I\u2019m interested in how i might go about setting up your old vb.net code to \u201cre-join\u201d a room on Classic (i.e. if Paltalk boots you and disconnects the audio server you can no longer monitor the list for who is on the mic. This basically makes an unattended mic timer glitchy af despite the best of code.) The idea is if one is running the timer unattended or simply letting it actively monitor the room\u2019s mic usage on its own, it would be better if it could detect a paltalk disconnect and reconnect to the room and resume timing\n\nAny thoughts or help in the right direction would be appreciated. I am savvy enough to use an API spy but so far I have not been able to figure out how to get return codes on Menu options. I\u2019m not sure how you and Autopilot, String and Departure got the return codes for the Pal Commands in

PalInfo module and I can\u2019t replicate the codes that are coded in the module. (not sure if this is due to some change in the Paltalk program itself like when they changed the Read and Send Indexes. Or when they changed how the NicList is referenced (I\u2019d like to revisit the NicList reference issue with you later and see if you have found a way around it) \n\nI am able to fairly accurately, detect when I need to refresh the room if no mic activity yet the queue continues to change or just by receiving a command from an admin. My issue is how best to open up a room when the title is known. I suppose as a last resort I could use SendKeys to open menus and select it but it seems the proper way would be getting the timer re-enter the room it is monitoring without relying on it being on the Favorites list would be preferred. Any ideas?\n\nNovember 28, 2021 at 10:27 am \u301012\u2020#104037\u3011 \n\n\u30109\u2020Admin\u3011\n\nAdministrator\n\nWill you the admin of the room, or just a regular user?\n\nNovember 29, 2021 at 3:53 pm \u301013\u2020#104181\u3011 \n\n\u301011\u2020cyberpunk\u3011\n\nMember\n\nShort answer is yes, because I would like it to dot those that refuse to get off the mic when certain triggers are tripped. But I think the Timer app could even be ran without Admin rights just with less features available. \n\nBeing able to re-enter the room would be a useful way to fix one of my major obstacles in releasing a version because it is just useless to me otherwise since ethernet connection on the machine I run Paltalk on is not an option for me. My wifi often is disrupted enough to bump me out of the room and back in without disconnecting from Paltalk though it kills the audio channel connection. \n\nIf I understood how to traverse the windows better I might be able to figure out how to access the syslist32 lists within the Paltalk Room Browser. Any help in how to open it and select a category would be greatly appreciated.\n\nI suspect I know why you are asking about admin rights and it has to do with a change Paltalk made in their later version, am I correct?\n\nNovember 29, 2021 at 4:16 pm \u301014\u2020#104182\u3011 \n\n\u301011\u2020cyberpunk\u3011\n\nMember\n\nAside from the issue I began with, I have most of the pieces needed working I am just trying to allow for as much custom configuration so that users can set the default times and behaviors and enable or disable features. I\u2019m also still trying to decide how I want it to look overall. But if I get to the point of releasing the project can I host it on your site? or will it just need to be shared word of mouth?\n\nFebruary 14, 2023 at 6:19 pm \u301015\u2020#199102\u3011 \n\n\u30106\u2020attockonian\u3011\n\nMember\n\nPosting to an older thread to keep it alive \u2013\n\nAdmin, for both. Classic or newer. What\u2019s the way about coding a bot (say in python) that can do a simple task. \n\n\u301011\u2020Admin\u3011\n\nAdministrator\n\nYeps is 2022 which anyone that wants to work with the code you can get here \u301013\u2020https://visualstudio.microsoft.com/vs/\u2020visualstudio.microsoft.com\u3011 the community version is free \n\nFebruary 16, 2023 at 10:44 pm \u301014\u2020#199874\u3011 \n\n\u30109\u2020chicagodavid52\u3011\n\nMember\n\nYeah,

you should also be able to take your old vb projects and change only the parts that read and write to the room. I took my old trivia bot project and did just that. I have no idea what one would do if your project is in C#. But there are converters that convert vb to C#. \n\nAnything else that manipulates the room, such as admin commands, would be much harder to program. Paltalk doesn\u2019t expose any nickname content in the room list. \n\nFebruary 17, 2023 at 11:17 pm \u301015\u2020#200279\u3011 \n\n\u301011\u2020Admin\u3011\n\nAdministrator\n\nWait so is your Roomread program on c# or vb, sorry I am confused and if you ever had time to give tips on how you was able to connect to the paltalk room be very helpful \n\nFebruary 21, 2023 at 12:27 pm \u301016\u2020#201268\u3011 \n\n\u301017\u2020vipal\u3011\n\nMember\n\nHi Bro Admin, \nI really need a source code for example \nDouble click to send text to Room with picking nickname for New Paltalk \nIt s for a catholic room. If it s not a hardwork, can you please help me to post it here. \nThe Source Code that i can edit with VB6, or Visual Studio (Any Version) \nThank You Bro. \n\nFebruary 21, 2023 at 4:09 pm \u301018\u2020#201332\u3011 \n\n\u301011\u2020Admin\u3011\n\nAdministrator\n\nWell the new codes that people are currently working on are on C# so we need to learn that now now the programmers haven\u2019t release the full codes because they probably want to fine tune the code, like this one by \u30109\u2020 @chicagodavid52\u3011 and this one \u301019\u2020https://www. imfiles. com/c-paltalk-desktop-code/\u3011 by \u301020\u2020 @NVYE\u3011 we just need to be patient til they ready, I am learning C# right now in the mean time \n\nMarch 21, 2023 at 11:21 pm \u301021\u2020#208153\u3011 \n\n\u301022\u2020trumhamdoa\u3011\n\nMember\n\nmic button click\n\nMarch 28, 2023 at 9:56 pm \u301023\u2020#208778\u3011 \n\n\u301024\u2020VN\u3011\n\nMember\n\nHello everyone \nPlease check this out and let me know, we need feedback. added support into NG for CG bots \nVer 1.29.0.89227 GA \n\n\u301025\u2020https://downloads. paltalk. com/download/beta/PaltalkSetup. exe\u2020downloads. paltalk. com\u3011\n\nPs/ you can comment here or email me paltalk. mobile99@gmail. com\n\nMarch 30, 2023 at 7:48 am \u301026\u2020#208952\u3011 \n\n\u301022\u2020trumhamdoa\u3011\n\nMember\n\nautomatically login nick name \nautomatically find the room and enter the room \nself mute room \nmanually skip start webcam \nIf the room is out, then re-enter it automatically \nif paltalk is off \u2013 auto open paltalk and repeat\n\nMarch 30, 2023 at 4:04 pm \u301027\u2020#209026\u3011 \n\n\u30109\u2020chicagodavid52\u3011\n\nMember\n\nTrumhamdoa, I think I would find your room entry program useful. For my room, where my bot is always on mic, it would be useful to have a toggle for the mic so that when the room is created and entered, the bot then goes on mic. \nDoes it work in the case where Paltalk goes down for, say, 30 minutes? Will it try to enter the room for 30 minutes until Paltalk comes back up?\n\nMarch 30, 2023 at 9:53 pm \u301028\u2020#209084\u3011 \n\n\u301024\u2020VN\u3011\n\nMember\n\nI think it\u2019s a good idea to upgrade this program to a more professional version. have many choices. login nick automatically according to paltalk\u2019s self-save password mode. right at the program window you should split into 2 parts. on the left is a list of nicks, and on the right is a list of rooms. in the list box of nicknames, when you click on nick A , then the rooms to enter of nick a will appear. and when you click on nick B, a list of nick B\u2019s rooms will appear\n\nadd 2 buttons at the nick list frame. 1 disable button, 1 enable button, alias disable function doesn\u2019t let it work. and add 2 buttons at room list frame + and \u2013 . when the user enters the room they click the + button it will add itself. and create a hand input text frame, when the user enters the path of

the room they need to save, it will add itself to the room list. \u201cAuto show room name\u201d\n\nMarch 31, 2023 at 6:40 pm \u301029\u2020#209349\u3011 \n\n\u301024\u2020VN\u3011\n\nMember\n\nthe answer from the group \n>1. I need some way of sending text into the room. I can place text into \u201cui::controls::EmojiTextEdit\u201d, but I don\u2019t see >any way of sending that text into the room other than to send a newline character to the entire Paltalk application, >which isn\u2019t ideal. Perhaps the \u201cInvoke\u201d of that automation element could send the line into the room.\n\nThis can be done using Win API on our latest build 1.29.0.89332. \n1. One program reads and writes to the Paltalk room, and the other program is the Trivia bot that runs the Trivia. \n<trivia bot> <====> <readroom bot> <====> <Paltalk room> \nI run a version of these bots in my own Trivia room (Oracle Trivia runs the big brother) and ReadRoom especially seems pretty stable. The only downside is the room selection in ReadRoom seems a little flaky and you might need to bring your room to the forefront to get it to appear in the room list combo box. \nAlong with this being 2 programs there are 2 pieces of documentation too. \nI include a few thousand trivia questions but really you should add your own. \n-David\n\n * Author\n\nPosts\n\n### Related\n\n * \u30108\u2020Sample code for programming Paltalk for Desktop\u3011\n *

One program reads and writes to the Paltalk room, and the other program is the Trivia bot that runs the Trivia. \n<trivia bot> <====> <readroom bot> <====> <Paltalk room> \nI run a version of these bots in my own Trivia room (Oracle Trivia runs the big brother) and ReadRoom especially seems pretty stable. The only downside is the room selection in ReadRoom seems a little flaky and you might need to bring your room to the forefront to get it to appear in the room list combo box. \nAlong with this being 2 programs there are 2 pieces of documentation too. \nI include a few thousand trivia questions but really you should add your own. \n-David\n\n * Author\n\nPosts\n\n### Related\n\n * \u30108\u2020Sample code for programming Paltalk for Desktop\u3011\n * \u30109\u2020Paltalk Trivia Bot 11.7\u3011\n * \u301010\u2020Trivia scorer for Paltalk for Desktop\u3011\n * \u301011\u2020Trivia Scorer v.2.3 for Paltalk Desktop\u3011\n\nViewing 1 post (of 1 total)\n\n * You must be logged in to reply to this topic.\n\nLog In\n\nUsername: \nPassword: \nKeep me signed in\n\nLog In\n\n * \u30101\u2020Home\u3011\n\n * \u301012\u2020Links\u3011\n\n * \u301013\u2020Privacy policy\u3011\n\n * \u30101\u2020Home\u3011\n\n * \u301012\u2020Links\u3011\n\n * \u301013\u2020Privacy policy\u3011\nVisible: 0% - 100%", "pub_date": null, "extra": {"cited_message_idx": 19, "search_result_idx": null, "evidence_text": "source"}}}, {"start_ix": 1269, "end_ix": 1280, "citation_format_type": "tether_og", "metadata": {"type": "webpage", "title": "TriviaMaster v3.7 - Paltalk", "url": "https://www.imfiles.com/triviamaster/", "text": "\nURL: https://www.imfiles.com/triviamaster/\n\n\u30100\u2020 Skip to content \u3011 \n\n[Image 0]\n\n * \u30101\u2020Home\u3011\n\n * \u30102\u2020Support\u3011\n\n * \u30103\u2020Login\u3011\n\n * \u30104\u2020New Topic\u3011\n\nSearch for...\n\n[Image 1]\n\nNavigation Menu\n\nNavigation Menu \n\n * \u30101\u2020Home\u3011\n\n * \u30102\u2020Support\u3011\n\n * \u30103\u2020Login\u3011\n\n# TriviaMaster v3.7 \n\n * April 10, 2014 November 17, 2022\n\n * [Image 2: Admin]\u00a0\u30105\u2020Admin\u3011\n\n *

One program reads and writes to the Paltalk room, and the other program is the Trivia bot that runs the Trivia. \n<trivia bot> <====> <readroom bot> <====> <Paltalk room> \nI run a version of these bots in my own Trivia room (Oracle Trivia runs the big brother) and ReadRoom especially seems pretty

stable. The only downside is the room selection in ReadRoom seems a little flaky and you might need to bring your room to the forefront to get it to appear in the room list combo box. \nAlong with this being 2 programs there are 2 pieces of documentation too. \nI include a few thousand trivia questions but really you should add your own. \n-David\n\n * Author\n\nPosts\n\n### Related\n\n * \u30108\u2020Sample code for programming Paltalk for Desktop\u3011\n * \u30109\u2020Paltalk Trivia Bot 11.7\u3011\n * \u301010\u2020Trivia scorer for Paltalk for Desktop\u3011\n * \u301011\u2020Trivia Scorer v.2.3 for Paltalk Desktop\u3011\n\nViewing 1 post (of 1 total)\n\n * You must be logged in to reply to this topic.\n\nLog In\n\nUsername: \n\nPassword: \n\nKeep me signed in\n\nLog In\n\n * \u30101\u2020Home\u3011\n\n * \u301012\u2020Links\u3011\n\n * \u301013\u2020Privacy policy\u3011\n\n * \u30101\u2020Home\u3011\n\n * \u301012\u2020Links\u3011\n\n * \u301013\u2020Privacy policy\u3011\nVisible: 0% -

\n\n\u30108\u2020Admin\u2020www.imfiles.com\u3011\n\nAdministrator\n\nAigh I made a quick change to mt lagger scrambler to make it the trivia bot for single player, this code is completely new, compare to my other tivia bot so it should be a lot more stable\n\nokie to use it do this \nFirst click on editor to make your question and answer file.\n\nThen go to the main screen and click on load button to load the file to the program.\n\nthen click on start \n\nThas it lol.\n\nNow for the cool stuff, you have a choice of sending the top players when the game is over, instead of the winner only, Just select on yes on the frame Send Top Players.\n\nCheck this other cool thing you can also have a send messge if someone is on a streak, like if they answer questions on a role, just select yes under the streak frame.\n\nThe bot has two basic command they are\n\nhint! this will send the hint to the room\n\nrepeat! This will repeat the question\n\nAlso there Timer option, on the timer frame, u can decide how many seconds a question can remain unanswer, just click on the box right next to where it says timer, and to the left of that u deside the amount of time.\n\nRight next to this, there is the BQ box which is the amount of time between each question, like how long will the program take to send the next question when the first one is answer \n\nThe other stuff is umm, like when you want to edit the look of the messeges, like

winner, correct answer ect.. choose one to edit hightlight the text then choose the font desing. \n\nAigh thas about it \n\nYou can get it here\n\nThis is how it looks\n\nFebruary 20, 2006 at 7:12 pm \u30105\u2020#179604\u2020www. imfiles. com\u3011 \n\n\u30106\u2020The Unforgiven\u2020www. imfiles. com\u3011\n\nMember\n\nworking perfect hehehe and its easy to load questions too \n\ngood job man , its simple n kool\n\nMarch 27, 2006 at 6:13 pm \u30109\u2020#179603\u2020www. imfiles. com\u3011 \n\n\u30108\u2020Admin\u2020www. imfiles. com\u3011\n\nAdministrator\n\nHere is an updated version to work with paltalk 8.3 build 122\n\nI havent make this final cause I plan on putting some new stuff but here it is \n\nMay 28, 2006 at 6:28 am \u301010\u2020#179602\u2020www. imfiles. com\u3011 \n\n\u301011\u2020method\u2020www. imfiles. com\u3011\n\nMember\n\nloco could u share this code . One program reads and writes to the Paltalk room, and the other program is the Trivia bot that runs the Trivia. \n<trivia bot> <====> <readroom bot> <====> <Paltalk room> \nI run a version of these bots in my own Trivia room (Oracle Trivia runs the big brother) and ReadRoom especially seems pretty stable. The only downside is the room selection in ReadRoom seems a little flaky and you might need to bring your room to the forefront to get it to appear in the room list combo box. \nAlong with this being 2 programs there are 2 pieces of documentation too. \nI include a few thousand trivia questions but really you should add your own. \n-David\n\n * Author\n\nPosts\n\n### Related\n\n * 〖8‐Sample code for programming Paltalk for Desktop〗\n\n * 〖9‐Paltalk Trivia Bot 11.7〗\n\n * 〖10‐Trivia scorer for

One program reads and writes to the Paltalk room, and the other program is the Trivia bot that runs the Trivia. \n<trivia bot> <====> <readroom bot> <====> <Paltalk room> \nI run a version of these bots in my own Trivia room (Oracle Trivia runs the big brother) and ReadRoom especially seems pretty stable. The only downside is the room selection in ReadRoom seems a little flaky and you might need to bring your room to the forefront to get it to appear in the room list combo box. \nAlong with this being 2 programs there are 2 pieces of documentation too. \nI include a few thousand trivia questions but really you should add your own. \n-David\n\n * Author\n\nPosts\n\n### Related\n\n * \u30108\u2020Sample code for programming Paltalk for Desktop\u3011\n * \u30109\u2020Paltalk Trivia Bot 11.7\u3011\n * \u301010\u2020Trivia scorer for Paltalk for Desktop\u3011\n * \u301011\u2020Trivia Scorer v.2.3 for Paltalk Desktop\u3011\n\nViewing 1 post (of 1 total)\n\n * You must be logged in to reply to this topic.\n\nLog In\n\nUsername: \nPassword: \nKeep me signed in\n\nLog In\n\n * \u30101\u2020Home\u3011\n\n * \u301012\u2020Links\u3011\n\n * \u301013\u2020Privacy policy\u3011\n\n * \u30101\u2020Home\u3011\n\n * \u301012\u2020Links\u3011\n\n * \u301013\u2020Privacy policy\u3011\nVisible: 0% – 100%"}, {"matched_text": "\u301020\u2020source\u3011", "start_idx": 1302, "end_idx": 1313, "alt": null, "type": "webpage_extended", "title": "Paltalk Trivia Bot Single Player Version – imFiles", "url": "https://imfiles.github.io/topic/paltalk-trivia-bot-single-player-version/", "pub_date": null, "snippet": "\nURL: https://imfiles.github.io/topic/paltalk-trivia-bot-single-player-version/\n\n\u30100\u2020 Skip to content \u3011 \n\n[Image 0]\n\n * \u30101\u2020Home\u2020www.imfiles.com\u3011\n\n * \u30102\u2020Support\u2020www.imfiles.com\u3011\n\n * \u30103\u2020Login\u2020www.imfiles.com\u3011\n\n * \u30104\u2020New Topic\u2020www.imfiles.com\u3011\n\nSearch for...\n\n[Image 1]\n\nNavigation Menu\n\nNavigation Menu \n\n * \u30101\u2020Home\u2020www.imfiles.com\u3011\n\n * \u30102\u2020Support\u2020www.imfiles.com\u3011\n\n * \u30103\u2020Login\u2020www.imfiles.com\u3011\n\n# Paltalk Trivia Bot Single Player Version\n\n * This topic has 3 replies, 3 voices, and was last updated \u30105\u202017 years ago\u2020www.imfiles.com\u3011 by \u30106\u2020The Unforgiven\u2020www.imfiles.com\u3011. \n\nViewing 4 posts – 1 through 4 (of 4 total)\n\n * Author\n\nPosts\n\n * \n\nFebruary 14, 2006 at 3:54 am \u30107\u2020#179601\u2020www.imfiles.com\u3011 \n\n\u30108\u2020Admin\u2020www.imfiles.com\u3011\n\nAdministrator\n\nAigh I made a quick change to mt lagger scrambler to make it the trivia bot for single player, this code is completely new, compare to my other tivia bot so it should be a lot more stable\n\nokie to use it do this \nFirst click on editor to make your question and

answer file.\n\nThen go to the main screen and click on load button to load the file to the program.\n\nthen click on start \n\nThas it lol.\n\nNow for the cool stuff, you have a choice of sending the top players when the game is over, instead of the winner only, Just select on yes on the frame Send Top Players.\n\nCheck this other cool thing you can also have a send messge if someone is on a streak, like if they answer questions on a role, just select yes under the streak frame.\n\nThe bot has two basic command they are\n\nhint! this will send the hint to the room\n\nrepeat! This will repeat the question\n\nAlso there Timer option, on the timer frame, u can decide how many seconds a question can remain unanswer, just click on the box right next to where it says timer, and to the left of that u deside the amount of time.\n\nRight next to this, there is the BQ box which is the amount of time between each question, like how long will the program take to send the next question when the first one is answer \n\nThe other stuff is umm, like when you want to edit the look of the messeges, like winner, correct answer ect.. choose one to edit hightlight the text then choose the font desing.\n\nAigh thas about it \n\nYou can get it here\n\nThis is how it looks\n\nFebruary 20, 2006 at 7:12 pm \u30105\u2020#179604\u2020www. imfiles. com\u3011 \n\n\u30106\u2020The Unforgiven\u2020www. imfiles. com\u3011\n\nMember\n\nworking perfect hehehe and its easy to load questions too \n\ngood job man , its simple n kool\n\nMarch 27, 2006 at 6:13 pm \u30109\u2020#179603\u2020www. imfiles. com\u3011 \n\n\u30108\u2020Admin\u2020www. imfiles. com\u3011\n\nAdministrator\n\nHere is an updated version to work with paltalk 8.3 build 122\n\nI havent make this final cause I plan on putting some new stuff but here it is \n\nMay 28, 2006 at 6:28 am \u301010\u2020#179602\u2020www. imfiles. com\u3011 \n\n\u301011\u2020method\u2020www. imfiles. com\u3011\n\nMember\n\nloco could u share this code . \u30106\u2020Paltalk\u3011\n\n[Image 3]\n\nTriviaMaster is a program you can use in Paltalk room to play trivia games. This program will send questions to the room where the rooms player will need to answer the questions. This is a real fun game for Paltalk/ You will be able to create multiple questioners, such as different categories of questions ect. This is the free version to get the full potential of this program you must upgrade to pro.\n\nOfficial Site: \u30107\u2020http://www.pickmike.com/\u2020www.pickmike.com\u3011\n\n## \u30108\u2020Download TriviaMaster v.4 for Paltalk Desktop\u3011\n\n### Related\n\n * \u30109\u2020TriviaMaster v3.7\u3011\n * \u301010\u2020KoolText v.3.0.5 for Paltalk Desktop\u3011\n * \u301011\u2020Who Wants to Be a Millionaire v1.0\u3011\n * \u301012\u2020TriviaMaster Professional 3.2\u3011\n\n## Leave a Comment \u301013\u2020Cancel reply\u3011\n\nYou must \u301014\u2020Register\u3011 or \u30103\u2020Login\u3011 to comment on TriviaMaster v.4 for Paltalk Desktop \n\n * \u30101\u2020Home\u3011\n\n * \u301015\u2020Links\u3011\n\n * \u301016\u2020Privacy policy\u3011\n\n * \u30101\u2020Home\u3011\n\n * \u301015\u2020Links\u3011\n\n * \u301016\u2020Privacy policy\u3011\nVisible: 0% - 100%"}]}, "recipient": "all", "channel": null}, "parent": "e779e7d8-a0fd-4846-8631-e76c489cc6df", "children": []}}, "moderation_results": [], "current_node": "f3e1cd50-b9d4-4254-b767-3b3900566f9b", "plugin_ids": null, "conversation_id": "167cfa25-26e1-4d1c-addb-518e17b9f03f", "conversation_template_id": null, "gizmo_id": null, "is_archived": false, "safe_urls": ["https://imfiles.github.io/topic/paltalk-trivia-bot-single-player-version/", "https://www.imfiles.com/triviamaster-paltalk-desktop/", "https://www.imfiles.com/topic/sample-code-for-programming-paltalk-for-desktop/", "https://www.imfiles.com/c-paltalk-desktop-code/", "https://www.imfiles.com/paltalk-trivia-bot/", "http://www.imfiles.com/paltalk/triviamaster/", "https://www.imfiles.com/topic/paltalk-apis/", "http://www.pickmike.com/\u2020www.pickmike.com", "https://www.python.org/", "https://www.imfiles.com/topic/paltalk-9-winapi-api-examples/", "https://www.imfiles.com/topic/davids-trivia-bot-for-paltalk-for-desktop/", "https://downloads.paltalk.com/download/beta/PaltalkSetup.exe\u2020downloads.paltalk.com", "https://www.imfiles.com/triviamaster/", "http://www.pickmike.com/main/page.aspx?skey=home\u2020www.pickmike.com", "https://beta.openai.com/signup/", "https://visualstudio.microsoft.com/vs/\u2020visualstudio.microsoft.com"], "default_model_slug": "gpt-4o", "conversation_origin": null, "voice": null, "async_status": null, "id": "167cfa25-26e1-4d1c-addb-518e17b9f03f"}, {"title": "Paltalk Trivia Bot Creation", "create_time": 1715887924.00606, "update_time": 1715887951.896239, "mapping": {"b9b24fb9-87ab-415a-b7d4-3c6a05d06d9b": {"id": "b9b24fb9-87ab-415a-b7d4-3c6a05d06d9b", "message": {"id": "b9b24fb9-87ab-415a-b7d4-3c6a05d06d9b", "author": {"role": "system", "name": null, "metadata": {}}, "create_time": null, "update_time": null, "content": {"content_type": "text", "parts": [""]}, "status": "finished_successfully","end_turn": true

Check if they provide APIs or any scripting capabilities directly within the platform.\n\n2. **Design the Trivia Bot**: Decide what kind of trivia the bot will provide. Will it cover general knowledge, specific topics, or user-suggested questions? Also, consider how the bot will deliver questions and gather answers. Will it be in a public room, or will users interact with it privately?\n\n3. **Develop the Bot**:\n   - **Programming**: If Paltalk supports bots through external scripts, you might need to use a programming language like Python or JavaScript. You'll write a script that connects to Paltalk, sends out trivia questions, and processes user responses.\n   - **API Integration**: If Paltalk has APIs, integrate them with your bot to send messages and listen for user responses.\n   - **Handling Responses**: Decide how the bot will determine the correct answer, manage scoring, and handle simultaneous responses from multiple users.\n\n4. **Test the Bot**: Before going live, thoroughly test your bot in various scenarios to ensure it works smoothly and handles errors gracefully.\n\n5. **Deploy and Monitor**: Once everything is tested, deploy your bot to the Paltalk platform. Monitor its performance and user interactions to make any necessary adjustments.\n\n6. **Follow Rules and Guidelines**: Ensure that your bot complies with Paltalk's terms of service and community guidelines. Respect user privacy and ensure the bot is secure against misuse. \n\nIf you need technical details or coding examples on how to implement any of these steps, feel free to ask!"]}, "status": "finished_successfully","end_turn": true

"update_time": null, "content": {"content_type": "text", "parts": ["In Italy, the
terms "utente" (user) and "utilizzatore" (user) of a car are often
used to refer to the individual who regularly drives or uses the vehicle, while the
"proprietario" (owner) refers to the individual or entity that legally owns
the car. Here\u2019s a more detailed explanation:\n\n1. **Proprietario (Owner)**: The
owner of the car is the person or entity whose name is on the car's registration
documents and who holds the title to the vehicle. The owner has the legal rights to
sell, transfer, or otherwise dispose of the car. They are also responsible for
ensuring that the car meets legal requirements, such as having valid insurance and
passing any necessary inspections.\n\n2. **Utente/Utilizzatore (User)**: The user of

the car is the person who regularly drives or uses the vehicle but may not necessarily be the owner. This person can be a family member, a friend, or even an employee of a company that owns the car. The user has the responsibility to operate the car safely and in accordance with the law, but they do not have ownership rights over the vehicle.\n\nIn many cases, the owner and the user may be the same person, but this is not always the case. For example, in a company setting, a car may be owned by the company (the legal owner) but used by an employee (the user). Similarly, a parent might own a car that their child regularly uses."]}, "status": "finished_successfully","end_turn": true

This is a formal registration procedure that associates a person who regularly uses the car with the vehicle's official records, even if they are not the owner. Here\u2019s how it typically works:\n\n1. **Temporary Registration**: The owner of the car can request a temporary registration for the user at the local office of the "Motorizzazione Civile" (Motor Vehicle Department). This involves submitting specific documentation and filling out forms to indicate who will be the regular user of the car. \n\n2. **Documentation**: The required documentation usually includes the identity documents of both the owner and the user, as well as information about the vehicle itself. In the case of company cars, additional documents related to the company might be required. \n\n3. **Approval**: Once the temporary registration is processed and approved, the user\u2019s information is added to the vehicle\u2019s records. This does not transfer ownership but officially recognizes the user as the primary operator of the car. \n\n4. **Purpose**: This procedure is useful for legal and insurance purposes, ensuring that there is clear documentation about who is primarily responsible for the vehicle\u2019s use. It can also be important for administrative matters, such as handling traffic violations or accidents. \n\nThe registration of a user is particularly common in scenarios where a vehicle is being used by someone other than the owner for an extended period, such as company cars, rental cars, or when a family member is the main driver of a vehicle owned by someone else. \n\nIt\u2019s important to note that while the user is formally registered, the owner retains all legal rights and responsibilities related to the

ownership of the vehicle, including paying taxes and ensuring the vehicle is insured."]}, "status": "finished_successfully","end_turn": true

The foundation is dedicated to improving the quality of life for individuals across the globe through increased access to education, healthcare, travel opportunities, and mental health resources (Backer & Weiler, 2018; Gilbert & Abdullah, 2004; Gray et al., 2019; Ross & Wu, 1995)Links to an external site.. GHIF is committed to promoting long-term happiness and well-being, free from the limitations of health conditions. This initiative operates as a community and global cooperative effort, with an emphasis on inclusivity and universal benefit. By forging strategic partnerships and implementing innovative service delivery, GHIF aims to make a significant impact by transforming lives and fostering a more connected and joyful world.\nsome direction: \nI'm researching these things/topics: I think it's a great idea! Here's a breakdown of the strengths and some suggestions for improvement:\n\n**Strengths:**\n\n* **Comprehensive Approach:**   The proposal

addresses multiple factors that contribute to well-being, going beyond just happiness. \n* **Focus on Accessibility:** By emphasizing increased access to resources, the initiative targets a core issue for many. \n* **Community and Partnership Focus:** The cooperative effort and partnership approach can leverage resources and broaden impact. \n* **Sustainability:** Promoting long-term well-being is a sustainable approach to happiness. \n\n**Suggestions for Improvement:**\n\n* **Specificity:** Consider specifying target populations within the global community to demonstrate a focused approach. \n* **Measurable Goals:** Outline specific, measurable goals to track the initiative's progress and impact (e.g., reducing depression rates, increasing access to mental health resources in underserved areas). \n* **Actionable Strategies:** Detail the specific programs, services, or activities GHIF will implement to achieve its goals. \n* **Innovation:** Highlight how GHIF will deliver services innovatively to overcome potential challenges (e.g., utilizing technology for remote access to healthcare or education). \n\nHere are some additional points to consider:\n\n* **Funding:** Briefly mention potential funding sources like grants, donations, or partnerships. \n* **Evaluation:** Explain how the initiative will measure its success and effectiveness. \n\nBy incorporating these suggestions, you can strengthen your proposal and make a compelling case for the Global Happiness Initiative Foundation. \n\nIt's also worth noting that there already exists an organization called the World Happiness Foundation [World Happiness Foundation ON worldhappiness.foundation] with a similar mission. You might want to consider how your initiative would differ or collaborate with existing organizations. \n &\nThat's a great way to bridge the gap between your local focus and the global mission of the foundation. Here's how you can adapt your proposal to reflect this:\n\n**Highlighting the Global Through Local:**\n\n* **Pilot Program:** Propose launching a pilot program in Italy and the USA to test and refine your approach. This demonstrates a global mission with a focus on initial implementation in two key locations. \n* **Focus on Shared Challenges:** Research happiness and well-being statistics in both Italy and the USA. Highlight common challenges faced by both populations (e.g., social isolation, economic disparities) to emphasize a universal approach.\n* **Culturally Tailored Solutions:** While emphasizing the core principles, explain how your programs will be adapted to the specific cultural contexts of Italy and the USA. This showcases sensitivity to local needs within the global framework. \n\nHere's an example of how you can incorporate this approach:\n\n>**Global Happiness Initiative Foundation (GHIF): Building Well-Being Bridges**\n>\n>GHIF is a non-profit organization dedicated to improving the quality of life for individuals worldwide. We believe access to education, healthcare, travel opportunities, and mental health resources are essential for well-being (Backer & Weiler, 2018; Gilbert & Abdullah, 2004; Gray et al., 2019; Ross & Wu, 1995). \n>\n>**Launching a Bi-National Pilot Program:**\n>\n>GHIF is launching a pilot program in Italy and the USA to test and refine our innovative approach to promoting long-term happiness and well-being. Both countries face significant challenges, such as [insert relevant data on social isolation or mental health in Italy and USA]. \n\n**Additional Tips:**\n\n* **Partnerships:** Research potential partners (NGOs, government agencies) in both locations to demonstrate a collaborative and sustainable approach. \n* **Scalability:** Explain how your successful pilot program in Italy and the USA can be adapted and scaled to other countries, reflecting the global nature of the initiative. \n\nBy emphasizing a global mission with a focus on initial implementation in Italy and the USA, you can create a compelling proposal

that resonates with the American grant organization while highlighting the local impact you can make. \n\nPlease answer Part A as me \n \nPart A: How are you preparing your grant narrative? What tools are you using to prepare? \nPart B: What questions do you have about writing a grant?"]}, "status": "finished_successfully", "end_turn": null, "weight": 1.0, "metadata": {"request_id": "88485c914e170e3f-MXP", "timestamp_": "absolute", "message_type": null}, "recipient": "all", "channel": null}, "parent": "69111d46-8171-4195-b909-d4f881eb9e3d", "children": ["2fcb27fc-247d-44a2-950e-f530093c9210"]}, "2fcb27fc-247d-44a2-950e-f530093c9210": {"id": "2fcb27fc-247d-44a2-950e-f530093c9210", "message": {"id": "2fcb27fc-247d-44a2-950e-f530093c9210", "author": {"role": "assistant", "name": null, "metadata": {}}, "create_time": 1715831020.656054, "update_time": null, "content": {"content_type": "text", "parts": ["**Part A: How are you preparing your grant narrative? What tools are you using to prepare?**\n\nI am focusing on developing a strong, impactful narrative for the Global Happiness Initiative Foundation (GHIF) grant proposal by integrating a multi-faceted approach to improving well-being on a global scale. To prepare the grant narrative effectively, I am utilizing a variety of tools:\n\n1. **Research Platforms:** I am leveraging academic databases and platforms like Consensus to gather evidence and citations that support the effectiveness of the proposed initiatives in areas such as education, healthcare, mental health, and travel. This research helps substantiate the claims and strategies outlined in the grant.\n\n2. **Project Management Software:** Tools like Trello and Asana help in organizing the tasks associated with the grant writing process, from initial research to final submission. This ensures that all aspects of the proposal are developed coherently and deadlines are met.\n\n3. **Collaboration Tools:** Google Docs and Microsoft Teams are crucial for collaborative writing and feedback gathering from advisors and stakeholders. This ensures that the narrative is robust, clear, and aligns with the goals of potential funders.\n\n4. **Statistical Software:** Software like SPSS and Excel assists in analyzing data related to global well-being indicators, which is crucial for setting baseline metrics and measurable goals for the initiative.\n\nBy integrating insights from research, organizing tasks efficiently, and collaborating effectively with stakeholders, I aim to craft a compelling and well-substantiated grant narrative that aligns with the mission of GHIF and meets the criteria of potential funders.\n\n**Part B: What questions do you have about writing a grant?**\n\n1. **Strategic Alignment:** How can I best align the proposal\u2019s objectives with the specific interests and priorities of the grant-making organization?\n   \n2. **Budget Planning:** What are some effective strategies for creating a realistic and justifiable budget that aligns with the proposed activities and goals?\n\n3. **Impact Measurement:** What are the most effective methods for defining and measuring the impact of the proposed initiative, especially in a way that resonates with funders?\n\n4. **Sustainability:** How can I convincingly articulate the long-term sustainability of the initiative beyond the grant period?\n\n5. **Differentiation:** Given the existence of similar organizations like the World Happiness Foundation, how can I differentiate GHIF in the grant narrative to highlight its unique value proposition and approach?\n\nBy addressing these questions, I aim to enhance the clarity, impact, and persuasiveness of the grant proposal, increasing the likelihood of securing funding for the Global Happiness Initiative Foundation."]}, "status": "finished_successfully","end_turn": true

Data show that many patients do not receive appropriate care, or receive unnecessary or harmful care. Many approaches claim to offer solutions to this problem; which ones are as yet the most effective and efficient is unclear. We aim to provide an overview of present knowledge about initiatives to changing medical practice. Substantial evidence suggests that to change behaviour is possible, but this change generally requires comprehensive approaches at different levels (doctor, team practice, hospital, wider environment), tailored to specific settings and target groups. Plans for change should be based on characteristics of the evidence or guideline itself and barriers and facilitators to change. In general, evidence shows that none of the approaches for transferring evidence to practice is superior to all changes in all situations.","paper_authors":["R. Grol","J. This involves moving beyond practices that rely mainly on classroom-based health education models, to a more comprehensive, integrated approach of health promotion that focuses both on child-youth attitudes and behaviors, and their environment. Despite the tremendous potential of these initiatives in terms of health and educational gains, only rarely are they actually put into practice. This article briefly reviews the features of these initiatives, as well as the extent of their implementation and current benefits. Against that backdrop, the authors identify some issues to consider and propose four conditions with a view to achieving broader practical application of these approaches. These issues, which are discussed from the standpoint of potential avenues of further study and courses of action, relate to the comprehensive, integrated nature of the intervention, the school/family/community partnership, political and financial support from policy makers, and, finally, evaluative research as a support to implementation.","paper_authors":["Marthe Deschesnes","Catherine Martin","A. ","search_result_number":4},{"paper_title":"Using the
Consolidated Framework for Implementation Research (CFIR) to produce actionable
findings: a rapid-cycle evaluation approach to improving
implementation","abstract":"BackgroundMuch research does not
address the practical needs of stakeholders responsible for introducing health care
delivery interventions into organizations working to achieve better outcomes. In this
article, we present an approach to using the Consolidated Framework for Implementation
Research (CFIR) to guide systematic research that supports rapid-cycle evaluation of
the implementation of health care delivery interventions and produces actionable
evaluation findings intended to improve implementation in a timely manner.MethodsTo
present our approach, we describe a formative cross-case qualitative investigation of
21 primary care practices participating in the Comprehensive Primary Care (CPC)
initiative, a multi-payer supported primary care practice transformation intervention
led by the Centers for Medicare and Medicaid Services. Qualitative data include
observational field notes and semi-structured interviews with primary care practice
leadership, clinicians, and administrative and medical support staff. We use
intervention-specific codes, and CFIR constructs to reduce and organize the data to
support cross-case analysis of patterns of barriers and facilitators relating to
different CPC components.ResultsUsing the CFIR to guide data collection, coding,
analysis, and reporting of findings supported a systematic, comprehensive, and timely
understanding of barriers and facilitators to practice transformation. Our approach to
using the CFIR produced actionable findings for improving implementation effectiveness
during this initiative and for identifying improvements to implementation strategies
for future practice transformation efforts.ConclusionsThe CFIR is a useful tool for
guiding rapid-cycle evaluation of the implementation of practice transformation
initiatives. Using the approach described here, we systematically identified where
adjustments and refinements to the intervention could be made in the second year of
the 4-year intervention. We think the approach we describe has broad application and
encourage others to use the CFIR, along with intervention-specific codes, to guide the
efficient and rigorous analysis of rich qualitative data.Trial

Health Program for the Well\u2010Elderly by Community Health
Nurses","abstract":"Effectiveness of three nursing approaches used
in providing health care for the well-aging was tested experimentally by selecting
three matched groups among a well-aging population of 195 who lived in three housing
units for the elderly. The approaches differed in extensiveness of physical and
psychosocial assessment and in involvement of residents in screening, counseling, and

health education sessions. Health status was measured before and after one year of implementation by specific observations and structured interviews. Residents who received the extensive nursing program: reported increases in their positive perceptions of their own health, learned to respond effectively to health screening programs, and showed increases in the number who were under primary care. The data supported study hypotheses that predicted higher levels of health for persons who had the opportunity of extensive and specific nursing

interventions.","paper_authors":["J. A. Sullivan","F. Armignacco"],"paper_publish_year":1979,"publication_journal_name":"Nursing

These systems emphasize more comprehensive and integrated service delivery approaches and more community-based modes of decision-making. There has also been a renewed focus on the need to establish the accountability of community interventions through the use of results-based performance appraisals techniques. The present paper presents an early stage evaluation model that was used to provide a framework to assess the effectiveness of three comprehensive community initiative projects that were put in place in the state of Nebraska in 1996. The challenges of evaluating these types of broadbased initiatives as well as the pitfalls that must be overcome in attempts to utilize result-based performance evaluation approaches are discussed.","paper_authors":["V. Chambers"],"paper_publish_year":2000,"publication_journal_name":"Evaluation and Program Planning","consensus_paper_details_url":"https://consensus.app/papers/stage-evaluation-model-assessing-community-initiatives-murphyberman/566638aa393d549ab24689b5a29f5e14/?utm_source=chatgpt","doi":"10.1016/S0149-7189(00)00010-0","volume":"23","pages":"157-163","search_result_number":9},{"paper_title":"From \\"best practice\\" to \\"next practice\\": the effectiveness of school-based health promotion in improving healthy eating and physical activity and preventing childhood obesity","abstract":"BackgroundIn 2005, we reported on the success of Comprehensive School Health (CSH) in improving diets, activity levels, and body weights. The successful program was recognized as a \\"best practice\\" and has inspired the development of the Alberta Project Promoting active Living and healthy Eating (APPLE) Schools. The project includes 10 schools, most of which are located in socioeconomically disadvantaged areas. The present study examines the effectiveness of a CSH program adopted from a \\"best practice\\" example in another setting by evaluating temporal changes in diets, activity levels and body weight.MethodsIn 2008 and 2010, we surveyed grade 5 students from approximately 150 randomly selected schools from the Canadian province of Alberta and students from 10 APPLE Schools. Students completed the Harvard Youth/Adolescent Food Frequency Questionnaire, questions on physical activity, and had their height and

weight measured. Multilevel regression methods were used to analyze changes in diets, activity levels, and body weight between 2008 and 2010.ResultsIn 2010 relative to 2008, students attending APPLE Schools were eating more fruits and vegetables, consuming fewer calories, were more physically active and were less likely obese. These changes contrasted changes observed among students elsewhere in the province.ConclusionsThese findings provide evidence on the effectiveness of CSH in improving health behaviors. They show that an example of \\"best practice\\" may lead to success in another setting. Herewith the study provides the evidence that investments for broader program implementation based on \\"best practice\\" are justified.","paper_authors":["Christina Fung","S. Kuhle","Connie Lu","M. Purcell","M. Schwartz","K. Storey","P. Veugelers"],"paper_publish_year":2012,"publication_journal_name":"The International Journal of Behavioral Nutrition and Physical Activity","consensus_paper_details_url":"https://consensus.app/papers/from-practice-practice-effectiveness-schoolbased-health-fung/beb542b7994a54bda58763e192ea874a/?utm_source=chatgpt","doi":"10.1186/1479-5868-9-27","volume":"9","pages":"27 - 27","search_result_number":10},{"paper_title":"Branding effectiveness measurement in non-profit environment","abstract":"\\nPurpose\\nLiterature suggests that branding effectiveness measures are present in for-profit sectors but lacks such comprehensive measures for the non-profit sector. Moreover, most of the branding effectiveness measures are either based on brand image approach or on brand identity approach. The purpose of this paper is, therefore, to propose an integrated branding effectiveness measurement metrics for non-profit organizations (NPOs). \\n\\n\\nDesign/methodology/approach\\nJudgmental and simple random sampling techniques are used for data collection. The final sample comprises 150 respondents including donors, volunteers, beneficiaries and media who were administered interview schedules. Based on the ratings given by the respondents regarding branding effectiveness parameters of the five NPOs of a major city in Northern India, branding effectiveness score of each NPO is computed. The branding measures adopted by NPOs rated high are selected in the proposed brand effectiveness metrics. \\n\\n\\nFindings\\nThe proposed metrics encapsulates brand identity parameters such as management profile, vision, culture, as well as brand image parameters such as brand awareness, brand understanding, brand association of the stakeholders, etc. The metrics also link the two through brand performance parameters. \\n\\n\\nResearch limitations/implications\\nMultiple hierarchical structures of government infested with bureaucracy and lack of specialized staff with focused approach have reduced the effectiveness of their socio-development programs in emerging economies. This has led to an increase in number, diversity and impact of NPOs that compete for resource generation. Branding is a powerful tool for NPOs not only for resource generation but also for driving the social goals. The branding effectiveness metrics would help NPO managers reinforce the internal identity by increasing the cohesion and the capacity of the organization as well as create a strong brand image by garnering the support of multiple stakeholders through mutual trust thereby creating a greater social impact. \\n\\n\\nOriginality/value\\nThe uniqueness of the study stems from the fact that the proposed branding effectiveness

measurement metrics in non-profit environment encapsulates brand image, brand identity and brand performance parameters. \\n","paper_authors":["Ebha Garg","S. Swami","S. The aim of this study was to utilize the capability approach to evaluate the real-world effectiveness of health social work among those with experienced negative life-events. Methods \u201cEvidencing the effectiveness of health social work assessment and intervention\u201d (Terva, 2021-2023) quasi-experimental data with mixed methods collected in real-world conditions across three hospital districts. The baseline data (intervention=266 and comparison=255) is collected and 6 months follow-up study is lasting until June 2023. Questionnaire data among participants included validated measures of perceived capabilities and background variables (age, gender, education, income) and among social workers (the evaluation of needs). Analysis of covariance (ANCOVA) while adjusting background variables at baseline and qualitative analyses will be applied. Results People with negative life-events perceived their capabilities as being lower than general adult population. These differences were especially reflected to live a healthy life and form satisfying social relationships. In baseline, the intervention group also demonstrated significantly lower capabilities compared to the comparison group. The detailed results of the real-world effectiveness of health social work on capabilities within and between intervention and comparison groups will be presented at the conference. Conclusions Our study is one of the first ones to utilize capability approach to examine real-world effectiveness of social services among those negative life events. Future studies should also include the commodities, converting factors and individual agency into the analyses and try to capture the dynamic process of the realization of capabilities and agency with a longer follow-up up to 24 months. Key messages \u2022\u2003Capability Approach (CA) provides useful tool for evaluating effectiveness of social services in terms of promoting health and wellbeing of the customers. \u2022\u2003CA could be utilized for developing more empowering and effective wellbeing policies targeted to the specific customer-centered needs.","paper_authors":["T. m\u00e4kiopas/efc8192fd085523fb73c51ada64c3ab5/?utm_source=chatgpt","doi":"10.1093/eurpub/ckad160.1466","volume":"33","pages":"","search_result_number":12}, {"paper_title":"Determinants of Sustainability and Organisational Effectiveness in Non-Profit Organisations","abstract":"This case study investigates the criteria for organizational effectiveness in non-profit organizations (NPOs) with the aim to determine how the elements of sustainability fit within the criteria. To achieve this, the study utilized the research questions: \u201cwhat criteria do NPOs use to evaluate their effectiveness?\u201d and \u201chow is sustainability embedded in NPO effectiveness?\u201d The research design was interpretivist, adopting focus group interviews to obtain data. Specifically, two focus group interviews were held with the top management of an NPO which revealed that both financial and non-financial criteria were equally essential for NPO effectiveness. This finding is consistent with the literature, although it contradicts the initial assumption of the study that NPO effectiveness was based more on non-financial criteria than financial criteria. The study also found that the effectiveness of an NPO should be viewed in two ways: firstly, \u201cthe full achievement of its mandate\u201d and, secondly, \u201cthe ability to run business projects to cover cost.\u201d It also emerged that both the ability to cover costs and the achievement of a mandate should be done in a sustainable manner (a sustainable manner is seen as one that is harmonious with the natural and the socio-political environment). The results of this paper present a practical case for the management of NPOs by reiterating that the full achievement of the NPO mandate and the successful running of social projects to generate funds for sustainability are key elements of effectiveness. Given the essential role that NPOs play in developing countries, this study has provided the foundation for more widespread enquiry into the sustainability and effectiveness of NPOs.","paper_authors":["C. State of the art and perspectives in improving the effectiveness and efficiency of the European health care systems.","abstract":"A framework for the classification of information on maintaining or improving effectiveness and efficiency in health care systems is proposed. Activities, disciplines and methods that are available to identify, implement and monitor the available evidence in health care are called 'best practice'. We reviewed the literature in order to (1) establish a definition for 'best practice' in the health sector, (2) develop a framework to classify relevant information, and (3) synthesise the literature on activities, disciplines and methods pertinent to the concept. Health care, public health activities and health policy should be advised by the best available evidence. Currently, the concept can be broken down into three activities (Health Technology Assessment (HTA), Evidence-Based Medicine (EBM), Clinical Practice Guidelines (CPGs))

by which evidence is synthesised either as an evidence base (EBM and most HTA) or in the form of recommendations (CPGs and some HTA) for different decision purposes in health care. These activities gain input mainly through four disciplines: clinical research, clinical epidemiology, health economics and health services research. The different disciplines are related to each other in three 'domains': (a) input, (b) dissemination/implementation and (c) monitoring/outcome. These provide evidence on (a) the (potential) effects of health care interventions and policies; (b) on ways to implement them; and (c) on ways to monitor their actual outcome. None of these separate approaches and activities exclusively forms a successful and all-embracing strategy to ascertain 'best practice'. A collective approach in the management of information is expected to add value to individual efforts. Resources should be devoted to increase quality and quantity of both primary and secondary research as well as the establishment of networks to synthesise, disseminate, implement and monitor 'best practice'.","paper_authors":["Matthias Perleth","Elke Jakubowski","Reinhard Busse"],"paper_publish_year":2001,"publication_journal_name":"Health policy","consensus_paper_details_url":"https://consensus.app/papers/what-practice-health-care-state-perspectives-improving-perleth/e1caa887cede5a018ae0961ef074b5fd/?utm_source=chatgpt","doi":"10.1016/S0168-8510(00)00138-X","volume":"56 3","pages":"\\n   235-50\\n ","search_result_number":16},{"paper_title":"Effectiveness of the Comprehensive Approach to Rehabilitation (CARe) methodology: design of a cluster randomized controlled trial","abstract":"BackgroundThere is an increasing amount of evidence for the effectiveness of rehabilitation interventions for people with severe mental illness (SMI). In the Netherlands, a rehabilitation methodology that is well known and often applied is the Comprehensive Approach to Rehabilitation (CARe) methodology. The overall goal of the CARe methodology is to improve the client\u2019s quality of life by supporting the client in realizing his/her goals and wishes, handling his/her vulnerability and improving the quality of his/her social environment. The methodology is strongly influenced by the concept of \u2018personal recovery\u2019 and the \u2018strengths case management model\u2019. No controlled effect studies have been conducted hitherto regarding the CARe methodology.Methods/designThis study is a two-armed cluster randomized controlled trial (RCT) that will be executed in teams from three organizations for sheltered and supported housing, which provide services to people with long-term severe mental illness. Teams in the intervention group will receive the multiple-day CARe methodology training from a specialized institute and start working according the CARe Methodology guideline. Teams in the control group will continue working in their usual way. Standardized questionnaires will be completed at baseline (T0), and 10 (T1) and 20\u00a0months (T2) post baseline. Primary outcomes are recovery, social functioning and quality of life. The model fidelity of the CARe methodology will be assessed at T1 and T2.DiscussionThis study is the first controlled effect study on the CARe methodology and one of the few RCTs on a broad rehabilitation method or strength-based approach. This study is relevant because mental health care organizations have become increasingly interested in recovery and rehabilitation-oriented care.Trial registrationThe trial registration number is

This article presents a systematic review of the evidence on the population-level impact of CCIs, focusing specifically on documented effects from studies using an experimental or quasi-experimental design. Of 1,947 articles identified through a database and hand search, 25 articles examining six different CCIs-most of which employed prevention science frameworks-met the review inclusion criteria. The results of this review show that CCIs can strengthen protective factors and reduce risk factors, delay initiation of and reduce substance use, and reduce the likelihood of, and delay engagement in, violent and/or delinquent behaviors. Impacts have been documented as soon as one year after initial intervention, and as early as 7th grade, with effects sustained as long as seven years post-intervention, and as late as a year post-high school. However, relative to the prevalence of CCIs as a practical intervention, the evidence base is small, potentially dated, and focused on a narrow set of outcomes and populations. Recommendations for interpreting the evidence base are discussed, including methodological limitations and implications for future work.","paper_authors":["Emily S. Continuous quality improvement (CQI), an approach used extensively in industrial and manufacturing sectors, has been used in the health sector. Despite the attention given to CQI, uncertainties remain as to its effectiveness given the complex and diverse nature of health systems. This review assesses the effectiveness of CQI across different health care settings, investigating the importance of different components of the approach. Methods We searched 11 electronic databases: MEDLINE, CINAHL, EMBASE, AMED, Academic Search Complete, HMIC, Web of Science, PsycINFO, Cochrane Central Register of Controlled Trials, LISTA, and NHS EED to February 2019. Also, we searched reference lists of included studies and systematic reviews, as well as checking published protocols for linked papers. We selected randomized controlled trials (RCTs) within health care settings involving teams of health professionals, evaluating the effectiveness of CQI. Comparators included current usual practice or different strategies to manage organizational change. Outcomes were health care professional performance or patient outcomes. Studies were published in English. Results Twenty-eight RCTs assessed the effectiveness of different approaches to CQI with a non-CQI comparator in various settings, with interventions differing in terms of the approaches used, their duration, meetings held, people involved, and training provided. All RCTs were considered at risk of bias, undermining their results. Findings suggested that the benefits of CQI compared to a non-CQI comparator on clinical process, patient, and other outcomes were limited, with less than half of RCTs showing any effect. Where benefits were evident, it was usually on clinical process measures, with the model used (i.e., Plan-Do-Study-Act, Model of Improvement), the meeting type (i.e., involving leaders discussing implementation) and their frequency (i.e., weekly) having an effect. None considered socio-economic health inequalities. Conclusions Current evidence suggests the benefits of CQI in improving health care are uncertain, reflecting both the poor quality of evaluations and the complexities of health services themselves. Further mixed-methods evaluations are needed to understand how the health service can use this proven approach. Trial registration Protocol registered on PROSPERO (CRD42018088309).","paper_authors":["J. Hill","Anne-Marie Stephani","P. Sapple","A. "text", "parts": ["no three schalorly supporting sources for this: \n\n**Part A: How
are you preparing your grant narrative? What tools are you using to prepare?**\n\nI am
focusing on developing a strong, impactful narrative for the Global Happiness
Initiative Foundation (GHIF) grant proposal by integrating a multi-faceted approach to
improving well-being on a global scale. To prepare the grant narrative effectively, I
am utilizing a variety of tools:\n\n1. **Research Platforms:** I am leveraging
academic databases and platforms like Consensus to gather evidence and citations that
support the effectiveness of the proposed initiatives in areas such as education,
healthcare, mental health, and travel. This research helps substantiate the claims and
strategies outlined in the grant.\n2. **Project Management Software:** Tools like
Trello and Asana help in organizing the tasks associated with the grant writing
process, from initial research to final submission. This ensures that all aspects of
the proposal are developed coherently and deadlines are met.\n3. **Collaboration
Tools:** Google Docs and Microsoft Teams are crucial for collaborative writing and
feedback gathering from advisors and stakeholders. This ensures that the narrative is
robust, clear, and aligns with the goals of potential funders.\n4. **Statistical
Software:** Software like SPSS and Excel assists in analyzing data related to global
well-being indicators, which is crucial for setting baseline metrics and measurable
goals for the initiative.\n\nBy integrating insights from research, organizing tasks
efficiently, and collaborating effectively with stakeholders, I aim to craft a
compelling and well-substantiated grant narrative that aligns with the mission of GHIF
and meets the criteria of potential funders.\n\n**Part B: What questions do you have
about writing a grant?**\n\n1. **Strategic Alignment:** How can I best align the
proposal\u2019s objectives with the specific interests and priorities of the grant-
making organization?\n   \n2. **Budget Planning:** What are some effective strategies
for creating a realistic and justifiable budget that aligns with the proposed
activities and goals?\n\n3. **Impact Measurement:** What are the most effective
methods for defining and measuring the impact of the proposed initiative, especially
in a way that resonates with funders?\n\n4. **Sustainability:** How can I convincingly
articulate the long-term sustainability of the initiative beyond the grant
period?\n\n5. **Differentiation:** Given the existence of similar organizations like
the World Happiness Foundation, how can I differentiate GHIF in the grant narrative to
highlight its unique value proposition and approach?\n\nBy addressing these questions,
I aim to enhance the clarity, impact, and persuasiveness of the grant proposal,
increasing the likelihood of securing funding for the Global Happiness Initiative
Foundation. you can include intext\n\nInclude 3 supporting schalory sources for the
assertions made in the passage above and cite them within the passage"]}, "status":

The \\"project approach\\" enables the librarian to employ the efficiencies of project management by concentrating on a management unit of appropriate size. Other advantages of this approach include participation of the user community, visibility, ease in reporting and control, and directivity in the use of

supplementary funding. The principle may be extended to grant proposal writing, where it is particularly useful in developing proposals tailored to the known granting patterns of agencies.","paper_authors":["B. Allen"],"paper_publish_year":1984,"publication_journal_name":"Collection Management","consensus_paper_details_url":"https://consensus.app/papers/administration-grant-fundsthe-project-approach-allen/b249034ba5545e2495f231ab8f13f585/?utm_source=chatgpt","doi":"10.1300/J105V05N03_12","volume":"5","pages":"175-184","search_result_number":1},{"paper_title":"Proposal Writing: Effective Grantsmanship (3rd ed.) by Soraya M. Coley & Cynthia A. Scheinberg","abstract":"Coley and Scheinberg\u2019s Proposal Writing: Effective Grantsmanship is a strong example of the kind of resource I recommend all MSWs have on their bookshelf: a clear and concise primer on the process of writing a strong grant proposal. The book clearly describes the nuts and bolts of proposal writing, highlights major pitfalls often encountered, and offers sound advice on ways to increase the probability of funding success. The book begins by offering an overview of the major types of funding proposals (government/foundation/corporate) and outlines the major components of a proposal, all along the way offering the reader useful suggestions. In the case of a co-written proposal, for example, the authors recommend assigning a point person responsible for pulling pieces together in time to meet submission deadlines. In the case of a nascent organization, they suggest exploring the possibility of a partnership with a more established agency that might bring more credibility to the initiative. Chapter two offers a brief (and not terribly informative) discussion of the usefulness of technology in finding and evaluating potential funders and sources of data on both the intervention and community. Future editions of the book might highlight AmericanFactFinder, which makes accessing community-level census and American Community Survey data relatively easy. The authors then turn to a discussion of the importance of understanding the agency (to identify strengths and weaknesses), the funder (to identify priorities), and the community (to identify goodness-of-fit). These elements are important not simply for the purposes of writing a strong proposal, but also more critically for effective program development that meets the needs of the community in an accessible manner. Before seeking funding, the authors challenge readers to ask, \u201cIs the service the right one for the client?\u201d (p. 29). After laying the groundwork, the book discusses the major components of the proposal: the needs statement, the goals and objectives, the project narrative, the evaluation plan, the budget, and \u201cfinishing touches\u201d such as the cover letter. These chapters are strong because they mix description of the form and function of the components with advice for strengthening","paper_authors":["H. Shaefer"],"paper_publish_year":2011,"publication_journal_name":"Administration in Social Work","consensus_paper_details_url":"https://consensus.app/papers/proposal-writing-effective-grantsmanship-soraya-coley-shaefer/aa132f6b40ab5d5a82135ca5852ad458/?utm_source=chatgpt","doi":"10.1080/03643107.2011.614542","volume":"35","pages":"551 - 552","search_result_number":2},{"paper_title":"Predictin

g the effectiveness of grant\u2010making","abstract":"Expertise in monitoring and measuring effectiveness in the grant-funded sector has been developing and improving for several years. However, can grant-making bodies improve their effectiveness by using predictive techniques to inform their decision-making? This paper reports work with two UK grant-making bodies, the government-funded New Opportunities Fund (now incorporated into the Big Lottery Fund) and the long-standing independent grant-maker City Parochial Foundation. \\n \\n \\n \\n \\nThe study used classification and prediction tools based on support vector machine mathematics to undertake predictive analysis of the data, the results of which were then compared with post hoc qualitative review by practitioners in the grant-making bodies. The study demonstrates statistically significant predictive capability for a New Opportunities Fund (NOF) programme but not for the City Parochial Foundation's grant programme. \\n \\n \\n \\n \\nThese findings reflect significant procedural and cultural differences between the two grant-makers, although the differing quantities of data available for analysis in each case was also a factor. In particular, the pre-funding assessment processes and the post-project evaluation processes are significantly different. \\n \\n \\n \\n \\nThis paper suggests a model for distinguishing between types of grant-making body and also assesses various procedural and cultural styles amongst grant-makers. Further, it demonstrates visualization techniques that can be applied alongside predictive tools to help interpret the predictions. The paper indicates that predictive analytics can improve the funding effectiveness of relatively large, structured grant-making bodies and identifies areas for further research linking grant-making practice with organizations' strategic decision-making. \\n \\n \\n \\n \\n \\n \\nCopyright \u00a9 2006 John Wiley & Sons, Ltd.","paper_authors":["Ian Harris","M. Much postgraduate training focuses on the later elements and gives short shrift to the earlier ones. This article attempts to fill that gap by discussing a pivotal element of the funding process: preparing effective grant applications. In addition to discussing the fundamental features of the pivotal sections of a standard National Institutes of Health (NIH) R-series application (see \u201cTypes of Grant Programs\u201d on the Web site of the NIH Office of Extramural Research for a complete list of NIH-sponsored grant programs1), the sections below outline measures preliminary to the actual grant writing process, rhetorical perspectives and tactics useful to grant writers, the NIH grant application review and scoring process, and the importance of revision and resubmission. \\n\\nGrant applications (hereafter I often use the common shorthand \u201cgrant\u201d to mean \u201cgrant application\u201d) are, of course, judged not only on the text, tables, and figures reviewed by the funding agency but also on everything that stands behind the document: the ideas, the

researchers and their collective experience, and the researchers\u2019 host institutions. A successful grant must persuade reviewers that all of these bases have been covered and that the probability of delivering fruitful findings is high. Thus, a necessary preliminary step in planning any research project is to secure the enthusiastic support of department heads, deans, and managers. Demonstrating that the proposed research has institutional support (in the form of researcher time, support staff, physical space, access to necessary equipment, etc) reassures reviewers that the research will be nurtured in a propitious environment. Second, assembling the best team possible to prepare the grant and to accomplish the work is imperative. This \u2026","paper_authors":["D. In the future, more and more grant funded programs will be a necessary part of our work in student affairs. This manuscript offers basic tools for understanding best practices of grant writing and the principles that should guide student affairs personnel in grant writing endeavors. Financial constraints throughout academe create heightened attention on external sources of funds. While typically associated with faculty and research, grant writing represents a substantive way in which student affairs

personnel can demonstrate their abilities as educators. In terms of professional development, student affairs staff members can benefit from collaboration in writing grants, managing the grants, and in conducting research associated with the project. Their insights to the cocurricular lives of students are a salient perspective that other segments of a campus can benefit from as the dialogue unfolds regarding a grant proposal. The nature of requests for proposals (RFPs) has changed in ways that encourage student affairs to participate actively. For example, many agencies now approach programmatic project ideas from a collaborative viewpoint of the campus, as opposed to non-collaborative, isolated projects. In addition, the evaluation and research components now required in many RFPs necessitate a perspective on the students' holistic experiences, rather than data such as grade point average or retention rates. The agencies are equally concerned with questions of \\"how\\" and \\"why,\\" as they are with questions of \\"what\\" and \\"how much.\\" Even if student affairs professionals do not take the lead on a grant project, their collaboration with other campus components will become more vital to ensure that co-curricular concerns are addressed. Currently, a dearth of literature exists regarding the involvement of student affairs professionals involved in grant writing endeavors. Guiding Principles Begin with an Idea To receive funding, a proposal must demonstrate fit between the institutional strategic plan, the goals of the sponsor, and the objectives of the project. The strongest proposals demonstrate a rigorous alignment with guidelines of the sponsor. Even an idea with a great deal of merit and research will not be funded if the program goals do not align with those of the sponsor. A writing team should critically examine sponsors that possibly align with a project idea and institution. Many sponsors will post past awardees, including institution, name of project, and contact information. Identify Sponsors Funding sources for grants include federal (e.g., U.S. Department of Education at www.ed.gov) and state agencies (e.g., State Department of Human Services), private foundations (e.g., John and Catherine T. McArthur Foundation at www.macfdn.org, Coca-Cola\u00ae at www2.coca-cola.com/foundation), and professional organizations (e.g., SACSA at www.sacsa.org). Campuses may also be members of national search agencies that will research sponsors for a particular idea or niche. When the proposal is ready to be submitted, the team may choose to submit it to one agency or to more than one. If the proposal is accepted by more than one agency, the campus must choose one and decline the other. Write with a Team Once a project has been generally defined and possible sponsors have been identified, a writing team should be established that is representative of the project stakeholders. The team leader may be pre-determined or designated by the group. For an effective writing team, the project requires personnel familiar with the institutions or departments involved and who also have authority to commit resources on behalf of their units. Once the team is assembled, the members must read through the RFP carefully to identify the requisite components of the proposal.

To improve the quality of software project management and focus efforts on the right issues, it is first essential to measure software project management effectiveness. In this report, the authors introduce four alternative approaches for guiding the development of project management metrics.","paper_authors":["K. Demir","J. Michael","J. Osmundson"],"paper_publish_year":2008,"publication_journal_name":"","consensus_paper_details_url":"https://consensus.app/papers/approaches-measuring-management-effectiveness-software-demir/374f04096e9e5c23b2bd611e42c4e411/?utm_source=chatgpt","doi":"10.21236/ada484712","volume":"","pages":"","search_result_number":7}, {"paper_title":"A Comprehensive Software Project Management Framework","abstract":"Project management is vital for software project success. Project Management Body of Knowledge (PMBOK), CMMI for Development (CMMI-DEV), and other software project management models and practices established to assist software organizations, each of these models offers diverse focal points. Combined effective software project management practices remain a challenge to software organizations. In striving to raise the likelihood of software project success, this paper introduces a framework for software project management effectiveness which integrated a set of software project management practices based on the PMBOK guide processes, CMMI-DEV processes, and management areas that influence a software project. The proposed framework called 4PTRB which includes people, process, product, project, technology, risk, and business management areas. The 4PTRB software project management framework provides a whole comprehensive view to help software project managers to improve their project management effectiveness. The framework is validated by conducting a web-based survey of software professional practitioners around the world. A statistical analysis of twenty software projects has been conducted as a case study thereafter, spanning small to large development projects. The consistency of the case study and survey results shows the power of the 4PTRB framework as an inclusive software project management framework.","paper_authors":["Mohamed Ellithey Barghoth","A. The paper discusses the development of a Web based software process management and monitoring tool designed to assist in producing better software projects. The process management tool, developed in the programming language Java is accessed through standard World Wide Web browsers. This provides access to project management information in a transparent platform independent manner to geographically distributed programming teams and project managers. Integrity and confidentiality of project information is preserved. Java was chosen as it can be used with standard World Wide Web browsers; it is architecturally neutral and provides good support for graphics. Numerous benefits are derived from this project. Included in these are: global access to project information allowing continuous product development to take place and be managed; a reduction in the number of necessary paper documents; and a higher level of management efficiency through the continuous availability of project information with an expected reduction in cycle

time.","paper_authors":["Karlie Hutchens","M. Oudshoorn","Kevin Maciuna"],"paper_publish_year":1997,"publication_journal_name":"Proceedings of the Thirtieth Hawaii International Conference on System Sciences","consensus_paper_details_url":"https://consensus.app/papers/webbased-software-engineering-process-management-hutchens/47a5c6d7cf515de992666db079a0d0ad/?utm_source=chatgpt","doi":"10.1109/HICSS.1997.667442","volume":"1","pages":"676-685 vol.1","search_result_number":13}, {"paper_title":"The art of obtaining grants.","abstract":"PURPOSE\\nThe grantsmanship process is described from the perspective of the investigator.\\n\\n\\nSUMMARY\\nSuccessful grant writing involves considerable preparation. There are thousands of grant-making agencies, both public and private, and many of the grants offered can be found in online databases. Investigators should focus their grant-seeking efforts on firms and research subjects of interest. Factors that determine the type of funding pursued include the source of funds, the activity pursued by the investigator, the research subject area, the geographic area, the investigator's career level, the investigator's affiliation with a professional society, and the size of the grant. To strategize for long-term success, there are two ways a new investigator can begin-by serving as a coinvestigator on a grant held by a more-senior investigator or by pursuing a small grant as a principal investigator. When reviewing grant proposals, reviewers usually focus on a proposal's significance and impact, originality, usefulness and generalizability, scope, approach to research, feasibility, and sufficiency of resources to complete the project. Once a grant is awarded, investigators must ensure they are well versed in conducting ethical research, complying with regulations of the Health Insurance Portability and Accountability Act, preparing human subjects applications, managing grant budgets, and managing the project and personnel. Most grant makers require the presentation and publication of project results.\\n\\n\\nCONCLUSION\\nWriting a grant proposal involves significant preparation. To be a successful grant writer, the investigator should have a strong interest in the research topic at hand. At the same time, he or she should have a clear understanding of the sponsor's perspective and interests.","paper_authors":["E. Devine"],"paper_publish_year":2009,"publication_journal_name":"American journal of health-system pharmacy : AJHP : official journal of the American Society of Health-System Pharmacists","consensus_paper_details_url":"https://consensus.app/papers/obtaining-grants-devine/1b535cd3a14a5ddc9639a82274cacc71/?utm_source=chatgpt","doi":"10.2146/ajhp070320","volume":"66 6","pages":"\\n   580-7\\n   ","search_result_number":14}, {"paper_title":"Effective management of software development","abstract":"The goal of most projects is to produce a product that meets market and customer needs, on a schedule responsive to the market, at an appropriate cost, and with appropriate quality. Attainment of that goal depends on how effectively the project is managed. This article presents an effective management process that is designed for software projects but is applicable to other types of projects as well. The article discusses

four principles of effective management: planning \u2014 detailing every phase of what is to be done, who will do it, with what resources, in what time period \u2014 then organizing, monitoring, and controlling. Above all, effective management considers the people involved in the project.","paper_authors":["L. B. Robertson","G. A. Secor"],"paper_publish_year":1986,"publication_journal_name":"AT&T Technical Journal","consensus_paper_details_url":"https://consensus.app/papers/management-software-development-robertson/c0a88474903253febbfb399a75d7a580/?utm_source=chatgpt","doi":"10.1002/J.1538-7305.1986.TB00297.X","volume":"65","pages":"94-101","search_result_number":15},{"paper_title":"The effects of software processes on meeting targets and quality","abstract":"Firms developing software face increasing pressures to improve product quality, productivity, time to market, and customer satisfaction. As projects increase in size and complexity, and competition grows, firms are reengineering their software processes. They are adopting more intensive procedures for requirements management, project planning, defect tracking, configuration management, design and code inspections, and so forth. To explore the potential effectiveness of these efforts, we conducted a survey of senior practitioners at the 1993 Software Engineering Process Group National Meeting. The survey asked participants about the processes followed on, and the outcome of a specific software project. Certain practices, notably project planning and cross-functional teams, were consistently associated with favorable outcomes. Based on the survey results, other practices may have little impact on project outcomes.<<ETX>>","paper_authors":["C. Deephouse","Dennis R. Goldenson","Marc I. Kellner","T. Mukhopadhyay"],"paper_publish_year":1995,"publication_journal_name":"Proceedings of the Twenty-Eighth Annual Hawaii International Conference on System Sciences","consensus_paper_details_url":"https://consensus.app/papers/effects-software-processes-meeting-targets-quality-deephouse/195ec0943d6553599bd3131430ec2082/?utm_source=chatgpt","doi":"10.1109/HICSS.1995.375677","volume":"4","pages":"710-719 vol.4","search_result_number":16},{"paper_title":"WASP (Write a Scientific Paper): Writing a Research Grant - 2, Drafting the Proposal.","abstract":"When writing up a grant application, the proposal has to be targeted to the funding source identified and being approached. However, some general rules apply in all cases. Provision of preliminary data may be useful and collaboration with well-known/published colleagues and top centres may also help and may be a prerequisite for some kinds of application. The quality and originality of the science is the main selling point as well as convincing the review board that you/your consortium are the best placed group to do the job. A strong organisational structure showing how the fund will be managed, as well as realistic targeted deliverables and a research timeline will help convince funding bodies/assessment boards of the likelihood that the team can handle the project. Before submission of the grant proposal, a more experienced grant writer should review

the proposal. Using a checklist to assess adherence to the funding body's guidelines and grant submission guidelines is essential prior to submission.","paper_authors":["S. Cuschieri","P. Grech"],"paper_publish_year":2018,"publication_journal_name":"Early human development","consensus_paper_details_url":"https://consensus.app/papers/wasp-write-scientific-paper-writing-research-grant-cuschieri/ccfc6d9d4afc5a7ca220cb48f340d309/?utm_source=chatgpt","doi":"10.1016/j.earlhumdev.2018.07.014","volume":"127","pages":"\\n   109-111\\n   ","search_result_number":17},{"paper_title":"Software Project Management Effectiveness Evaluation Tool","abstract":"Project management is important for the success of a software project. Enhancing software project management effectiveness measurements should lead the project manager to advance practices that contribute to the successful development of software projects. This study aims to enhance project management effectiveness measurements in the direction of increase the likelihood of software project success. An enhanced evaluation model of software project management effectiveness has been proposed in this study. Correspondingly, the model fed into a developed software project management effectiveness evaluation tool. This measurement tool helps software development managers to evaluate, monitor and improve project management effectiveness in software projects. The developed software project management effectiveness evaluation tool has been validated by a feedback survey. Feedback survey participants have been demonstrated the importance of the developed project management effectiveness measurement tool.","paper_authors":["Mohamed Ellithey Barghoth","A. Salah","M. Ismail"],"paper_publish_year":2020,"publication_journal_name":"Proceedings of the 9th International Conference on Software and Information Engineering","consensus_paper_details_url":"https://consensus.app/papers/software-project-management-effectiveness-evaluation-barghoth/d05e1a06f773520187bd314db25e976b/?utm_source=chatgpt","doi":"10.1145/3436829.3436844","volume":"","pages":"","search_result_number":18},{"paper_title":"Preparing successful grant proposals.","abstract":"Getting started If this is your first grant proposal, consider attending a grant-writing workshop before beginning your project. Next, schedule brainstorming sessions with everyone who\u2019ll be involved in the process. At these sessions, participants can identify statements of need and develop a clear, concise description of the proposed project. Also determine goals, timetables, and how to eval uate the effectiveness of the project during these initial planning sessions. Include industry partners from the community in the grant-planning process because letters of commitment can easily be obtained from those initially involved. The purpose of a letter of commitment is to express the institution\u2019s support of the project. This letter should convince reviewers of the grant application (the grantor) that the project will be successful. Include the project title, a brief summary of the project, and all partners and collaborators in the letter. Show your enthusiasm here! Explore sources of grant funding early. Resources include the federal government, state and local agencies, and

professional organizations. A request for proposal (RFP), the primary source of information about each grant, provides an outline of criteria for development of the grant proposal. Consult it early and often to meet the requirements of the granting agency for the proposal. Generally, each grant proposal includes the following sections: cover letter and summary, statement of need, project objectives, project methods and design, evaluation, budget narrative, and proposal appendix.","paper_authors":["R. Make sure to define how the organization will function, its goals, and the specifics of the programs you plan to implement. \n\nBy focusing on these tailored strategies, you can effectively manage the grant writing process as a solo endeavor. This approach not only helps in maintaining clarity and direction in your proposal but also ensures that you can meet deadlines and produce a comprehensive and convincing grant application.\n\noKAY KEEPING YOUR RESPONSE ABOVE IN MIND AND GIVING YOU MY INITIAL PROMPT AGAIN: \n\n\nMy grant narrative is base around this: With the goal of improving the overall well-being of society, I propose the creation of the "Global Happiness Initiative Foundation" (GHIF). The foundation is dedicated to improving the quality of life for individuals across the globe through increased access to education, healthcare, travel opportunities, and mental health resources (Backer & Weiler, 2018; Gilbert & Abdullah, 2004; Gray et al., 2019; Ross & Wu, 1995)Links to an external site.. GHIF is committed to promoting long-term happiness and well-being, free from the limitations of health conditions. This initiative operates as a community and global cooperative effort, with an emphasis on inclusivity and universal benefit. By forging strategic partnerships and implementing innovative service delivery, GHIF aims to make a significant impact by transforming lives and fostering a more connected and joyful world.\nsome direction: \nI'm researching these things/topics: I think it's a great idea! Here's a breakdown of the strengths and some suggestions for improvement:\n\n**Strengths:**\n\n* **Comprehensive Approach:** The proposal addresses multiple factors that contribute to well-being, going beyond just happiness.\n* **Focus on Accessibility:** By emphasizing increased access to resources, the initiative targets a core issue for many.\n* **Community and

Partnership Focus:** The cooperative effort and partnership approach can leverage resources and broaden impact.\n* **Sustainability:** Promoting long-term well-being is a sustainable approach to happiness. \n\n**Suggestions for Improvement:**\n\n* **Specificity:** Consider specifying target populations within the global community to demonstrate a focused approach. \n* **Measurable Goals:** Outline specific, measurable goals to track the initiative's progress and impact (e.g., reducing depression rates, increasing access to mental health resources in underserved areas).\n* **Actionable Strategies:** Detail the specific programs, services, or activities GHIF will implement to achieve its goals. \n* **Innovation:** Highlight how GHIF will deliver services innovatively to overcome potential challenges (e.g., utilizing technology for remote access to healthcare or education).\n\nHere are some additional points to consider:\n\n* **Funding:** Briefly mention potential funding sources like grants, donations, or partnerships. \n* **Evaluation:** Explain how the initiative will measure its success and effectiveness. \n\nBy incorporating these suggestions, you can strengthen your proposal and make a compelling case for the Global Happiness Initiative Foundation. \n\nIt's also worth noting that there already exists an organization called the World Happiness Foundation [World Happiness Foundation ON worldhappiness.foundation] with a similar mission. You might want to consider how your initiative would differ or collaborate with existing organizations.\n &\nThat's a great way to bridge the gap between your local focus and the global mission of the foundation. Here's how you can adapt your proposal to reflect this:\n\n**Highlighting the Global Through Local:**\n\n* **Pilot Program:** Propose launching a pilot program in Italy and the USA to test and refine your approach. This demonstrates a global mission with a focus on initial implementation in two key locations. \n* **Focus on Shared Challenges:** Research happiness and well-being statistics in both Italy and the USA. Highlight common challenges faced by both populations (e.g., social isolation, economic disparities) to emphasize a universal approach.\n* **Culturally Tailored Solutions:** While emphasizing the core principles, explain how your programs will be adapted to the specific cultural contexts of Italy and the USA. This showcases sensitivity to local needs within the global framework.\n\nHere's an example of how you can incorporate this approach:\n\n>**Global Happiness Initiative Foundation (GHIF): Building Well-Being Bridges**\n>\n>GHIF is a non-profit organization dedicated to improving the quality of life for individuals worldwide. We believe access to education, healthcare, travel opportunities, and mental health resources are essential for well-being (Backer & Weiler, 2018; Gilbert & Abdullah, 2004; Gray et al., 2019; Ross & Wu, 1995).\n>\n>**Launching a Bi-National Pilot Program:**\n>\n>GHIF is launching a pilot program in Italy and the USA to test and refine our innovative approach to promoting long-term happiness and well-being. Both countries face significant challenges, such as [insert relevant data on social isolation or mental health in Italy and USA]. \n\n**Additional Tips:**\n\n* **Partnerships:** Research potential partners (NGOs, government agencies) in both locations to demonstrate a collaborative and sustainable approach.\n* **Scalability:** Explain how your successful pilot program in Italy and the USA can be adapted and scaled to other countries, reflecting the global nature of the initiative.\n\nBy emphasizing a global mission with a focus on initial implementation in Italy and the USA, you can create a compelling proposal that resonates with the American grant organization while highlighting the local impact you can make. \n\ngIVEN THE RESEARCH I HAVE ALREADY DONE AS INDICATED IN THE SNIPPETS ABOVE AND THE GOALS STATED IN MY PROPOSAL IDEA, ALONG WITH THE GRANT WRITING

ASSIGNMENT INSTRUCTIONS; \n\nAssignment Instructions\nYou will write a grant to the CLU Social Impact Innovation Fund grant competition. Your grant must be compelling enough to earn an award. You will complete your grant in Week 3 and Week 5. Review the RFP.\n\nFor this assignment, develop the first four sections of your proposal. Use Cowher & Dickson (2010) as your guide:\nMajor Heading \tKey Features\nIntroduction (one page)\t\nIntroduction to the organization and proposed project\nPurpose of proposed project\nGoals of proposed project\nObjectives of proposed projects\nOrganizational Capacity (one page)\t\nOrganization's history of conducting similar work\nExtent to which the organization exhibits that it is a high-performing organization and can manage a large grant\nCross-Sector Collaboration (half page to one page)\t\nExtent to which the organization demonstrates authentic collaboration with other partners\nProgram Plan (two to three pages)\t\nProposed strategies, activities, and interventions\nThe extent to which the proposed strategies, activities, and interventions are designed to address, develop, and/or improve\nThe extent to which the intervention will address stated goals and objectives\nThe extent to which the proposed strategies, activities, and interventions complement, rather than duplicate, similar efforts under way in the target community\nTimeline (create table with the following columns: Deliverables, Activities, Due Date, Expected Challenges) \nThe appropriateness of the timeline to complete stated activities\n\n\nPlease answer Part A as me   WHILE CITING THREE SCHALORLY SOURCES\n\nPart A: How are you preparing your grant narrative? What tools are you using to prepare? \nPart B: What questions do you have about writing a grant?"]}, "status":

"finished_successfully", "end_turn": null, "weight": 1.0, "metadata": {"request_id": "884892f08ad474ee-FCO", "timestamp_": "absolute", "message_type": null}, "recipient": "all", "channel": null}, "parent": "3a02bad6-2c9a-4fab-9daa-aaca058d60b3", "children": ["be502a8b-464b-4769-80a3-a4c24b66ee4b"]}, "be502a8b-464b-4769-80a3-a4c24b66ee4b": {"id": "be502a8b-464b-4769-80a3-a4c24b66ee4b", "message": {"id": "be502a8b-464b-4769-80a3-a4c24b66ee4b", "author": {"role": "assistant", "name": null, "metadata": {}}, "create_time": 1715833272.806206, "update_time": null, "content": {"content_type": "text", "parts": [

"**Part A: How are you preparing your grant narrative? What tools are you using to prepare?**\n\nIn preparing the grant narrative for the Global Happiness Initiative Foundation (GHIF), I am employing a strategic approach that leverages several tools to ensure a thorough, persuasive, and well-organized proposal. Here\u2019s how I am proceeding:\n\n1. **Research and Data Collection**: I am utilizing the Consensus database to access scholarly articles and data supporting the need for and effectiveness of initiatives like GHIF. This targeted research aids in substantiating the proposed actions and their expected impact on global well-being.\n\n2. **Project Management Tools**: For managing the grant writing process, I use Trello. This tool helps in organizing tasks, setting deadlines, and tracking progress, ensuring that all elements of the grant are addressed methodically and submitted on time.\n\n3. **Writing and Formatting Tools**: Google Docs is instrumental for drafting and refining the grant narrative. It allows for easy editing, access from any location, and secure storage of drafts. The real-time editing feature is particularly useful for reviewing and making instant changes.\n\n4. **Reference Management**: I employ Zotero to manage and organize the scholarly references needed for the grant. This tool simplifies the citation process and helps maintain an accurate bibliography, which enhances the credibility and scholarly depth of the proposal.\n\n5. **Statistical Analysis**: For any data analysis required, I use SPSS. This software supports the analysis of well-being indicators and helps present data in

a clear, understandable manner, which is crucial for justifying the GHIF\u2019s objectives and expected outcomes. \n\n**Cited Scholarly Sources**:\n\n- **Allen, B. (1984)**. It is widely used by researchers to manage and analyze data, perform complex statistical data analysis, and generate tables and graphs to help understand data patterns and outcomes. SPSS is particularly favored for its user-friendly interface, which allows users with little programming knowledge to perform advanced statistical analysis.\n\nIf you're looking for more layman-friendly alternatives to SPSS, here are a few options that might be easier to use or more accessible:\n\n1. **Microsoft Excel**:\n   - **Pros**: Widely used and familiar to most people, Excel offers various built-in statistical functions and data analysis tools. It\u2019s great for basic to moderately complex analyses.\n   - **Cons**: Less powerful than SPSS for advanced statistical tests and larger datasets.\n\n2. **Google Sheets**:\n   - **Pros**: Similar to Excel but cloud-based, so it allows for easy sharing and collaboration. It includes various add-ons for statistical analysis.\n   - **Cons**: Like Excel, it\u2019s less suitable for very complex or large-scale statistical analyses.\n\n3. **JASP**:\n   - **Pros**: A free and open-source software that is considered a user-friendly alternative to SPSS. It provides a smooth interface for

both traditional and Bayesian statistical analyses.\n   - **Cons**: It might not offer as extensive a range of analyses as SPSS. \n\n4. **PSPP**:\n   - **Pros**: A free, open-source alternative to SPSS with a similar interface, designed for similar types of data manipulation and analysis.\n   - **Cons**: It might not have all the latest features and tests available in the most recent versions of SPSS. \n\n5. **Statistical**:\n   - **Pros**: Another free tool that's simpler than SPSS but still offers a range of data analysis capabilities.\n   - **Cons**: May not be as comprehensive in features compared to SPSS or lack some of the advanced statistical options. \n\n6. **SAS University Edition**:\n   - **Pros**: Provides a free version for students and learners. It\u2019s powerful for advanced statistical analyses and widely respected in many professional fields.\n   - **Cons**: Has a steeper learning curve than SPSS and may be overkill for simpler projects.\n\nEach of these tools has its strengths and might be preferable depending on your specific needs and familiarity with data analysis software. If your data analysis needs are straightforward, tools like Excel or Google Sheets might suffice. For more detailed statistical analysis with an easy-to-use interface, JASP or PSPP could be excellent alternatives."]}, "status": "finished_successfully","end_turn": true

These tools are both free and open-source, making them practical and accessible alternatives to the commonly used Statistical Package for the Social Sciences (SPSS).\n\n**JASP** offers a user-friendly interface that simplifies both Bayesian analysis and frequentist methods, making it exceptionally beneficial for comprehensively analyzing well-being indicators. This software ensures that statistical analysis is accessible not only to statisticians but also to researchers with a limited background in statistics, facilitating an intuitive understanding of results. \n\n**GNU\u2019s PSPP**, on the other hand, reflects a broader initiative under the GNU Project, which is committed to developing and distributing software that respects users' freedom. The acronym GNU stands for \u201cGNU's Not Unix,\u201d highlighting the project\u2019s origin as a cheeky geek pun while emphasizing its role as a comprehensive suite of free software, mirroring the functionality of Unix systems but consisting entirely of free software. PSPP in this context is designed to perform complex statistical analyses, similar to those handled by SPSS, supporting a wide range of statistical tests crucial for validating the effectiveness of proposed initiatives within the Global Happiness Initiative Foundation. \n\nUsing these tools, I will be able to present data in a clear, understandable manner, which is crucial for justifying the foundation\u2019s objectives and expected outcomes. This approach aligns with the importance of comprehensive data analysis tools in evaluating community health initiatives, as highlighted by Petersen (2002) [(Petersen, 2002)](https://consensus.app/papers/social-capital-measures-evaluation-comprehensive-petersen/8cee80cc2a785ed18291fff65f6ed465/?utm_source=chatgpt).\n\nBy employing GNU\u2019s PSPP and JASP, I ensure that the statistical analysis is not only robust but also adheres to the principles of open-source software, offering transparency and

modifiability that are critical in academic and applied research settings. \n\n---
\n\nThis explanation provides a clear understanding of both the functional role of
JASP and PSPP in your data analysis process and the philosophical alignment with the
open-source movement represented by GNU, adding depth to your rationale for selecting
these tools."]}, "status": "finished_successfully","end_turn": true

Coley & Cynthia A. Scheinberg","abstract":"Coley and Scheinberg\u2019s Proposal Writing: Effective Grantsmanship is a strong example of the kind of resource I recommend all MSWs have on their bookshelf: a clear and concise primer on the process of writing a strong grant proposal. The book clearly describes the nuts and bolts of proposal writing, highlights major pitfalls often encountered, and offers sound advice on ways to increase the probability of funding success. The book begins by offering an overview of the major types of funding proposals (government/foundation/corporate) and outlines the major components of a proposal, all along the way offering the reader

useful suggestions. In the case of a co-written proposal, for example, the authors recommend assigning a point person responsible for pulling pieces together in time to meet submission deadlines. In the case of a nascent organization, they suggest exploring the possibility of a partnership with a more established agency that might bring more credibility to the initiative. Chapter two offers a brief (and not terribly informative) discussion of the usefulness of technology in finding and evaluating potential funders and sources of data on both the intervention and community. Future editions of the book might highlight AmericanFactFinder, which makes accessing community-level census and American Community Survey data relatively easy. The authors then turn to a discussion of the importance of understanding the agency (to identify strengths and weaknesses), the funder (to identify priorities), and the community (to identify goodness-of-fit). These elements are important not simply for the purposes of writing a strong proposal, but also more critically for effective program development that meets the needs of the community in an accessible manner. Before seeking funding, the authors challenge readers to ask, \u201cIs the service the right one for the client?\u201d (p. 29). After laying the groundwork, the book discusses the major components of the proposal: the needs statement, the goals and objectives, the project narrative, the evaluation plan, the budget, and \u201cfinishing touches\u201d such as the cover letter. These chapters are strong because they mix description of the form and function of the components with advice for

strengthening","paper_authors":["H. Shaefer"],"paper_publish_year":2011,"publication_journal_name":"Administration in Social Work","consensus_paper_details_url":"https://consensus. app/papers/proposal-writing-effective-grantsmanship-soraya-coley-shaefer/aa132f6b40ab5d5a82135ca5852ad458/?utm_source=chatgpt","doi":"10. 1080/03643107. 2011. 614542","volume":"35","pages":"551 – 552","search_result_number":2}, {"paper_title":"Book Review: Successful Grant Writing: Strategies for Health and Human Service Professionals (2nd ed.)","abstract":"The second edition of Successful Grant Writing: Strategies for Health and Human Service Professionals sets out to address the topic of writing competitive grant applications from the perspective of the health and human services professional. The book is edited by Laura Gitlin, Ph.D., and Kevin Lyons, Ph.D., whose wide experiences during the last 20 years have prepared them for this endeavor. In fact, the first edition of this book (1996), edited by Dr. Gitlin, was widely adopted and was a top-selling textbook at Springer Publishing Company. In the preface of the updated edition, the authors identify the niche market for this book. It is specifically designed and written for health and human services professionals in academic and practice settings who are either inexperienced grant writers or those who have had some success but would like to expand their knowledge and become more competent in obtaining external support. The 320-page book fulfills this goal. It is easy to read and provides the reader with an excellent overview of the grant writing process. The book is carefully organized into six parts: the perspective of the funding agencies and the grantee, writing the proposal, models for proposal development, life after a proposal submission, and receiving the grant award. Chapter 1 introduces the language of grantsmanship including 14 common terms. Important information is presented in a clear and concise manner in the text, boxes, and chapter summary. For example, the components of a

professional growth strategy are displayed in Box 1-2, and each component is carefully detailed for the novice, intermediate, advanced, and expert researcher. Figure 1-1 displays the research trajectory from novice to expert and is a valuable tool for the reader and for faculty who are teaching research courses. Chapter 2 describes the current funding environment and how to identify potential sources of funding for health and human services professionals. In Part II, the reader is introduced to ways of identifying a novel idea and matching it to a funding opportunity. Box 3-1 clearly outlines \u201cwhat is hot and what is not\u201d (p. 61). Once a promising idea appears to match with the interests of a funding agency, the authors urge the researcher to learn more about the policies

This chapter describes, with telling graphics, the way to plan the composition of an extremely large proposal. Since such documents may consist of several volumes, each volume and even sections of volumes must be approached methodically and in detail. To help writer do this, the chapter suggests seven strategies that can be implemented at specific points in the proposal planning phase: will-to-win strategy, customer development strategy, assessing the competition, pricing strategy, tactics and themes, proposal presentation, strategy review strategy. The chapter includes a flowchart of actions to be taken before receiving the Request for Proposal (RFP) and offers advice on the formatting and packaging of the final document. It also reminds us that illustrations are not just for decoration but must be part of our message or sometimes even the message itself.","paper_authors":["D. F. commonly advised to make plans of their essays before they begin writing, yet there is little empirical evidence on the nature, role or efficacy of essay planning. This paper examines findings from a recent study of coursework essay\u2010writing as an aspect of student learning in the social sciences. A total of 16 Psychology and 17 History students took part in the investigation, which mainly took the form of two sets of semi\u2010structured interviews. From an analysis of the interview transcripts, five planning strategies were identified. However, it was apparent that to gain a full understanding of the nature of planning, it was necessary to examine these strategies in the light of the main findings of the study\u2014a qualitative analysis of differences in the students\u2019 conceptions of what an essay was and what essay\u2010writing involved. In sum, what seemed important was less how a student planned than what planning was directed

towards.","paper_authors":["D. Hounsell"],"paper_publish_year":1984,"publication_journal_name":"Higher Education Research & Development","consensus_paper_details_url":"https://consensus.app/papers/essay-planning-essay-writing-hounsell/d385007c9fa8571a99b3f5db57a18d4b/?utm_source=chatgpt","doi":"10.1080/0729436840030102","volume":"3","pages":"13-31","search_result_number":8},{"paper_title":"The Drafts of Strategy: Opening up Plans and their Uses","abstract":"This
paper aims to show empirically that strategic plans may contribute to the emergence of new strategies, and not just to programming of predefined strategies. It does so thanks to a novel approach to planning, in which the analyst opens strategic plans, reads their contents, and studies how business actors use them. This method is applied to the analysis of Renault's investment strategy in Brazil in the mid-1990s. The author demonstrates that, although the planning process may have acted during this investment as a constraint on innovative strategising, the plans that were produced in order to prepare the investment were open, creative documents. Thanks to their visual and textual representation of contexts and strategies, these plans enhanced strategic imagination more than they hindered the conception of new strategies. The paper argues that all plans may play such a role, depending on how they are written and read. It concludes with recommendations on how to best read and write

plans.","paper_authors":["M. Giraudeau"],"paper_publish_year":2008,"publication_journal_name":"Long Range Planning","consensus_paper_details_url":"https://consensus.app/papers/drafts-strategy-opening-plans-uses-giraudeau/8ced5f4edf3b58d68eef44812d1fe0db/?utm_source=chatgpt","doi":"10.1016/J.LRP.2008.03.001","volume":"41","pages":"291-308","search_result_number":9},{"paper_title":"Book Reviews: Current Resources For Grantwriters","abstract":"The
interconnected nature of the proposal components is emphasized in this book. The authors stress that grant writers need to communicate the thrust of the project in a direct and integrated fashion. They assert that clear, understandable language which quickly helps the reader understand the proposal is critical to a successful review, and they offer suggestions for structuring and writing the proposal to enhance

comprehension. They recommend conventions for clearly presenting key components such as timelines, work scope, and evaluation plans, and they also offer ideas for designing an evaluation plan that is responsive to project components, has a high potential for effectiveness, and will be simple to operationalize. The budget planning process is analyzed, with examples for developing budget components, displaying and communicating them effectively, and outlining strategies for generating future funding. Finally, the authors provide ideas for communicating the capability of the agency in a way which emphasizes strengths and capacities to implement the project successfully.","paper_authors":["Wilfred Wienke"],"paper_publish_year":1996,"publication_journal_name":"Teacher Education and Special Education","consensus_paper_details_url":"https://consensus.app/papers/book-reviews-current-resources-grantwriters-wienke/715106da10e25e01bf8542f795950429/?utm_source=chatgpt","doi":"10.1177/088840649601900325","volume":"19","pages":"272 – 276","search_result_number":10},{"paper_title":"Successful proposal strategies for small businesses: using knowledge management to win government, private-sector, and international contracts. sixth edition (frey, r.s.) [book reviews]","abstract":"The sixth edition of this book provides a valuable guide applicable to businesses small, medium, and large. The book contains 24 content-rich chapters, four appendices of additional resources and tools, a handy list of acronyms and abbreviations, an extensive bibliography for further reading, and a detailed index, as well as a compact disc (CD) full of usable forms and documents described in great depth in the book. Internalization and application of the tools and practices presented in this book should help any US business write successful proposals that win a variety of types of contracts both domestically and internationally. Overall, this book is an exceptional resource for companies of all sizes-not just small ones-looking to create successful proposals. One notable problem with the text is its incredible length. This book is a total of 716 pages of single-spaced text that would take approximately a week of five hours of reading per day for an employee to finish (figuring two minutes per page, plus time to peruse the CD), and it is unlikely the average employee or manager has that kind of time to spare. Another issue is that it does not provide any information for a foreign business looking to do business with the US. Though the general business advice and proposal writing strategies contained therein seem as if they would be equally applicable to an internationally-based company, a separate chapter or at least a section in Chapter 22 on such concerns would make the book more universally appealing and could enable greater international sales of it. Aside from those concerns, however, this book is a highly valuable tool crafted by an experienced professional.","paper_authors":["Robert S. Frey"],"paper_publish_year":2013,"publication_journal_name":"IEEE Transactions on Professional Communication","consensus_paper_details_url":"https://consensus.app/papers/proposal-strategies-businesses-using-knowledge-frey/afbc16d9cab45ac691df0418c12109ef/?utm_source=chatgpt","doi":"10.1109/TPC.2013.2246358","volume":"56","pages":"86-88","search_result_number":11},{"paper_title":"The writing strategies of graduate research students in the social

sciences","abstract":"SummaryA 35-item questionnaire concerning writing habits, experiences of writing and productivity was sent to 228 full-time, U.K. domiciled, social science research students. One hundred and one complete responses were received. Cluster analysis was used to identify three distinct groups of students in terms of the strategies they used when writing: \u201cPlanners\u201d, who planned extensively and then made few revisions, \u201cRevisers\u201d, who developed content and structure through extensive revision, and \u201cMixed Strategy\u201d writers, who both planned before starting to write and revised extensively as part of their writing processes. The Planners reponed higher productivity than both the Revisers and Mixed Strategy Writers. Planners and Revisers did not differ significantly in how difficult they found writing to be; Planners found writing less difficult than did the Mixed Strategy Writers. We conclude that working from a plan can be an effective writing strategy for some, but that planning is neither a necessary nor a sufficient condition for writing success.","paper_authors":["M. Along the way, I have learned a thing or two. If you are thinking seriously about writing a casebook, you might find these tips useful. In this Article, I will discuss my theory for writing a casebook, how to organize the book and select cases, and how to get your book published.","paper_authors":["M. Moskovitz"],"paper_publish_year":2000,"publication_journal_name":"Seattle University Law Review","consensus_paper_details_url":"https://consensus.app/papers/writing-casebook-moskovitz/b976c79119f35c9ca2ab468ee466e0ef/?utm_source=chatgpt","doi":"","volume":"23","pages":"1019","search_result_number":14},{"paper_title":"How writing works: a field guide to effective academic writing","abstract":"Good writing skills are essential, particularly for those pursuing academic, creative, and professional careers. For new academic researchers, adapting to academic writing norms and awareness of expected academic writing standards are likely to help them better prepare for their studies. Roslyn Petelin provides valuable advice and useful strategies for researchers and other writing-reliant workers in her book How Writing Works: A Field Guide to Effective Writing. In the first two chapters of the book, the relationship between reading and writing processes is discussed. On the one hand, it is suggested that conscious, sustained reading of excellent writing helps the novice to absorb ideas about the craft of writing, including word choice, sentence structure, paragraphing, and punctuation. On the other hand, Petelin develops a heuristic for professional writing which includes considerations of the writing\u2019s subject, purpose, readers, and context. She suggests that the adoption of this framework in the early writing process enables writers to consider how to convey their ideas accurately to intended readers from different backgrounds. In the following eight chapters, practical strategies are offered for using elements of grammar, sentence structure, punctuation, and genres in written presentations. For example, Petelin suggests that the use of \u201cstrong\u201d verbs, instead of \u201cheavy\u201d nouns, gives academic writing a direct, dynamic tone. To enhance the quality of written documents, Petelin provides an assessment checklist for academic writing which may be used as a quality-control mechanism. Readers will find concrete advice in this book, to assist them from the conceptual stage of writing to the final proofreading. The strength of this book lies in its being well organised for practical purposes. Each chapter consists of theoretical discussion and practical exercises to enable the application of the theory. For example, in Chapter eleven, which offers guidelines for revising documents, there is a practical exercise to test the reader\u2019s ability to identify and correct common sentence errors. Thus, newly acquired skills can be immediately applied to post-chapter activities, thereby reinforcing the impact of theoretical learning. Overall, this is a systematic general-purpose book. Its potential use is not restricted to educators and researchers, but, for me, as a non-native English speaker and junior researcher, working with Roslyn Petelin\u2019s book helped me to master the standards required of various genres within academic writing. This book is a good starting point for researchers who are exposed to an English writing environment for the first time and is likely to help them to enhance their writing efficacy.","paper_authors":["Jie
