I saw his wife and children, and I felt their story aligned with a common narrative about Black people achieving great things with intelligence, hard work, and dedication. He seemed a natural addition to my Black History Month studies, so to speak.\n\nHowever, when I see Kamala Harris displaying indications of Blackness, I sometimes feel it might be performative. What makes Kamala's displays different than Obama's? Could it be a combination of sexism and colorism within the Black community? Have we not fully embraced her, while Obama may have benefited from biases within our community, such as patriarchy and colorism that prioritize the contributions of men over women? The core question is, what makes Kamala Harris's displays of Blackness questionable? Why is there a feeling that it's performative to gain and solidify the Black vote?\n\nTo find answers, it's best to start by juxtaposing the history of these two individuals. Who were their family members, and which adult figures shaped their world view? Next, we should examine their educational background and professional history. What steps led them to be in the White House or White House adjacent? What do they stand for, and how do their attitudes toward domestic and international politics differ?\n\nFinally, how do they present themselves? Do both have charisma? Do they both portray themselves as earnest, altruistic, hardworking public servants? Or is comparing President Barack Obama and Vice-President Kamala Harris like comparing apples to oranges? Is the public perception of the performative nature of Vice President Kamala Harris's &#x27;blackness&#x27; merely a reflection of our own biases and prejudices? I&#x27;m not sure we can ever be certain, but the facts remain as they are. It is what it is. \n\n**Family Background and Upbringing**\n\nBarack Obama was born to a Kenyan father and an American mother. He was largely raised by his maternal grandparents in Hawaii, with intermittent periods spent with his mother in Indonesia. His father's absence in his life was a significant influence, shaping his worldview and inspiring his memoir, "Dreams from My Father." \n\nKamala Harris, on the other hand, is the daughter of immigrants, a Jamaican father and an Indian mother. She was raised in Oakland, California, in a household steeped in civil rights activism. Her mother, a breast cancer researcher, was a significant influence, instilling in Harris a strong sense of purpose and a commitment to public service.\n\n**Education and Professional History**\n\nObama studied political science at Columbia University and later graduated from Harvard Law School. He worked as a community organizer in Chicago before serving in the Illinois State Senate and the U.S. Senate. His path to the White House was marked by his historic keynote address at the 2004 Democratic National Convention, which catapulted him into the national spotlight. \n\nHarris studied political science and economics at Howard University, a historically black university, and earned her law degree from the University of California, Hastings. She served as the District Attorney of San Francisco and the Attorney General of California before being elected to the U.S. Senate. Her prosecutorial style and advocacy for criminal justice reform were key aspects of her political identity. \n\n**Political Stances and Public Image**\n\nBoth Obama and Harris have championed progressive policies, including healthcare reform, climate change, and civil rights. However, their political stances have been shaped by their unique experiences and the roles they've held. Obama's presidency was marked by efforts to stimulate economic
```

recovery following the Great Recession and to improve access to healthcare through the Affordable Care Act. Harris, as a senator and now vice president, has focused on criminal justice reform, women's rights, and income inequality.

In terms of public image, both are seen as charismatic and dedicated public servants. However, their charisma manifests differently. Obama's charisma is often associated with his eloquence and ability to inspire, while Harris's is linked to her assertiveness and dynamic presence.

Conclusion

Comparing Obama and Harris is indeed like comparing apples to oranges. Each has a unique background, career trajectory, and public image. The perception of Harris's blackness, as performative could be influenced by societal biases, including sexism and colorism. It's also possible that the differences in their upbringing and cultural experiences contribute to these perceptions. Ultimately, understanding these nuances can help us challenge our biases and appreciate the multifaceted identities of these public figures.

One of the captivating aspects of Barack Obama's presidency was the sense of representation he brought to the Black community. His journey, coupled with the visible presence of his wife and children, seemed to align with a narrative of Black achievement through intelligence, hard work, and dedication. However, when examining Kamala Harris's displays of Blackness, some may perceive it as performative, raising questions about the underlying factors contributing to this sentiment.

The comparison between Obama and Harris brings forth a complex interplay of factors, potentially influenced by sexism and colorism within the Black community. Has Harris faced a different reception due to biases ingrained in societal structures, where achievements by men may be prioritized over those by women? To delve into these questions, it is crucial to juxtapose the histories of these two prominent figures.

Family Background and

Upbringing:**\n\nBarack Obama's upbringing was marked by the absence of his Kenyan father, shaping his worldview and inspiring his memoir, "Dreams from My Father." Kamala Harris, the daughter of Jamaican and Indian immigrants, grew up in Oakland, California, with a mother deeply involved in civil rights activism. Both backgrounds provide unique lenses through which they view the world.\n\n**Education and Professional History:**\n\nObama's journey from Columbia University to Harvard Law School, followed by community organizing and political roles, culminated in his historic presidency. Harris, a Howard University graduate, pursued a path through law, serving as a prosecutor before ascending to the U.S. Senate. The differences in their professional trajectories contribute to their distinct political identities.\n\n**Political Stances and Public Image:**\n\nWhile both Obama and Harris champion progressive policies, their focuses diverge. Obama's presidency centered on economic recovery and healthcare reform, whereas Harris, as a senator and vice president, emphasizes criminal justice reform and women's rights. Their public images also differ, with Obama's eloquence contrasting Harris's assertiveness and dynamic presence.\n\n**The Perception of Blackness; and Public Reception:**\n\nThe question of performative blackness; surrounding Harris may stem from societal biases. Sexism and colorism could play roles in shaping public perception, raising the need for a nuanced understanding of the biases influencing these judgments. Harris's identity and achievements may be viewed through a different lens compared to Obama's, necessitating an examination of our own biases.\n\nIn conclusion, comparing Obama and Harris is akin to juxtaposing apples and oranges. Their unique backgrounds, career paths, and public images contribute to distinct perceptions. The feeling of Harris's blackness; being questioned could be a reflection of societal biases, urging us to challenge preconceptions and appreciate the multifaceted identities of these influential figures.\n\n*Sources:* \n1. roaring above me..

Running for cover, I slipped into the side door of a local university, completely disoriented..

I was in some type of research lab when a man in a white lab coat looked at me puzzled.

I'm sorry, I was trying to hide from the rain.

Ahh, stuck in the rain, he said. That is some bad luck. Do you have a lot of bad luck?

There was something about the way he asked that made me spill my guts

I spoke of my daughter, my wife, my job, my life as the universe's doormat and how no matter what, I would never give up..

I Spilled My Guts To The Mysterious PhD..

Although he politely listened, I expected to be kicked out of his lab..

He said, There was a long pause, as if he debated whether to speak his mind..

Thank god he decided yes..

I nodded yes and Dr. Summers continued..

Leading Neuroscientist Reveals The Surprising Secret To Attracting Money (and Luck changes for people who never give up like you.

Yes, I think you might be the one.

Friend, my name is Dr. Summers. I have a young daughter like you. I'm a neuroscientist and I no longer believe in coincidences. You're going to be skeptical at first of what I tell you now but you must bear with me. Do you understand?

It's not what you think)..

Last year I was recruited into a privately funded think tank of leading neuroscientists and psychologists..

The program was initiated to develop brain waves that synchronize with money and wealth, based on new research very few have seen..

Shortly after its inception, we developed the project using brain wave technology that took about 7 minutes a day. A small group of associates found the technology could be used to attract money, often in large sums. These scientists began using the technology to start doing the things they wanted to do.

The investors insisted on secrecy. No one could know what we'd found. They demanded this technology only be made available to the upper echelon of politicians and government officials.

To me, this was a crime against humanity. But I am prohibited from sharing this technology publicly. You are not. And I didn't know how I would wage my war until the universe chose to send you to my lab today.

I Was Strictly Prohibited From Sharing This Technology...

I couldn't believe this science quack..

I was about to walk away when I pictured my daughter's eyes looking back at me..

I imagined a life where I wasn't always short on money, where I didn't have to hide my ATM receipts, where I wasn't always worried about overdue bills or who I owed money to, a life where I could actually provide wealth and security for my family..

So I stayed..

I'm going to show you a world most people never see, the world of your mind.

Your brain produces 4 main waves. We measure these 4 waves on an EEG machine.

But for our purposes, only 2 of these waves matter: Beta and Theta.

The Beta Wave is associated with daily life. Being busy. Stress. Bad luck with your health. In the lab, we called Beta the Slave Wave.

So when you hear Beta, just think POOR.

Beta: The Slave Wave

Now the Theta Wave is the opposite, it's the gateway to money..

Theta is the dominant wave in creativity, intuitive insights, healing your body, accelerated learning and feelings of bliss..

NASA's psychology study found Theta increased memory dramatically. A team of PhD's in Japan found the famous flow state is linked to Theta.

And a top Russian researcher found Theta is linked to feelings of bliss.

Thomas Edison invented a contraption that activated Theta. He used this device to solve his hardest problems, and curiously, this was one of the only successful inventions Edison never sold publicly.

In the lab, we called Theta the Billionaire Brain Wave.

So when you hear Theta, just think MONEY.

Theta: The Billionaire Brain Wave

Since you need more

Theta, you should know the power source of Theta is a tiny walnut-sized region in your brain called the hippocampus. The bigger your hippocampus, the more Theta you get. So what you really need is a big, thick hippocampus. But here's what the investors forced into silence: Top Neuroscientist: This Is The Real Reason The Law of Attraction And Other Manifestation Methods CANNOT Work! Numerous studies have found people who did not grow up wealthy had a shrunken hippocampus which lowers their Theta. We kept trying to disprove this fact because it's so unfair to people who didn't grow up rich but we failed. When wealthy people talk about keeping it in the family, they're not just talking about cash money. The wealth begins inside their brain and then they pass it down the lineage neurologically. Hundreds Of MRI Brain Scans Reveal An Alarming Finding. My parents didn't have an 8 or 9-figure net worth. Neither did yours. That means we both likely produce less Billionaire Brain Wave and more Slave Wave. Any neuroscientist could hook your brain up to an EEG right now and see your brain waves: The Slave Wave hijacks your brain waves, blocking more activation of the Billionaire Brain Wave, stacking the manifestation deck against you. The real reason why manifestation didn't work for you is not your fault. In 30 years, this discovery will rank up there with the discovery of gravity or electricity. And your shrunken hippocampus is evidence of just how neuroplastic the hippocampus is. That means your mind's money-making machinery can transform quickly with this technology. You fix this and money can start appearing everywhere in your life. A team of neuroscientists at Columbia University just used MRI to publish their first study demonstrating this shrunken hippocampus effect. They're starting to pull on the thread they sealed, stashed and stored but they've got years to find what our massively funded team found. The KEY Is To Activate The Power Source That Generates The Billionaire Brain Wave. In search of the solution, we failed at first. We were looking in the wrong place. Then new research from Kyoto University had shown sound waves quickly change our gene expression and how the brain functions. So we shifted our focus. We began looking at the sound waves most revered by ancient cultures, the ones your brain hasn't been exposed to. Shamans use sound waves. So did the ancient Greeks and Native American ceremonies. Their findings compelled Da Vinci and Tesla to immerse themselves in these vibrations too. The ancients of Tuva, whose wealth left even the most studied scholars scratching their head, even developed a bizarre sound wave called Throat Singing allowing them to prosper in the harshest conditions known to man while every one of their neighbors perished. And it makes sense. We all know the power of vibrations, which is what shapes everything in the universe. The First Theta-Based Sound Frequency, Based On Breakthrough Research Based on this, we developed the first Theta-based sound frequency to target the hippocampus. We then developed 3 additional sound waves which appear even more potent but they remain unfinished. They are my focus today. But this first sound wave is finished and extremely precise. It has 9 decimal points and hits 3 frequencies simultaneously. It begins activating your Billionaire Brain Wave from the first time you try it. This is what allowed those early scientists to attract money. You are now the last hope to ensure this doesn't vanish forever. In your hand I am placing an iPod. The sound wave is already loaded onto it. Activating the Billionaire Brain Wave is not complicated. Listen to this for 7 minutes a day and the changes can start happening. Listen to this for 7 minutes a day and the changes can start happening. I left totally

CO-WORKER: A coworker, struggling with his sales, won his sales contest, sending him and his family on a vacation to Hawaii where they randomly met Jason Momoa! It's like no string of bad luck, no generational curse, no bad karma could withstand somebody who'd finally activated the Billionaire Brain Wave that's waiting to be activated inside of you right now. It\u2019s really that easy.\n-Michael, Former Policeman Turned Home Business Owner In Stuart, Florida\n\u201cSold more art than I can imagine, living in my\ndream penthouse..\u201d\n\u201cSince discovering the Billionaire Brain Wave, I manifested my\ndream life! It\u2019ll stay with you and your family\nforever.\nWhat would it be worth if you

could attract money, if incredible opportunities kept coming to you, if you and your family were one of the lucky ones, blessed with money, wealth, and health? Numerous people have told me I should charge \$10,000 for these tracks! But I'm not in this for the money. And I want to honor the incredible risk that Dr. Summers took securing this for normal people like me and you. I'm doing this to get it out to as many people as possible before this website is no longer online. And charging what the experts tell me to charge would disqualify the people I want to help. So you won't be investing \$10,000 today to get these tracks. You won't invest \$5,000 or even \$1,000. You won't even pay \$100. In fact, I'm not even interested in making a profit on this. All I ask is that you cover the expenses it takes to create the tracks and run this website. So you'll get instant access to everything for pitching in just \$49. But that's not all. Because you've made it this far, it's obvious you're serious about having the money and freedom to enjoy the life of your dreams starting today. Which is why I want to let you have everything right now at a special price available only through this video on this page today. So I'd like to offer you the Billionaire Brain Wave for just \$39. That's another \$10 off. And all I ask in return is you consider sending me a success story as you begin to experience the life-changing transformation that so many of our customers are now experiencing. \$10,000 \$5,000 \$1,000

Your 1st FREE Gift: The Warren Buffett Pyramid: How To Invest Your New Fortune Into An Endless Money Supply

More than 70% of lottery winners go broke in less than 2 years. Because no one ever taught them how to turn their new fortune into an endless money supply that lasts for generations. Since I became wealthy, I've connected with top investors from all walks of life. In The Warren Buffett Triangle, I've boiled down their complex formulas into 3 simple steps you must follow to turn your new fortune into an endless money supply with the Billionaire Brain Wave.

Your 2nd FREE Gift: 7 Lazy Millionaire Habits

After I got wealthy, I got to spend a lot of time in private with self-made millionaires. And I noticed there were 2 types: The Hard-Working Rich and The Lazy Rich. It was obvious the Lazy Rich were much happier but how? So I studied and interviewed them, getting them to share their most intimate and personal wealth habits that they've never even told their kids. I compiled all of their confessions into

Your 3rd FREE Gift: Quick Cash Manifestation Sometimes we just need money NOW. I've been there. So this bonus sound wave is designed to attract a quick lump sum of cash in your life. So we were all stuck at home. I listened to this 7-minute soundtrack twice a day for 3 days and on the 3rd day, I sold my most expensive item on Etsy for a \$980 profit. Another \$180 sale came in an hour after. My family is so thankful for you." together to write the first few lines of code that would create the life function and

worked together almost hand in hand on three campaigns and through it all they&#x27;d
had many interesting discussions about philosophy and software development and Python
and math and what was the meaning of life, what was the meaning of the universe.
They&#x27;d discussed it many times and then one day on a Zoom call after everyone had

they also offer a service called Unscreen that can remove video backgrounds. You can
record a video and then use Unscreen to remove the background. Visit their website:
[Remove.bg](https://www.remove.bg/)\n\n2. **Video Conferencing Software:**\n    -
Platforms like Zoom, Microsoft Teams, and Google Meet offer virtual backgrounds. You
can record your video during a meeting with a virtual background and then remove it
during the editing process. Note that the effectiveness of background removal may vary
depending on the software.\n\n3. **Green Screen Technique:**\n    - You can record
yourself in front of a green screen and then use video editing software to replace the
green background with whatever background you desire. Many video editing tools, such
as Adobe Premiere Pro, Final Cut Pro, and even free options like DaVinci Resolve,
support this feature.\n\n4. **AI-Powered Background Removal Tools:**\n    - Some AI-
powered tools, like Veed or Kapwing, allow you to upload a video and automatically
remove the background. These tools use artificial intelligence to detect and remove
the background.\n\n5. **Video Editing Software:**\n    - Use professional video
editing software like Adobe Premiere Pro, Final Cut Pro, or DaVinci Resolve to
manually remove the background. This may involve using masking and keying
techniques.\n\nRemember that the success of background removal depends on factors such
as lighting, the quality of the recording, and the consistency of the background.

that typically involves a central pot that players contribute to, and the goal is to
reach a total of 31 points or as close to it as possible. Here are the basic
rules:\n\n**Number of Players:**\n- 3 or more players.\n\n**Setup:**\n1. Use a
standard 52-card deck.\n2. Each player is dealt three cards.\n\n**Objective:**\n- The
goal is to have a hand value as close to 31 points as possible.\n\n**Card Values:**\n-
Face cards (King, Queen, Jack) are worth 10 points.\n- Number cards are worth their
face value.\n- Aces are worth 11 points.\n\n**Gameplay:**\n1. Players take turns in a
clockwise direction.\n2. On your turn, you draw a card from the deck or the discard
pile.\n3. After drawing, you discard a card, placing it face-up in the discard
pile.\n\n**Scoring:**\n- The hand value is calculated by adding up the points of the
three cards.\n- A perfect hand is 31 points (an Ace and two 10-point
cards).\n\n**Knocking:**\n- If a player believes their hand is strong enough, they can
"knock" during their turn instead of drawing. The round then proceeds to the
next player.\n\n**End of Round:**\n- The round ends when a player knocks, or the draw
pile is empty.\n- All players reveal their hands, and the player with the closest or
equal to 31 points wins the round.\n\n**Scoring Points:**\n- The player with the best
hand gets one point.\n- If a player has a "Blitz" (31 points) immediately
upon being dealt their hand, they get two points.\n- If a player knocks and has the
lowest hand value, they get one point.\n- If a player has three-of-a-kind, they get
five points.\n\n**Winning:**\n- The game continues for a set number of rounds or until
players decide to stop.\n- The player with the most points at the end is the
winner.\n\nKeep in mind that house rules may vary, so it's a good idea to
establish specific rules before starting the game."]}, "status":
