Ads Manager (not
using Spark Ads), we recommend posting the video with the TikTok Shop Product Link on
your TikTok account first, unless you are testing multiple variations of video
captions, for which you may choose ads-only mode for some of the ads.\n\n7. Try to
acquire affiliate videos that have been generating GMV for you and/or have high GPM
(GMV per impression) as ad creatives assets. Obtain the video code from the affiliate

creator. You can see all affiliate videos that have been generating GMV for you in the affiliate section of Seller Center and directly message the creator from Seller Center via Creator Connect.

8. Try to use as many videos and/or TikTok Shop Product Links as possible under the same VSA ad group budget, ideally with 3-5 active video creatives in each ad group. Use the highest gross revenue and cost cap bid strategies according to preference and experiment with a combination of these two bid strategies. Experiment with using single product links (only one product per ad) and multiple product links (multiple products per ad) to test what works better for your business, as results may vary for different sellers.

9. For the highest gross revenue ad group, keep scaling the budget every week, each time observing the ROAS of the previous 7 days on a rolling basis, and increase or decrease the budget as necessary. For cost cap, we recommend maximizing the budget after the ad has run for more than a day.

10. Besides the 1 official TikTok account connected to your TikTok Shop, you can additionally connect up to 4 more TikTok accounts with your TikTok Shop for marketing purposes. Take advantage of this by differentiating your marketing accounts based on persona categories to cater to different audience preferences, presenting “UGC” style native content. This helps to broaden your interested audiences.

11. If you are running a LIVE Shopping event, we highly recommend running Live Shopping Ads (LSA), optimizing towards Gross Revenue, and starting with a budget of a few hundred dollars. LIVE Shopping events or LSA may or may not work well for your business. LIVE Shopping performance can be volatile but can work well for some businesses.

12. TikTok Shop does not only offer ads GMV but also trackable organic GMV. It also offers a potentially large pool of “referral” style affiliate creatives that you can use for ads or other purposes.

13. When considering Shop Ads performance, in addition to reviewing Shop Ads ROAS performance, we recommend reviewing overall TikTok Shop marketing ROI, which equates to $[\text{Shop total GMV} / (\text{Shop Ads ads cost} + \text{Shop affiliate commission})]$. Consider how much GMV (paid, affiliate, organic) you are getting out of your marketing investment in TikTok Shop. Evaluate your TikTok Shop marketing ROI against your typical marketing ROI targets.

"pub_date": null, "extra": {"cited_message_idx": 10, "search_result_idx": null, "evidence_text": "source", "cloud_doc_url": null}}, {"start_ix": 1716, "end_ix": 1726, "citation_format_type": "tether_og", "metadata": {"type": "webpage", "title": "TikTok Shopping & Showcase | TikTok For Business", "url": "https://ads.tiktok.com/help/article/tiktok-shopping-and-showcase?lang=it", "text": "Una scheda Vetrina dei prodotti pu\u00f2 contenere prodotti delle seguenti opzioni:

- * Tutti i prodotti di un TikTok Shop.
- * Alcuni prodotti di un negozio.
- * Prodotti provenienti da pi\u00f9 negozi.

[Image 1: TikTok Shopping and Showcase-PNG]

Ecco cosa devi sapere prima di utilizzare TikTok Shop e Vetrina

1. TikTok Shop e le Presentazioni non sono uguali.

- * Se hai soltanto una Vetrina e non un TikTok Shop, puoi comunque fare pubblicit\u00e0 utilizzando i prodotti nella tua vetrina e fare riferimento a
- * Come configurare Video Shopping Ads con Vetrina.
- * Se scegli Vetrina o TikTok Shop come origine prodotto, l'elenco dei prodotti che possono essere selezionati

per la pubblicit  cambia di conseguenza. \n\n * Ricordati che TikTok Shop contiene l'inventario dei prodotti di propriet  del venditore. Se vendi i prodotti attraverso un account affiliato o di marketing,   possibile che tu possieda un TikTok Shop. \n\n 2. Da notare che non tutti coloro che possiedono una Vetrina hanno un TikTok Shop. \n\n * Ad esempio, un brand pu  concedere a un terzo l'autorizzazione a vendere prodotti a suo nome. Questi prodotti sono visualizzati nella Vetrina del terzo per essere acquistati dai clienti. Un terzo non possiede i prodotti che vende, ma piuttosto vende i prodotti per conto del brand. \n\n## Ecco cosa devi sapere per utilizzare TikTok Shop e Vetrina \n\nPossedere una Vetrina non significa necessariamente possedere un TikTok Shop. Gli esempi che seguono mostrano i diversi scenari che si verificano tra TikTok Shop e Vetrina. \n\n### Esempi \n\n 1. Per un account TikTok ufficiale, tutti i prodotti di un brand verranno automaticamente visualizzati nella loro Vetrina. \n\n 2. Un brand pu  consentire agli account commerciali/affiliati di vendere i prodotti per suo conto. La Vetrina degli account commerciali/affiliati visualizzer  alcuni o tutti i prodotti di un negozio. \n\n * Esempio 1: un brand di calzature pu  consentire a pi  account commerciali, gestiti da terzi, di vendere prodotti a suo nome. \n\n * Esempio 2: due brand diversi di calzature possono consentire a un account affiliato/di marketing gestito da un importante rivenditore al dettaglio o da uno store specializzato di vendere prodotti per conto di entrambi i brand. \n\n## Come utilizzare TikTok Shop e Vetrina \n\n### Come account TikTok ufficiale \n\nSe sei un account TikTok ufficiale con un TikTok Shop, la tua Vetrina mostrer  tutti i tuoi prodotti. \n\n##### Come sono collegati i tuoi prodotti tra TikTok Shop e Vetrina: \n\n * In Seller Center collega un account TikTok ufficiale. Dopo che il titolare dell'account TikTok ha confermato il link, tutti i prodotti del TikTok Shop vengono automaticamente visualizzati nella Vetrina. \n\n * Il link dipende dal Paese in cui vende lo shop. Per maggiori informazioni scegli il tuo Paese:

(GMV per impression) as ad creatives assets. Obtain the video code from the affiliate  
creator. You can see all affiliate videos that have been generating GMV for you in the  
affiliate section of Seller Center and directly message the creator from Seller Center  
via Creator Connect.\n\n8. Try to use as many videos and/or TikTok Shop Product Links  
as possible under the same VSA ad group budget, ideally with 3-5 active video  
creatives in each ad group. Use the highest gross revenue and cost cap bid strategies  
according to preference and experiment with a combination of these two bid strategies.  
Experiment with using single product links (only one product per ad) and multiple
```

product links (multiple products per ad) to test what works better for your business, as results may vary for different sellers.

9. For the highest gross revenue ad group, keep scaling the budget every week, each time observing the ROAS of the previous 7 days on a rolling basis, and increase or decrease the budget as necessary. For cost cap, we recommend maximizing the budget after the ad has run for more than a day.

10. Besides the 1 official TikTok account connected to your TikTok Shop, you can additionally connect up to 4 more TikTok accounts with your TikTok Shop for marketing purposes. Take advantage of this by differentiating your marketing accounts based on persona categories to cater to different audience preferences, presenting “UGC” style native content. This helps to broaden your interested audiences.

11. If you are running a LIVE Shopping event, we highly recommend running Live Shopping Ads (LSA), optimizing towards Gross Revenue, and starting with a budget of a few hundred dollars. LIVE Shopping events or LSA may or may not work well for your business. LIVE Shopping performance can be volatile but can work well for some businesses.

12. TikTok Shop does not only offer ads GMV but also trackable organic GMV. It also offers a potentially large pool of “referral” style affiliate creatives that you can use for ads or other purposes.

13. When considering Shop Ads performance, in addition to reviewing Shop Ads ROAS performance, we recommend reviewing overall TikTok Shop marketing ROI, which equates to $[\text{Shop total GMV} / (\text{Shop Ads ads cost} + \text{Shop affiliate commission})]$. Consider how much GMV (paid, affiliate, organic) you are getting out of your marketing investment in TikTok Shop. Evaluate your TikTok Shop marketing ROI against your typical marketing ROI targets.

“matched_text”: “source”, “start_idx”: 1384, “end_idx”: 1394, “alt”: null, “type”: “webpage_extended”, “title”: “TikTok Shopping & Showcase | TikTok For Business”, “url”: “https://ads.tiktok.com/help/article/tiktok-shopping-and-showcase?lang=it”, “pub_date”: null, “snippet”: “Una scheda Vetrina dei prodotti pu\u00f2 contenere prodotti delle seguenti opzioni:\n\n * Tutti i prodotti di un TikTok Shop.\n\n * Alcuni prodotti di un negozio.\n\n * Prodotti provenienti da pi\u00f9 negozi.”

Image 1: TikTok Shopping and Showcase-PNG

Ecco cosa devi sapere prima di utilizzare TikTok Shop e Vetrina

1. TikTok Shop e le Presentazioni non sono uguali.

* Se hai soltanto una Vetrina e non un TikTok Shop, puoi comunque fare pubblicit\u00e0 utilizzando i prodotti nella tua vetrina e fare riferimento a Come configurare Video Shopping Ads con Vetrina.

* Se scegli Vetrina o TikTok Shop come origine prodotto, l\u2019elenco dei prodotti che possono essere selezionati per la pubblicit\u00e0 cambia di conseguenza.

* Ricordati che TikTok Shop contiene l\u2019inventario dei prodotti di propriet\u00e0 del venditore. Se vendi i prodotti attraverso un account affiliato o di marketing, \u00e8 possibile che tu possieda un TikTok Shop.

2. Da notare che non tutti coloro che possiedono una Vetrina hanno un TikTok Shop.

* Ad esempio, un brand pu\u00f2 concedere a un terzo l\u2019autorizzazione a vendere prodotti a suo nome. Questi prodotti sono visualizzati nella Vetrina del terzo per essere acquistati dai clienti. Un terzo non possiede i prodotti che vende, ma piuttosto vende i prodotti per conto del brand.

Ecco cosa devi sapere per

utilizzare TikTok Shop e Vetrina \n\nPossedere una Vetrina non significa necessariamente possedere un TikTok Shop. Gli esempi che seguono mostrano i diversi scenari che si verificano tra TikTok Shop e Vetrina.\n\n### Esempi \n\n 1. Per un account TikTok ufficiale, tutti i prodotti di un brand verranno automaticamente visualizzati nella loro Vetrina.\n\n 2. Un brand pu\u00f2 consentire agli account commerciali/affiliati di vendere i prodotti per suo conto. La Vetrina degli account commerciali/affiliati visualizzer\u00e0 alcuni o tutti i prodotti di un negozio.\n\n * Esempio 1: un brand di calzature pu\u00f2 consentire a pi\u00f9 account commerciali, gestiti da terzi, di vendere prodotti a suo nome.\n\n * Esempio 2: due brand diversi di calzature possono consentire a un account affiliato/di marketing gestito da un importante rivenditore al dettaglio o da uno store specializzato di vendere prodotti per conto di entrambi i brand.\n\n## Come utilizzare TikTok Shop e Vetrina\n\n### Come account TikTok ufficiale \n\nSe sei un account TikTok ufficiale con un TikTok Shop, la tua Vetrina mostrer\u00e0 tutti i tuoi prodotti.\n\n##### Come sono collegati i tuoi prodotti tra TikTok Shop e Vetrina:\n\n * In Seller Center collega un account TikTok ufficiale. Dopo che il titolare dell\u2019account TikTok ha confermato il link, tutti i prodotti del TikTok Shop vengono automaticamente visualizzati nella Vetrina.\n\n * Il link dipende dal Paese in cui vende lo shop. Per maggiori informazioni scegli il tuo Paese: \u0020Indonesia\u0020seller-id.tiktok.com\u0020, \u0020Malesia\u0020seller-my.tiktok.com\u0020, \u0020Filippine\u0020seller-ph.tiktok.com\u0020, \u0020Singapore\u0020seller-sg.tiktok.com\u0020, \u0020Thailandia\u0020seller-th.tiktok.com\u0020, \u0020Regno Unito\u0020seller-uk.tiktok.com\u0020, \u0020Stati Uniti\u0020seller-us.tiktok.com\u0020 e \u0020Vietnam\u0020seller-vn.tiktok.com\u0020.\n\n * Ciascun TikTok Shop pu\u00f2 disporre di 1 solo account TikTok ufficiale.\n\n * Ciascun account TikTok pu\u00f2 essere collegato a 1 solo TikTok Shop come account TikTok ufficiale. Un account TikTok ufficiale non pu\u00f2 essere collegato ad altri TikTok Shop.\n\n### Come account TikTok per il marketing \n\nLa tua vetrina mostrer\u00e0 alcuni o tutti i prodotti di un brand.\n\n##### Come sono collegati i tuoi prodotti tra TikTok Shop e Vetrina:\n\n * In Seller Center collega un account TikTok per il marketing. Dopo aver confermato il link, il titolare dell\u2019account TikTok pu\u00f2 selezionare alcuni o tutti i prodotti del TikTok Shop per mostrarli nella Vetrina.\n\n * Il link dipende dal Paese. Per maggiori informazioni scegli il tuo Paese: \u0020Indonesia\u0020seller-id.tiktok.com\u0020, \u0020Malesia\u0020seller-my.tiktok.com\u0020, \u0020Filippine\u0020seller-ph.tiktok.com\u0020, \u0020Singapore\u0020seller-sg.tiktok.com\u0020, \u0020Thailandia\u0020seller-th.tiktok.com\u0020, \u0020Regno Unito\u0020seller-uk.tiktok.com\u0020, \u0020Stati Uniti\u0020seller-us.tiktok.com\u0020 e \u0020Vietnam\u0020seller-vn.tiktok.com\u0020.

Ad\u3011\n\n[Image 0] \n\nConsiderations when launching your TikTok Shop
Journey\n\nLast updated, May 2024 \n\nTikTok Shop is now available in the following
markets: Indonesia, Malaysia, the Philippines, Singapore, Thailand, the United Kingdom,
the United States, and Vietnam.\n\nYou can directly create your TikTok Shop at
\u30102\u2020TikTok Seller Center\u2020seller.tiktok.com\u3011.\n\nAfter creating your
TikTok Shop, start your marketing and sales efforts with these recommended steps.
\n\n1. Maximize the products uploaded to TikTok Shop (TTS). Do not only upload your
bestselling products or products that you believe will sell well on TikTok Shop. We
strongly recommend uploading all products available to help increase exposure among
potential shoppers.\n\n2. Maximize the number of Shoppable Video posts on your TikTok
account. Do not only upload videos that have performed well on other platforms or that
you believe will perform well on TikTok. Uploading videos on TikTok requires no
additional costs. We strongly recommend posting as many videos as possible on your
TikTok account to help increase exposure among potential shoppers.\n\n3. Add TikTok
Shop Product Link (the little orange cart) to all relevant videos on your TikTok
account. While it is best practice to ensure the linked product matches the video
content, it is more important to have a TikTok Shop Product Link on as many video
posts as possible.\n\n4. Participate in the open affiliate plan. You may participate
in the targeted plan if you are already familiar with creators and have an existing
creator pipeline. Tips on commission rate: If no benchmarks have been set before, we
recommend starting with a 10% commission rate, and gradually reducing it to 5% or 1%
as your TikTok Shop GMV grows.\n\n5. Start with \u30103\u2020Video Shopping Ads\u3011
(VSA) for TikTok Shop, prioritizing existing videos from your TikTok account that have
already generated organic conversions (Spark Ads). Note that when using an existing

video as an asset for Video Shopping Ads, the Video Shopping Ads will use the products chosen during ad creation in the ad link. You can choose to advertise the same or different list of products for the Video Shopping Ads vs. the organic link. You can even run a Video Shopping Ads with an existing video that has no organic link.

If using new videos as an asset for Video Shopping Ads through TikTok Ads Manager (not using Spark Ads), we recommend posting the video with the TikTok Shop Product Link on your TikTok account first, unless you are testing multiple variations of video captions, for which you may choose ads-only mode for some of the ads.

Try to acquire affiliate videos that have been generating GMV for you and/or have high GPM (GMV per impression) as ad creatives assets. Obtain the video code from the affiliate creator. You can see all affiliate videos that have been generating GMV for you in the affiliate section of Seller Center and directly message the creator from Seller Center via Creator Connect.

Try to use as many videos and/or TikTok Shop Product Links as possible under the same VSA ad group budget, ideally with 3-5 active video creatives in each ad group. Use the highest gross revenue and cost cap bid strategies according to preference and experiment with a combination of these two bid strategies. Experiment with using single product links (only one product per ad) and multiple product links (multiple products per ad) to test what works better for your business, as results may vary for different sellers.

For the highest gross revenue ad group, keep scaling the budget every week, each time observing the ROAS of the previous 7 days on a rolling basis, and increase or decrease the budget as necessary. For cost cap, we recommend maximizing the budget after the ad has run for more than a day.

Besides the 1 official TikTok account connected to your TikTok Shop, you can additionally connect up to 4 more TikTok accounts with your TikTok Shop for marketing purposes. Take advantage of this by differentiating your marketing accounts based on persona categories to cater to different audience preferences, presenting “UGC” style native content. This helps to broaden your interested audiences.

If you are running a LIVE Shopping event, we highly recommend running “Live Shopping Ads” (LSA), optimizing towards Gross Revenue, and starting with a budget of a few hundred dollars. LIVE Shopping events or LSA may or may not work well for your business. LIVE Shopping performance can be volatile but can work well for some businesses.

TikTok Shop does not only offer ads GMV but also trackable organic GMV. It also offers a potentially large pool of “referral” style affiliate creatives that you can use for ads or other purposes.

When considering Shop Ads performance, in addition to reviewing Shop Ads ROAS performance, we recommend reviewing overall TikTok Shop marketing ROI, which equates to $[\text{Shop total GMV} / (\text{Shop Ads ads cost} + \text{Shop affiliate commission})]$. Consider how much GMV (paid, affiliate, organic) you are getting out of your marketing investment in TikTok Shop. Evaluate your TikTok Shop marketing ROI against your typical marketing ROI targets.

TikTok Shop e le Presentazioni non sono uguali.\n\n * Se hai soltanto una Vetrina e non un TikTok Shop, puoi comunque fare pubblicit\u00e0 utilizzando i prodotti nella tua vetrina e fare riferimento a \u3010103\u2020Come configurare Video Shopping Ads con Vetrina\u3011.\n\n * Se scegli Vetrina o TikTok Shop come origine prodotto, l\u2019elenco dei prodotti che possono essere selezionati per la pubblicit\u00e0 cambia di conseguenza.\n\n * Ricordati che TikTok Shop contiene l\u2019inventario dei prodotti di propriet\u00e0 del venditore. Se vendi i prodotti attraverso un account affiliato o di marketing, \u00e8 possibile che tu possieda un TikTok Shop.\n\n 2. Da notare che non tutti coloro che possiedono una Vetrina hanno un TikTok Shop.\n\n * Ad esempio, un brand pu\u00f2 concedere a un terzo l\u2019autorizzazione a vendere

prodotti a suo nome. Questi prodotti sono visualizzati nella Vetrina del terzo per essere acquistati dai clienti. Un terzo non possiede i prodotti che vende, ma piuttosto vende i prodotti per conto del brand.

Ecco cosa devi sapere per utilizzare TikTok Shop e Vetrina

Possedere una Vetrina non significa necessariamente possedere un TikTok Shop. Gli esempi che seguono mostrano i diversi scenari che si verificano tra TikTok Shop e Vetrina.

Esempi

1. Per un account TikTok ufficiale, tutti i prodotti di un brand verranno automaticamente visualizzati nella loro Vetrina.

2. Un brand può consentire agli account commerciali/affiliati di vendere i prodotti per suo conto. La Vetrina degli account commerciali/affiliati visualizzerà alcuni o tutti i prodotti di un negozio.

* Esempio 1: un brand di calzature può consentire a più account commerciali, gestiti da terzi, di vendere prodotti a suo nome.

* Esempio 2: due brand diversi di calzature possono consentire a un account affiliato/di marketing gestito da un importante rivenditore al dettaglio o da uno store specializzato di vendere prodotti per conto di entrambi i brand.

Come utilizzare TikTok Shop e Vetrina

Come account TikTok ufficiale

Se sei un account TikTok ufficiale con un TikTok Shop, la tua Vetrina mostrerà tutti i tuoi prodotti.

Come sono collegati i tuoi prodotti tra TikTok Shop e Vetrina:

* In Seller Center collega un account TikTok ufficiale. Dopo che il titolare dell'account TikTok ha confermato il link, tutti i prodotti del TikTok Shop vengono automaticamente visualizzati nella Vetrina.

* Il link dipende dal Paese in cui vende lo shop. Per maggiori informazioni scegli il tuo Paese:

[\u002F\u002Fseller-id.tiktok.com](https://www.tiktok.com/@seller-id), [\u002F\u002Fseller-my.tiktok.com](https://www.tiktok.com/@seller-my), [\u002F\u002Fseller-ph.tiktok.com](https://www.tiktok.com/@seller-ph), [\u002F\u002Fseller-sg.tiktok.com](https://www.tiktok.com/@seller-sg), [\u002F\u002Fseller-th.tiktok.com](https://www.tiktok.com/@seller-th), [\u002F\u002Fseller-uk.tiktok.com](https://www.tiktok.com/@seller-uk), [\u002F\u002Fseller-us.tiktok.com](https://www.tiktok.com/@seller-us), [\u002F\u002Fseller-vn.tiktok.com](https://www.tiktok.com/@seller-vn).

* Ciascun TikTok Shop può disporre di 1 solo account TikTok ufficiale.

* Ciascun account TikTok può essere collegato a 1 solo TikTok Shop come account TikTok ufficiale. Un account TikTok ufficiale non può essere collegato ad altri TikTok Shop.

Come account TikTok per il marketing

La tua vetrina mostrerà alcuni o tutti i prodotti di un brand.

Come sono collegati i tuoi prodotti tra TikTok Shop e Vetrina:

* In Seller Center collega un account TikTok per il marketing. Dopo aver confermato il link, il titolare dell'account TikTok può selezionare alcuni o tutti i prodotti del TikTok Shop per mostrarli nella Vetrina.

* Il link dipende dal Paese. Per maggiori informazioni scegli il tuo Paese:

[\u002F\u002Fseller-id.tiktok.com](https://www.tiktok.com/@seller-id), [\u002F\u002Fseller-my.tiktok.com](https://www.tiktok.com/@seller-my), [\u002F\u002Fseller-ph.tiktok.com](https://www.tiktok.com/@seller-ph), [\u002F\u002Fseller-sg.tiktok.com](https://www.tiktok.com/@seller-sg), [\u002F\u002Fseller-th.tiktok.com](https://www.tiktok.com/@seller-th), [\u002F\u002Fseller-uk.tiktok.com](https://www.tiktok.com/@seller-uk), [\u002F\u002Fseller-us.tiktok.com](https://www.tiktok.com/@seller-us), [\u002F\u002Fseller-vn.tiktok.com](https://www.tiktok.com/@seller-vn).

I work with something called a 'context window,' which refers to the amount of conversation history or data I can actively remember during our session. This memory capacity is typically measured in tokens (a token could be a word or part of a word), and I have a limit of how many tokens I can retain at any one time. For instance, OpenAI's GPT-4 has a context window that allows for around 8,000 tokens in its standard version, and there are other models with larger windows (up to 32,000 tokens).\n\nAs we continue our conversation, older parts of the chat will be 'forgotten' if we exceed this token limit. However, this doesn't mean they are permanently lost\u2014while in this session I can't retrieve them, you could provide past information or use external tools to store ongoing discussions.\n\nTo manage memory more effectively, I also work with persistent memory tools (like the one here, where I remember key information across sessions) so that important details don't get lost. Does that clear things up?"]}, "status": "finished_successfully", "end_turn": true, "weight": 1.0, "metadata": {"citations": [], "content_references": [], "gizmo_id": null, "message_type": null, "model_slug": "gpt-4o", "default_model_slug": "gpt-4o", "parent_id": "53d1e895-7f7d-457b-9e58-8988fa96142e", "finish_details": {"type": "stop", "stop_tokens": [200002]}, "is_complete": true, "request_id": "8d74c5f5189a4c57-MXP", "timestamp_": "absolute"}, "recipient": "all", "channel": null}, "parent": "53d1e895-7f7d-457b-9e58-8988fa96142e", "children": [{"aaa21b50-f04f-437a-88d5-3a237acc9a59"}], "aaa21b50-f04f-437a-88d5-3a237acc9a59": {"id": "aaa21b50-f04f-437a-88d5-3a237acc9a59", "message": {"id": "aaa21b50-f04f-437a-88d5-3a237acc9a59", "author": {"role": "user", "name": null, "metadata": {}}, "create_time": 1729792749.300179, "update_time": null, "content": {"content_type": "text", "parts": ["can you give me the best prompt to know where i am tokenwise with any convo?"]}, "status": "finished_successfully", "end_turn": null, "weight": 1.0, "metadata": {"serialization_metadata": {"custom_symbol_offsets": []}, "request_id": "8d7bdbc8ade3bae1-MXP", "message_source": null, "timestamp_": "absolute", "message_type": null}, "recipient": "all", "channel": null}, "parent": "31fff8d2-3570-4934-902c-7e11e3b31318", "children": [{"26d652e6-fabb-4e0e-a3d3-6aa99310bfbc"}], "26d652e6-fabb-4e0e-a3d3-6aa99310bfbc": {"id": "26d652e6-fabb-4e0e-a3d3-6aa99310bfbc", "message": {"id": "26d652e6-fabb-4e0e-a3d3-6aa99310bfbc", "author": {"role": "assistant", "name": null, "metadata": {}}, "create_time": 1729792757.206489, "update_time": null, "content": {"content_type": "text", "parts": ["To gauge where you are in terms of token usage in a conversation, here's an optimal prompt you can use with any model like mine:\n\n**Prompt:**\n\n\"Can you provide me with an estimate of how many tokens we've used so far in this conversation, and how many we have remaining before reaching the token limit?\"\n\nThis should help you get
```

a clear idea of where you stand regarding token usage. Additionally, models generally return a token count based on both the user's input and the model's responses, so this prompt helps keep track of that balance.

Note: Different implementations of the model might allow specific commands or features for tracking tokens directly, so the results might vary depending on the environment."]}, "status": "finished_successfully", "end_turn": true

It was introduced in 2009 as part of an EU directive to make Europe a more appealing destination for qualified professionals from outside the EU, especially in fields like science, technology, engineering, and mathematics (STEM).\n\n### Key Features:\n1. Eligibility: To qualify for the EU Blue Card, applicants must:\n    - Hold a higher education degree or have equivalent professional qualifications.\n    - Have a job offer or employment contract in an EU member state that meets a certain salary threshold (which varies depending on the country and sector).\n    - Prove that the job requires high-level skills.\n2. Validity: The Blue Card is typically valid for 1 to 4 years, depending on the length of the job contract. It can be renewed and eventually lead to permanent residency in some cases.\n3. Benefits: \n    - Allows the holder to live and work in an EU member state (except Denmark and Ireland, which don't participate).\n    - Facilitates family reunification, as family members can accompany the Blue Card holder.\n    - Provides the right to travel freely within the Schengen Area.\n    - After 18 months, Blue Card holders can move to another EU country to take up a similar job.\n4. Path to Permanent Residency: Blue Card

```

holders can apply for permanent residency after a certain period, generally around five years of continuous residence in an EU member state.

Is it Legit?

Yes, the EU Blue Card is a fully recognized and legal program in the EU. It's part of the EU's effort to attract highly skilled workers and fill labor shortages in certain industries. However, the program's specific implementation and requirements can vary by country, as each EU nation sets its own salary thresholds and processing rules.

experience at PED Academy and your TEFL certification can definitely enrich
your resume, especially when applying for roles that value strong communication skills
and diverse experiences. Given the remaining space on your resume, here\u2019s how I
suggest integrating them:\n\n1. PED Academy Experience:\n    - This can showcase
your teaching and leadership skills, which are valuable in an operations role where
training and communication are crucial.\n    - You can add a short section under
Professional Experience with a focus on your success in improving student
participation and engagement.\n\n2. TEFL Certification:\n    - It can go under the
Education section, as it adds to your qualifications for roles that require strong
communication and people management skills in a global context.\n\nI'll now
integrate these into your resume, ensuring it remains ATS-friendly and well-
structured.\n\nLet's update your resume."}], "status": "finished_successfully",

Some entries have periods while others do not.\n\n### 3. **ATS Optimization:**\n - **Keyword Relevance:** Your resume contains important ATS keywords relevant to the **Operations Manager** role at **TELUS Digital Bulgaria**. You've included terms like:\n - "Operations Management";\n - "SLA Compliance";\n - "People Leadership";\n - "Process Improvement";\n - "Performance Reporting";\n These align well with the job posting's emphasis on leadership, problem-solving, and SLA management.\n - **Job-Specific Keywords:** If

you want to fine-tune further for this specific role, you could incorporate additional keywords like:\n - "Service delivery" (used in the job description)\n - "Mentorship" or "Career development" (as it relates to managing teams)\n - "Continuous productivity/quality gain" (phrasing from the job posting)\n \n **Overall**, the resume is well optimized, but small formatting adjustments will ensure better readability and consistency."}], "status":

Keeping a consistent stylistic choice like leaving off the endash for jobs worked within a single year can be a personal preference, and as long as it's consistent across the document, it works fine. For jobs spanning multiple years, the endash is standard for readability and clarity.\n\nIf you\u2019d like, I can help ensure that all single-year roles are correctly styled without the endash, and that multi-year roles consistently include the endash. Would you like me to make these adjustments for you?"]}, "status": "finished_successfully", "end_turn": true, "weight": 1.0, "metadata": {"citations": [], "content_references": [], "gizmo_id": "g-0Ray7nkg", "message_type": null, "model_slug": "gpt-4o", "default_model_slug": "gpt-4o", "parent_id": "aaa26542-6940-4d90-a853-45bfec10cc89", "finish_details": {"type": "stop", "stop_tokens": [200002]}, "is_complete": true, "request_id": "8d7abaccacf9bb1f-MXP", "timestamp_": "absolute"}, "recipient": "all", "channel": null, "parent": "aaa26542-6940-4d90-a853-45bfec10cc89", "children": [{"id": "aaa2422c-93c3-453c-9376-ac333b07f595"}], "aaa2422c-93c3-453c-9376-ac333b07f595": {"id": "aaa2422c-93c3-453c-9376-ac333b07f595", "message": {"id": "aaa2422c-93c3-453c-9376-ac333b07f595", "author": {"role": "user", "name": null, "metadata": {}}, "create_time": 1729781016.631854, "update_time": null, "content": {"content_type": "text", "parts": ["actually make all the adjustments you suggested but keep in mind that PR is supposed be the province or regional code for prague just like CA and RM, and MN, also work in those job specific keywords too. Notably, llama.cpp is one popular tool, with over 65K GitHub stars at the time of writing. Originally released in 2023, this open-source repository is a lightweight, efficient framework for large language model ... \n# \u301023\u2020Nvidia just released an open-source LLM to rival GPT-4\u2020www.digitaltrends.com\u3011\nNvidia introduces NVLM 1.0, a family of multimodal large language models that perform on par with GPT-4 and other proprietary models. NVLM-D-72B is the flagship model that can handle vision and ... \n# \u301024\u2020Meta releases Llama 3.1 open-source AI model to take on OpenAI - The Verge\u2020www.theverge.com\u3011\nLlama 3.1 is a 405-billion parameter model that outperforms GPT-4o and Claude 3.5 Sonnet on several benchmarks. Meta claims it will be the most widely used AI assistant by the end of 2024 and ... \nVisible: 0% - 100%", "pub_date": null, "extra": null}], "original_query": null}, "command": "search", "args": ["Nvidia released free open source AI Llama 3 October 2024"], "status": "finished", "is_complete": true, "message_type": null, "model_slug": "gpt-4o", "default_model_slug": "auto", "parent_id": "9caaf8f7-9973-4016-a67a-a038b8b31c55", "request_id": "8d6fddea5e305274-MXP", "timestamp_": "absolute", "recipient": "all", "channel": null}, "parent": "9caaf8f7-9973-4016-a67a-a038b8b31c55", "children": [{"id": "42448afb-021b-48fb-a179-d0b71c92458f"}], "42448afb-021b-48fb-a179-d0b71c92458f": {"id": "42448afb-021b-48fb-a179-d0b71c92458f", "message": {"id": "42448afb-021b-48fb-a179-d0b71c92458f", "author": {"role": "assistant", "name": null, "metadata": {}}, "create_time": 1729667014.637453, "update_time": null, "content": {"content_type": "code", "language": "unknown", "response_format_name": null, "text": "mclick([1, 0, 3, 7, 13])"}, "status": "finished_successfully", "end_turn": false, "weight": 1.0, "metadata": {"citations": [], "content_references": [], "gizmo_id": null, "message_type": null, "model_slug": "gpt-4o", "default_model_slug": "auto", "parent_id": "b76b5c32-0dba-4ec7-8a15-49932b465f4f", "finish_details": {"type": "stop", "stop_tokens": [200007]}, "is_complete": true, "request_id": "8d6fddea5e305274-MXP", "timestamp_": "absolute", "recipient": "browser", "channel": null}, "parent": "b76b5c32-0dba-4ec7-8a15-49932b465f4f", "children": [{"id": "0d3f1166-ac29-4bbf-a04c-fb94b7a57848"}], "0d3f1166-ac29-4bbf-a04c-fb94b7a57848": {"id": "0d3f1166-ac29-4bbf-a04c-fb94b7a57848", "message": {"id": "0d3f1166-ac29-4bbf-a04c-fb94b7a57848", "author": {"role": "tool", "name": "browser", "metadata": {}}, "create_time": 1729667014.63755, "update_time": null, "content": {"content_type": "tether_quote", "url": "https://techstory.in/nvidias-new-open-source-ai-model-could-reshape-the-ai-industry/", "domain": "techstory.in", "text": "\n## Superior Performance and Flexibility for Businesses\n\nThe Llama-3.1-Nemotron-70B-Instruct model stands out not only for its technical performance but also for its business-friendly features. Nvidia\u2019s new open-source AI model offers businesses a flexible and cost-effective alternative to proprietary AI systems.\u00a0 This flexibility is particularly useful for enterprises needing AI models that can adapt to various tasks, from customer service to detailed report generation.\n\nDespite its impressive capabilities, Nvidia has warned that the

model may not be fully optimized for specialized domains like mathematics or legal reasoning. As such, businesses will need to ensure they implement appropriate safeguards when using the model in areas requiring high precision.

Nvidia's Expanding AI Ambitions

Nvidia's entry into high-performance AI software is part of a broader strategy to offer fully integrated AI solutions. The company recently introduced the NVLM 1.0 family of multimodal models, including the 72-billion-parameter NVLM-D-72B, further showcasing its push into the AI space. These efforts highlight Nvidia's ambition to compete not only in hardware but also in the broader AI software market.

By refining Meta's Llama models and introducing the Nemotron version, Nvidia aims to provide businesses with customizable AI solutions that can be tailored to specific needs. The company is making advanced AI technology more accessible by offering free hosted inference through its platform, build.nvidia.com, complete with an OpenAI-compatible API interface. This move opens the door for a wider range of industries to experiment with and adopt cutting-edge language models.

Nvidia's move into AI software development is likely to accelerate competition in the sector. Other tech giants may need to reconsider their strategies and invest more in research and development to keep pace with Nvidia's innovations. The introduction of the Llama-3.1-Nemotron-70B-Instruct model could lead to increased collaboration in the AI space, particularly around open-source projects, as companies strive to stay ahead in the race to develop the most advanced AI systems.

Applications Across Multiple Sectors

Developers are excited about the potential applications of Nvidia's new open-source AI model, particularly in sectors like healthcare and finance.

The model's success will depend on its ability to translate strong benchmark performance into real-world solutions. For businesses, the flexibility and performance of the Llama-3.1-Nemotron-70B-Instruct model could make it an attractive option for streamlining operations and improving customer service.

While Nvidia's new model has garnered attention for its high scores in benchmark tests, its long-term success will depend on how well it performs in practical applications. Nvidia has acknowledged that the model still has limitations in highly specialized fields.

tested\u003011\n * \u00301026\u0020NeuralDaredevil-7B open source AI model\u003011\n\n##
Innovative Reward Modeling Approaches\n\nTwo pioneering reward modeling techniques
contribute significantly to the Nemotron 70b\u002019s capabilities:\n\n1. Bradley Terry
Model: This statistical approach evaluates pairs of responses to determine which is
superior, allowing for fine-grained optimization of the model\u002019s output
quality.\n\n2. Regression-Style Scoring: By assigning numeric scores based on specific
criteria such as helpfulness, accuracy, and relevance, this method provides a more
nuanced framework for improving the model\u002019s performance.\n\nThese advanced reward
modeling techniques work in tandem to refine the Nemotron 70b\u002019s responses,
resulting in more coherent, contextually appropriate, and useful outputs across a wide
range of applications.\n\n## Data Set Innovations: HelpSteer 2\n\nA critical factor in
the Nemotron 70b\u002019s success is the utilization of the \u00301027\u0020HelpSteer 2
data set\u0020huggingface.co\u003011. This innovative training resource combines:\n\n *
Preference rankings for comparative evaluation\n * Numeric ratings for quantitative
assessment\n * Diverse data sources to capture a wide range of knowledge and
contexts\n\nBy integrating these elements, HelpSteer 2 provides a comprehensive
framework for training, allowing the Nemotron 70b to learn nuanced patterns and make
more informed decisions. This approach enhances the model\u002019s ability to handle
complex queries and generate high-quality responses across various domains.\n\n##
Performance Benchmarks and Capabilities\n\nThe Nemotron 70b has demonstrated
exceptional performance in several key benchmarks:\n\nReward Bench: Outperforming
competitors in this metric, which evaluates the model\u002019s ability to generate
responses aligned with human preferences.\n\nArena Hard Auto: Excelling in this
challenging benchmark, showcasing the model\u002019s advanced reasoning capabilities and
adaptability to complex scenarios.\n\nThese results highlight the Nemotron 70b\u002019s
potential for tackling intricate tasks with precision and reliability, making it
suitable for a wide range of applications in research, industry, and beyond.\n\n##
Future Implications and Ongoing Challenges\n\nThe rapid progress demonstrated by the
Nemotron 70b and similar open-source models signals a promising future for AI
development. As these models continue to evolve, they hold significant potential
for:\n\n * Enhancing AI reasoning and problem-solving capabilities\n * Improving
natural language understanding and generation\n * Facilitating more intuitive human-
AI interactions\n * Accelerating research and innovation in AI-related
fields\n\nHowever, it\u002019s important to acknowledge that challenges remain. The
Nemotron 70b, like other AI models, still faces difficulties with certain types of
reasoning tasks. Ongoing research and development efforts are focused on addressing
these limitations through techniques such as:\n\nPrompt Engineering: Refining the way
queries are presented to the model to optimize its performance in specific

scenarios.

Continuous Learning: Implementing mechanisms for the model to update and improve its knowledge base over time.

Task-Specific Fine-Tuning: Adapting the model for specialized applications while maintaining its general capabilities.

NVIDIA's Nemotron 70b represents a significant milestone in open-source AI development. By demonstrating performance that rivals and even surpasses established closed-source models, it sets a new benchmark for what's possible in the realm of accessible, community-driven AI innovation. As the field continues to evolve, open-source models like the Nemotron 70b are poised to play an increasingly crucial role in shaping the future of artificial intelligence, driving progress through collaboration, transparency, and shared knowledge. Jump over to the [Hugging Face website](https://huggingface.co) for more information on the latest AI model from NVIDIA.

Two pioneering reward modeling techniques contribute significantly to the Nemotron 70b's capabilities:

- Bradley Terry Model:** This statistical approach evaluates pairs of responses to determine which is superior, allowing for fine-grained optimization of the model's output quality.
- Regression-Style Scoring:** By assigning numeric scores based on specific

criteria such as helpfulness, accuracy, and relevance, this method provides a more nuanced framework for improving the model's performance. These advanced reward modeling techniques work in tandem to refine the Nemotron 70b's responses, resulting in more coherent, contextually appropriate, and useful outputs across a wide range of applications.

Data Set Innovations: HelpSteer 2

A critical factor in the Nemotron 70b's success is the utilization of the [HelpSteer 2](https://huggingface.co/datasets/helpsteer2) data set. This innovative training resource combines:

- * Preference rankings for comparative evaluation
- * Numeric ratings for quantitative assessment
- * Diverse data sources to capture a wide range of knowledge and contexts

By integrating these elements, HelpSteer 2 provides a comprehensive framework for training, allowing the Nemotron 70b to learn nuanced patterns and make more informed decisions. This approach enhances the model's ability to handle complex queries and generate high-quality responses across various domains.

Performance Benchmarks and Capabilities

The Nemotron 70b has demonstrated exceptional performance in several key benchmarks:

- Reward Bench:** Outperforming competitors in this metric, which evaluates the model's ability to generate responses aligned with human preferences.
- Arena Hard Auto:** Excelling in this challenging benchmark, showcasing the model's advanced reasoning capabilities and adaptability to complex scenarios.

These results highlight the Nemotron 70b's potential for tackling intricate tasks with precision and reliability, making it suitable for a wide range of applications in research, industry, and beyond.

Future Implications and Ongoing Challenges

The rapid progress demonstrated by the Nemotron 70b and similar open-source models signals a promising future for AI development. As these models continue to evolve, they hold significant potential for:

- * Enhancing AI reasoning and problem-solving capabilities
- * Improving natural language understanding and generation
- * Facilitating more intuitive human-AI interactions
- * Accelerating research and innovation in AI-related fields

However, it's important to acknowledge that challenges remain. The Nemotron 70b, like other AI models, still faces difficulties with certain types of reasoning tasks. Ongoing research and development efforts are focused on addressing these limitations through techniques such as:

- Prompt Engineering:** Refining the way queries are presented to the model to optimize its performance in specific scenarios.
- Continuous Learning:** Implementing mechanisms for the model to update and improve its knowledge base over time.
- Task-Specific Fine-Tuning:** Adapting the model for specialized applications while maintaining its general capabilities.

NVIDIA's Nemotron 70b represents a significant milestone in open-source AI development. By demonstrating performance that rivals and even surpasses established closed-source models, it sets a new benchmark for what's possible in the realm of accessible, community-driven AI innovation. As the field continues to evolve, open-source models like the Nemotron 70b are poised to play an increasingly crucial role in shaping the future of artificial intelligence, driving progress through collaboration, transparency, and shared knowledge. Bradley Terry Model: This statistical approach evaluates pairs of responses to determine which is superior, allowing for fine-grained optimization of the model\u2019s output quality.\n\n2. Regression-Style Scoring: By assigning numeric scores based on specific criteria such as helpfulness, accuracy, and relevance, this method provides a more nuanced framework for improving the model\u2019s performance.\n\n\nThese advanced reward modeling techniques work in tandem to refine the Nemotron 70b\u2019s responses, resulting in more coherent, contextually appropriate, and useful outputs across a wide range of applications.\n\n## Data Set Innovations: HelpSteer 2\n\nA critical factor in the Nemotron 70b\u2019s success is the utilization of the \u301027\u2020HelpSteer 2 data set\u2020huggingface.co\u3011. This innovative training resource combines:\n\n * Preference rankings for comparative evaluation\n * Numeric ratings for quantitative assessment\n * Diverse data sources to capture a wide range of knowledge and contexts\n\nBy integrating these elements, HelpSteer 2 provides a comprehensive framework for training, allowing the Nemotron 70b to learn nuanced patterns and make

more informed decisions. This approach enhances the model's ability to handle complex queries and generate high-quality responses across various domains.

Performance Benchmarks and Capabilities

The Nemotron 70b has demonstrated exceptional performance in several key benchmarks:

- Reward Bench:** Outperforming competitors in this metric, which evaluates the model's ability to generate responses aligned with human preferences.
- Arena Hard Auto:** Excelling in this challenging benchmark, showcasing the model's advanced reasoning capabilities and adaptability to complex scenarios.

These results highlight the Nemotron 70b's potential for tackling intricate tasks with precision and reliability, making it suitable for a wide range of applications in research, industry, and beyond.

Future Implications and Ongoing Challenges

The rapid progress demonstrated by the Nemotron 70b and similar open-source models signals a promising future for AI development. As these models continue to evolve, they hold significant potential for:

- Enhancing AI reasoning and problem-solving capabilities
- Improving natural language understanding and generation
- Facilitating more intuitive human-AI interactions
- Accelerating research and innovation in AI-related fields

However, it's important to acknowledge that challenges remain. The Nemotron 70b, like other AI models, still faces difficulties with certain types of reasoning tasks. Ongoing research and development efforts are focused on addressing these limitations through techniques such as:

- Prompt Engineering:** Refining the way queries are presented to the model to optimize its performance in specific scenarios.
- Continuous Learning:** Implementing mechanisms for the model to update and improve its knowledge base over time.
- Task-Specific Fine-Tuning:** Adapting the model for specialized applications while maintaining its general capabilities.

NVIDIA's Nemotron 70b represents a significant milestone in open-source AI development. By demonstrating performance that rivals and even surpasses established closed-source models, it sets a new benchmark for what's possible in the realm of accessible, community-driven AI innovation. As the field continues to evolve, open-source models like the Nemotron 70b are poised to play an increasingly crucial role in shaping the future of artificial intelligence, driving progress through collaboration, transparency, and shared knowledge. Jump over to the [Hugging Face website](https://huggingface.co) for more information on the latest AI model from NVIDIA.

Innovative Reward Modeling Approaches\n\nTwo pioneering reward modeling techniques
contribute significantly to the Nemotron 70b\u2019s capabilities:\n\n1. Bradley Terry
Model: This statistical approach evaluates pairs of responses to determine which is
superior, allowing for fine-grained optimization of the model\u2019s output
quality.\n\n2. Regression-Style Scoring: By assigning numeric scores based on specific
criteria such as helpfulness, accuracy, and relevance, this method provides a more
nuanced framework for improving the model\u2019s performance.\n\nThese advanced reward
modeling techniques work in tandem to refine the Nemotron 70b\u2019s responses,
resulting in more coherent, contextually appropriate, and useful outputs across a wide
range of applications.\n\n## Data Set Innovations: HelpSteer 2\n\nA critical factor in
the Nemotron 70b\u2019s success is the utilization of the \u301027\u2020HelpSteer 2
data set\u2020huggingface.co\u3011. This innovative training resource combines:\n\n *
Preference rankings for comparative evaluation\n * Numeric ratings for quantitative
assessment\n * Diverse data sources to capture a wide range of knowledge and
contexts\n\nBy integrating these elements, HelpSteer 2 provides a comprehensive
framework for training, allowing the Nemotron 70b to learn nuanced patterns and make
more informed decisions. This approach enhances the model\u2019s ability to handle
complex queries and generate high-quality responses across various domains.\n\n##
Performance Benchmarks and Capabilities\n\nThe Nemotron 70b has demonstrated
exceptional performance in several key benchmarks:\n\nReward Bench: Outperforming
competitors in this metric, which evaluates the model\u2019s ability to generate
responses aligned with human preferences.\n\nArena Hard Auto: Excelling in this
challenging benchmark, showcasing the model\u2019s advanced reasoning capabilities and
adaptability to complex scenarios.\n\nThese results highlight the Nemotron 70b\u2019s
potential for tackling intricate tasks with precision and reliability, making it
suitable for a wide range of applications in research, industry, and beyond.\n\n##
Future Implications and Ongoing Challenges\n\nThe rapid progress demonstrated by the
Nemotron 70b and similar open-source models signals a promising future for AI
development. As these models continue to evolve, they hold significant potential
for:\n\n * Enhancing AI reasoning and problem-solving capabilities\n * Improving
natural language understanding and generation\n * Facilitating more intuitive human-
AI interactions\n * Accelerating research and innovation in AI-related
fields\n\nHowever, it\u2019s important to acknowledge that challenges remain. The

Nemotron 70b, like other AI models, still faces difficulties with certain types of reasoning tasks. Ongoing research and development efforts are focused on addressing these limitations through techniques such as:
Prompt Engineering: Refining the way queries are presented to the model to optimize its performance in specific scenarios.
Continuous Learning: Implementing mechanisms for the model to update and improve its knowledge base over time.
Task-Specific Fine-Tuning: Adapting the model for specialized applications while maintaining its general

capabilities.
NVIDIA's Nemotron 70b represents a significant milestone in open-source AI development. By demonstrating performance that rivals and even surpasses established closed-source models, it sets a new benchmark for what's possible in the realm of accessible, community-driven AI innovation. As the field continues to evolve, open-source models like the Nemotron 70b are poised to play an increasingly crucial role in shaping the future of artificial intelligence, driving progress through collaboration, transparency, and shared knowledge. "\nAccording to a post on X from the Nvidia AI Developer account, the new model,
dubbed Llama-3.1-Nemotron-70B-Instruct, \u201cis a leading model\u201d on
Lmarena.AI\u2019s Chatbot Arena.\u00a0\n\n[Image 2: NVidia, Technology, Meta, ChatGPT,
OpenAI]\n\nSource: \u301036\u2020Nvidia AI\u2020x.com\u3011\n\n## Nemotron \n\nLlama-
3.1-Nemotron-70B-Instruct is, essentially, a modified version of Meta\u2019s open-
source Llama-3.1-70B-Instruct. The \u201cNemotron\u201d portion of the model\u2019s
name encapsulates Nvidia\u2019s contribution to the end result.\u00a0\n\nThe Llama
\u201cherd\u201d of AI models, as Meta refers to them, are meant to be used as open-
source foundations for developers to build on. \n\nIn the case of Nemotron, Nvidia
took up the challenge and developed a system designed to be more \u201chelpful\u201d
than popular models such as OpenAI\u2019s ChatGPT and Anthropic\u2019s Claude-
3.\u00a0\n\nNvidia \u301037\u2020used\u2020build.nvidia.com\u3011 specially curated
data sets, advanced fine-tuning methods and its own state-of-the-art AI hardware to
turn Meta\u2019s vanilla model into what might be the most \u201chelpful\u201d AI
model on the planet.\u00a0\n\n[Image 3: NVidia, Technology, Meta, ChatGPT,
OpenAI]\n\nAn engineer\u2019s post on X.com expressing excitement for Nemotron\u2019s
capabilities. Source: \u301038\u2020Shayan Taslim\u2020x.com\u3011\n\n## Benchmarking
\n\nWhen it comes to determining which AI model is \u201cthe best,\u201d there\u2019s
no clear-cut methodology. Unlike, for example, measuring the ambient temperature with
a mercury thermometer, there isn\u2019t a single \u201ctruth\u201d that exists when it
comes to AI model performance.\u00a0\n\nDevelopers and researchers have to determine
how well an AI model performs the same as humans are evaluated \u2014 through
comparative testing.\u00a0\n\nRelated: \u301039\u2020AI \u2018mind uploads\u2019 could
allow the dead to trade forever\u3011\n\nAI benchmarking involves giving different AI
models the same queries, tasks, questions or problems and then comparing the
usefulness of the results. Often, due to the subjectivity of what is and isn\u2019t
considered useful, human proctors are used to determine a machine\u2019s performance
through blind evaluations.\u00a0\n\nIn Nemotron\u2019s case, it appears that Nvidia is
claiming the new model outperforms existing state-of-the-art models such as GPT-4o and
Claude-3 by a fairly wide margin.\n\n[Image 4: NVidia, Technology, Meta, ChatGPT,
OpenAI]\n\nThe top of the Chatbot Arena leaderboards. Source: LLMarena \n\nThe image
above depicts the ratings on the automated \u201cHard\u201d test on the Chatbot Arena
Leaderboards. While Nvidia\u2019s Llama-3.1-Nemotron-70B-Instruct doesn\u2019t appear
to be listed anywhere on the boards, if the developer\u2019s claim that it scored an
85 on this test is valid, it would be the de facto top model in this particular
section.\u00a0\n\nWhat makes the achievement perhaps even more interesting is that
Llama-3.1-70B is Meta\u2019s middle-tier open-source AI model. There\u2019s a much
larger version of Llama-3.1, the 405B version (where the number refers to how many
billion parameters the model was tuned with). \n\nBy comparison, GPT-4o is
\u301040\u2020estimated\u2020arxiv.org\u3011 to have been developed with over 1
trillion parameters.\n\nMagazine: \u301041\u2020Fake Rabby Wallet scam linked to Dubai
